#### WILCOX ACADEMY.

Gentleman and Lady, well qualified to in A struct in the various branches of Male and Female Education, would find a suitable situation in this Seminary. It is located in the County of Wilcox, in the State of Alabama, a mile and a half from Canton, the Seat of Justice of aid county, in a healthy and desirable neighborhood. The building is a large, two story house, fifty by twenty-five feet; the lower story is divided into School rooms, and the upper s appropriated as a residence for the Teachers, is sufficiently spacious for the accommodation of several Boarders, with necessary outhouses attached. This Institution has been in operation nearly two years, the average number of Students since its commencement have been from tifty to seventy, and the rates of tuition from vieen to thirty dollars per annum. The exeme healthiness of the situation, the public pirit of the neighborhood, and the fact of there being no Institution for instruction in the higher Branches of Literature in a considerable distance of this place, would, as we believe, be the means of affording ample compensation to those qualifiel to discharge the duties of the Institution. It is desirable that the exercises of the Institution should recommence early in January next .-Applications must be accompanied with testimonials of character and qualifications-and addressed to the undersigned at Canton, Alabama. D. C. SMITH, Secretary. August 7, 1830.

The Counties of Brunswick, Haywood, Macon, Tyrrell and Washington, remain to be heard from. We will thank some person in these Counties, to communicate the result of the several elections to us.

We find in the last Salisbury papers, a letter from CHRLES FISHER Esq. in reply him that reports were extensively circulating, alleging that he is an advocate of the doctrines of nullification and disunion. While Mr. F. contends, that any state has a right to secede from the Union, he declares emphatically, that his sentiments on the present crisis, in our national affairs, have never been concealed but openly and freely expressed, and always, against any thing that looked like disunion.

The Rev. Mr. NORMENT of Scotland Neck, has been invited to take charge of the Episcopal Church in Hillsborough, vice the Rev. WILLIAM M. GREEN, the precarious state of whose health will not permit him longer to officiate as Rector. Mr. N. has accepted the call.

Louisiana .- Notwithstanding the people of this State, have just elected a Governor and an entire delegation in Congress, opposed to the present administration, the Jackson presses contend that a majority of the members of the State Legislature are opposed to Mr Clay. That is, they wish to convey the impression that a Jackson Senator in Congress, will be chosen in the place of Mr. Johnson, who is the personal as well as political friend of the "great commoner." Having lost Kentucky it is not strange that they should hazard such desperate statements for the purpose of encouraging their dispirited party.

Journal, to the result of the late Kentucky Election, is most unfortunate, as by this time, the Editor has doubtless discovered. His sanguine temperament, we are confident, will lead him into similar quandaries, before 1883.

Nullification .- We are glad to learn from Charleston, that the friends of the Union have nothing to fear from the ma- improvement of its readers. chinations of a few heated, wrong-headed politicians of that city, who are constantly preaching disunion. Charleston will be true to the Union, to the State. and to her own character, and will trust no man with her destinies, who is even suspected of Nullification and Disunion principles. She has within her bosom, hundreds of talented, high-minded men, who will unite with the friends of their Country, and preserve the State from the most fatal of all calamities-a Civil War! We learn also from the western parts of South-Carolina, that though great pains have been taken to gain the people over to the disunion party, they have entirely failed .-We trust therefore, that the contemplatin to-day's Register, from the National Intelligencer,) will prove a complete failure.

Washington's Opinion on Manufactures. -So long ago as the year 1796, in his Speech to both Houses of Congress, Gen. Washington thus expressed himself :-"Congress have repeatedly, and not without success, directed their attention to the encouragement of Manufactures .to one received from a friend, informing The object is of too much consequence, not to ensure a continuance of their efforts, in every way which shall appear eligible .-Ought our Country to remain dependant on Foreign supply, always precarious, because liable to be interrupted?" Everytrue Patriot, if he duly considers the question, will say, it ought not.

> The Elizabeth City Star also notices the effects of the Gale. It says "we learn there are 22 sail ashore near Matasel about 70 tons, laden with turpentine, The fine fields of Corn which lately looked so promising have been prostrated by the gale, and so much injured, that it is believed not more than half a crop will be realized. Crops in Georgia. - It is stated in the Milledgeville Journal, upon the authority of a gentleman who has travelled extensively, in the middle counties of that State, that the Wheat, Rye and Oats are more abundant than ever before known. In one county from 62 bushels of Seed Wheat, 148 bushels were gathered. > Casualty.-Yesterday evening Robert H. Watkins, while at work in some machinery in the shop of Mr. John Wilson in this place, received an injury from a fall which caused his death in about 15 minutes. County Affairs .- The August Session of the Court of Common Pleas, for this County was held last week, and though the number of suits disposed of, were few, yet the time of the court was wholly ed meeting in Columbia, (see an article occupied by business, even to the last day of the term, (Saturday.) A late act of the Legislature having required that the Sheriff elect should enter into bonds, on the first or second day of the term, and before a majority of the justices, or, in default thereof, that the court should declare the office vacant and proceed to fill the vacancy, several attempts were made on Tuesday to obtain a majority for the former purpose, but without success. This difficulty was owing to the heavy rains which fell during almost the whole of that day, and rendered travelling at this season highly unsafe, & not to a want of punctuality on the part of those who are appointed to discharge this duty. In the evening expresses were sent off, by order of the court to require the attendance of its members; and on their return, late at night, the court assembled; and not having the requisite number, adjourned without taking the bonds. The next day, a legal quorum being present, it was decided that as the Sheriff elect had within the time prescribed by Law, presented good and sufficient bonds, there was no such failure as was contemplated by the act of Asssembly, and accordingly received the bonds and administered the oaths of office. Thus ends, in our county, the first election of the Sheriff by the people, an election to which, no one can doubt, they have a right, but which they had deposited in other hands, where it would have safely remained, except for the unsolicited interference of some of our remuskeet, in Pamtico Sound; and a ves- presentatives; who seem to act upon this maxim-legislate if necessary, and if not,

Mr. Richard Saunders, is peculiarly unfortunate, having lost all his works, his barns, and out houses, and his crop of corn, &c. Wreck off the Frying Pan Shoals .- Brig Katharine, Capt. Mayo, from Havanna, bound to New-York, laden with 600 boxes Sugar, and about \$12,000 in specie, stored in the run; under the boxes, was wrecked off the Frying Pan Shoals, during the late storm. Her masts were cut away, about ten miles from shore and her anchors let go to hold on until the fury of the storm abated, in order to keep her off the shore and to enable the crew to save their lives. The crew were saved with the exception of one, who was drowned by the upsetting of the long boat. The Captain and rest of the crew, meeting the brig New Hanover bound for New York; took passage in her. The pilots were continually in search of the brig to the 21st inst. when she was discovered floating, even with the water, near the place where she is supposed to have been feft by the crew. A few pounds of sugar and wo chain cables were saved. The sea was still rough and little could be effected.—ibid.
