The time for inoculating is, from the middle of June until the middle of August, (in America from the end of June to the end of August) according to the forwardness of the season, and the particular sorts of trees to be propagated; but who desire to become acquainted with the the time may be easily known, by trying the buds, whether they will come off well from the wood, or not. However, the most general rule is, when you observe the buds formed at the extremity of the same year's shoots, which is a sign of their having finished their saring growth. Forsyth on Fruit Trees.

THE END OF "GREAT MEN."

Happening to cast my eyes upon printed page of miniature portraits. I perceived that the four personages who occupied the four most conspicuous places 4 00 were ALEXANDER, HANNIBAL, CESAR, and 2 00 BONAPARTE.
