Medicines, &c.

New and Valuable Medicines.
Butler's Effervescent Magnesian Aperient.
For the prevention and cure of Indigestion, Bilious and Liver-complaints, Nervous Weakness, Headach, Heartburn, Habitual Constiveness, Giddiness, Cutaneous Diseases, &c. The surprising efficacy of this superior Medicine has obtained for it the patronage of the most eminent persons both in Europe and at the North, whose high encomiums, together with its extensive and increasing sale, fully prove its pre-eminence, and bids fair to render it the most popular remedy extant. To the dyspeptic, the sedentary, and studious, it will be found invaluable, from its promoting a proper action of the liver in the secretion of bile; or the correction of it when in a vitiated state. Obstructions of the stomach or bowels are gradually removed, it restores the appetite, and gives tone, strength, and energy to the system. Travellers, and residents in warm climates, will find Butler's Magnesian Aperient a most desirable article; it prevents any accumulation of bile, is portable, and the method of preparing it unusually convenient. Children have frequent recourse to gentle and cooling purgatives, and they will take Butler's Aperient with pleasure to any other. By merely pouring water on a teaspoonful of this Aperient, a cooling and grateful Effervescent beverage is obtained, resembling Soda Water in the taste, and imparting to the constitution all the benefits of the Congress Water at Saratoga.
Carpenter's Saratoga Powders.
These powders form an Effrvescent Aperient draught, possessing all the medical virtues of the Congress Springs at Saratoga.
