THE PRESIDENTIAL ELECTION. From the National Intelligeneer, When the mariner has been tossed, for many ongrees afforded no striking incidents. was the pelicy of st the party, " with a ovident regard to its own interest, to a id decisive action apon any leading pub spose of the prevailing party was greatforthered by the occurrence, at that ere got through Of course, we had no ary, and as now distorted, most dangercan be more dangerous in the hands of w individual than that of saving, there all be no law but my will. Buch in efpt is the veto of the President, as now ay, it is true, become a law if it shall re-passed in the Senate and House of epresentatives by two-thirds of the votes intemptible indeed, if, what between ersonal attachment and pacty association, ne hope of reward and the fear of punbment, the Administration cannot court on the loyalty of one-third of one or e other House in any conflict between e President and Congress. We never pect to see a bill massed by Congress is ske such calculations - who flatter themthe public will, and with entire rocksaness of consequences, than the power this gs are par, it may happen, which were the President to negative all bills which never dreame of in the President's philopresented for his signature. I sophy. If the President were to write s abuse of power; that when the Prefent carries it with too high a hand, he y be impeached. We have no more hef in impeachment than we have in the fallibility of human nature. In our deerate opinion, there is matter in the te Vieto Message to mustify an impeachent of the President of the U. States : d if it be not found there, we are quite e that it is to be found in the late reim desiring to see an impeachment prose, because we are sore it would ultiately fail, and thus agitate the country thout advantage. It is to the awaken-

and of course no exercise of the veto, during the session of which we speak, there was enough of veto dootrine, and other food for speculation, in the Message of the Bank ! the Executive at the opening of the session, to demand at least a passing glance.

that Message in defence of the Veto upon Internal Improvements, &c. will be well

100

an amendment ut the Constitution, removing al of offices generally. The reason still exists:
and trenew the recommendation, with an incre-sed
confidence that its adoption will streng then those trate. In order, particularly diat his appoint that he mariner has been tossed, for many thate. In order, particularly, that his appoint that, and on an unknown sea, he naturally avails himself of the first pause that he storm, the earliest glance of the sun, to that he may approper unfluences, in order that he may approper unfluences, in order that he may approve that he may approper unfluences, in order that he may approper unfluences, in order that he may appropriately that invite your attention to the propriety of promo

The Second Session of the Twenty-first ting str han amendment of the Constitution, Thus solemnly did the President affirm hat no President of the United States aught to serve more than one term of ser squestione, while they might, without vice, whilst, it is now known, he had de inmeg friends proportionably, alienate termines to be himself a candidate for re me partion of the popularity attached to vication. We have here a memorable exlittle skaken by the batch of Vetus at profession and practice which we have Bank, have constitutionalized the present e close of the Session preceding. This shewn to have characterized the previous one. If the government of the Bank har he capacity, indeed, the President seems of the Portsmouth Branch, and pura par plausible and even beautiful theories, as constructing plausible and even beautiful theories, as constructing that a constructing plausible and even beautiful theories, as constructing plausible and even beautiful theories. or so many days, that it was with dolli. ther may large the pleasure of domnish. for the President to play upon a if it had conceiving that her best inter size if not the ordinary appropriation bills ing then when they are done. His was suffered diegal agents to make ducks and her final destines, are involved in the etos at this Session, There was no call more than one term was so " deep" that Pensions, it would have ceased to be "ob are now earled upon to make, we claim is them. " There was no temptation of he should be "Avanting in his dary" if he naxious to constitutional objections." e President to the exercise of his arb. withheld a repeated expression of it; and What is the meaning of the closing sug- freeman's daty, in freely discussing the is power. Yes, dangerous ! What pow- upon Congress, he was acting directly in a loss to congress the learned E. learlessly expressing our opinions of their weised A measure which he interdices re-election ;-the same journal whose Ex- systems, nations of which he brought with be bonest. We implore you by your love each House. In this Government, how found, Whilst the President's confidence with contracts, currency and exchange, every avenue to your understandings .er, the Executive influence must be that be combined to serve a second term was marting for a capsheaf In Govern Jackson it is impossible wo ntemptible indeed, it, what between was, according to the Message, on the tuposition to the Veto. They who do red, made a report exactly conforming to to doubt, however, that the President's lves, for example, that a bill may pass dation! These facts, which no one will last Veto Message he could have furnishongress to re charter the Bunk, notwith. andertake to comtrovert, if they afford no ed to Congress, if called upon, would have anding the President's objections-have other instruction, should be as a lesson to been the very ditto of that which he so better opinion of human nature than we all luture Presidents to avoid mistakes solemnly recommended in his second anmertain. The most absolute despot on such as this, inseparable from the pract and which his friends, as popular favor, and blessed with the un-

by choice. tallied. That subject is the BANK OF THE William's Secretary. hagnes his freams. It is at his fireside : and Resolutions :g reason of the people that we must look it is in his cabinet; he takes it to the Ca-

far consemption exclusively, into which

In the Message which we are now speaking of, the President thus, for the second

" It is thought practicable to organize such a

testifution which regulares the ptheonghe their hands; while the Bank of the individual whims and projetties against the We have inserted this paragraph at

re-clegibility of that , licer and upon the tenute image of this most curious monster, which the President seriously proposed to Congress to organize. Here was to be a Bank, theeks by which the Cossilation designed to under the thumb of the President, which the Congress to and promote the healthful and paper, though it was to sell bills of exchange; which was to have no debtors, it has created. The agent most akely to controvene though it was to receive and exchange the ragraph now quoted he tells us whit, The will reader inm hielegible ofter meterm of years? present Bank, it uppears, is deemed un constitutional because it is not owned by nobody, but by stockholders ! Because it lends money - Because it holds property! Freed from these objections, the President thinks it would be constitutional. We election. We have here a memorable ex. could point out a Reform which would, without the trouble of establishing a new course of this Adudustration. In his pub. removed Mr. Mason from the Presidency

whilst he was pressing again this opinion gestion of the above quotation, we are at relative merits of the Candidates, and in the treth of it. A new journal was even ditor of the Globe had a hand in the Mesthen in contemplation, and was soon af sage, and intended, by the phrase of enterestablished, arthe Seat of Government, largement by legislative provisions, a retras the pet officers of Government have him from Kentucky. In whatever sense official franks, in extending the circulati- an existing Bank --- of tampering by law

her. It was not many weeks afterwards, recommendation met the same fare in that Mr. McDorrie was denounced as an Congress with its predecessor; and to enemy to this same Official journal, for this day we have met with no individual having, as Chairman of the Committee of so hardened against all sense of shame; the House of Representatives, to whom as to be willing to stand before the Pubthe above part of the Message was refer- lic, and defend it. We have no reason lice." the President's every earnest recomment project of a Bank, which he says in his as it is now wielded, in utter defiance cating up Executive Messages for popu. condemned.

CLAY MEETINGS.

IN SURRY COUNTY.

y be said, that there is a remedy for his own Messages, and in so doing express A meeting of citizens oppose! to the his own thoughts, such things as this could re-election of Gen.
