considered too extravagant for his purposes, this Administration is carrying out to the very letter. Let us reform these abuses, reduce our expenditures, and bring back the Government to its ancient republican simplicity. This is the relief which the people have a right to expect at our hands.

I have but one word more, and I am done. Frequent allusion has been made in the course of this debate to the financial system recommended for our adoption in the Message of the President. He admits that the experiment performed by his illustrious predecessor, of making the State banks the fiscal agents of the Government, has signally failed. "KEEP THE PEOPLE BACK!"

When Appius Claudius heard the murmurings of the Roman citizens against his unjust measures, he cried out in his perplexity, "Keep the People back!" For a while, his commands were effectual, and the swelling tide of indignation was temporarily stayed, but his efforts to smother the kindling spirit of resistance were vain and fruitless-and in a little while, the unworthy Decemvir was hurled from his throne to a prison.

the late movements of the People, to remind him of this sudden subversion of fancied strength and security. He had frequent causes mentally to exclaim:-"Keep the People back!" But "still they come." From Maine to Georgia," the rebellious spirit of the "democracy of numbers" has been manifested. From the wilds of Arkansas to the green mountains of Vermont, the thrilling voice of regenerated millions has been borne on the passing breeze. Neither the promises of gold. nor the mandates of a stern chieftain have been sufficient to "keep the People back." They have rushed to the rescue of a violated Constitution-they have gathered in their strength, and sundered the shackles of a stupefying idolatry. Witness the work of regeneration.

In Maine, a State begirt with customhouses, and overrun with Government stipendiaries, a majority of 10,000 for the Administration has been overcome, and the Whigs have triumphed by 500 majority.

Connecticut has given symptoms that when the country is really in danger, her people will gather in their strength, and aid the good work.

Maryland is steady in the cause of the Constitution, and will not falter.

Pennsylvania has given unequivocal signs that the seeds of regeneration are quickening, and that good fruit will be ripened for the general harvest. Last year the Van Buren majority in the Legislature was 28; now it is but 12.

TWENTY-FIVE FACTS.

The subjoined array of facts, succinctly stated, is from the New Jersey Fredonian, one of the most respectable Journals in that or any other State of the Union. It presents weighty as are the whole of these charges, qually condemnatory and equally true.-Posterity will read with wonder that a party justly chargeable with such abuses of power, and so signal a failure in all the promises by which it deluded the multitude and obtained possession of the Government, should have been able to preserve ple so well informed as the major part of will solve the enigma, when it unfolds the influence which patronage is capable of exerting in corrupting the People, and controlling the freedom of elections. Being a native of North Carolina, and feeling the deepest attachment for the land of his fathers, the undersigned, as a conductor of a newspaper, will, under all circumstances, lend his humble aid to the promotion of her welfare, and to the protection of her rights, as his first and paramount duty.

In Federal politics, the Examiner, as heretofore, will be conducted on Whig principles. MILITARY On Tuesday last, Gen. D. S. CRENSHAW, attend

ed by Col. Manoum and Maj. FLEMING, reviewed the two Regiments of Wake County Militia, in this City. The day was uncommonly fine, and we have rarely, if ever, seen a larger assemblage of our County men. The interest of the day was a good deal heightened by the appearance, on the field, of His Excellency, the Governor of the State, who, in compliance with the wishes of the General, united in the ceremonies of the occasion. At the close of the Review, the Regiments were addressed by Gen. CRENSHAW in a neat harangue, in which the rela tive duties of Officers and Soldiers were well pourtrayed and zealously enforced. Gen. C. is, we presume, the most youthful Officer of his rank in the United States, having just reached his 21st year; but he has the bearing of a soldier and the manners of a gentleman.

A new Volunteer Company, with neat Uniform under the command of Capt. STEPHEN STEVENSON made its first appearance, and contributed greatly to the effect of the Parade. The members seem to have great military pride, are well drilled, and march with the precision of veterans. They are called " The Wake Guarde."

At a Court Martial, the day previous, WILLIAM A. WILLIAMS was elected Colonel, W. S. D. HUTCHINGS, Lieut. Colonel, and Wm. THOMAS, Major of the 35th Regiment, and JOSHUA ROGERS. Lieut. Col. and WILLIE POPE, Major of the 36th Regiment.

UNITED STATES-FORCE OF EXAMPLE.

It is often said that the eyes of the world are di-

rected towards America; and we may add, that they are fixed upon us with a more and more intense interest. Thousands there are, in every enlightened nation of the world, who are hoping that their communities may enter upon the same or a similar career, and they are naturally looking to us as the Believing that the late Administration assu- fore-runners in the great race of political freedommed to itself, and exercised powers, not dele- The advocates of despotic rule are as eagerly watch- cation of this very Address, he has procured for himing for our failure. They say that it is all very fair in theory, but will prove to be impracticable in form of Government, and eventually subvert the experiment. If it does prove impracticable, if the experiment does fail, a shock will be given to the hopes of political liberty, for which no man may dare to answer. What did we say? Rather, for which every man in this country shall bitterly answer, in the overwhelming anarchy and misery that will follow. Nay more-if failure and overthrow do await the experiment here, the guilt as well as the rain will be our own. The fault will not be in our Stars, nor in our circumstances, bût in ourselves. The ruin will come, because we would not arouse ourselves to provide against it : because we would not see the signs of the times; because our Press and our conversation did not hold the right language, and because our practice did not conform to it.

TENNESSEE SENATOR.

The "Standard" thinks the Tennessee Legisla ture acted very wrong indeed, in choosing a Sena. tor to succeed Mr. GRUNDY, without affording the people an opportunity of expressing their sentiments. We should suppose that the Whig majority for Governor of 20,000 votes and the overwhelming Whig preponderance in the Legislature, was as decided an expression of the popular will as could well have been afforded. If the Loco Focos had succeeded in obtaining a majority in the Legislature, and Mr. Grundy had been re-elected, where then, would have been the "Standard's" rebuke ! We venture to say, " in the deep ocean buried."

SENATORIAL PUNNING.

Mr. TALMADOE, in his recent Speech in the Se. nate of the United States, in speaking of the advantages of the Hanking System, said he had been surprised in hearing the Senator from N. Carolina (Mr. Strange) speak of our whole Banking system as an absurdity, and say that it would be looked back upon by those who should come after us, with as much astonishment as we look upon the South Sea Bubble. To hear such sentiments in this enlightened age, with the immensely beneficial effects of the Credit System before our eyes, and with the testimony of all Europe in its favor-to hear such sentiments expressed on the floor of the Senate. filled him with such astonishment as he could not express consistently with the respect that he felt for that honorable Senator. He could therefore only

"Tis Strange, 'tis passing Strange."

A paragraph has been going the rounds of the Press, taken from the New York Journal of Commerce, relative to the treatment which the citizens on the coast of North Carolina bestowed on the survivors of the passengers in the "Home" which we are glad to state, the Newbern Spectator, from information received from the mouths of the sufferers themselves, pronounces to be "a tissue of unmitigated and scandalous falsehoods." The Spectator re-

We hope the citizens of Washington will demand from Capt. Curtis, on his return, his knowledge of the facts which he so boldly assisted in promulgating in New York to the disgrace of this community."

> THE WANDERING PIPER. This eccentric individual who spent several years

in the United States, visiting every hole and corner in it for the purpose of performing on his Pipes, and with a liberality, never before equalled, disposing of the proceeds of his exhibition for charitable pur, poses, has returned to England and published a Card. In this he states that the object of his wanderings was to decide a heavy wager which grew out of a controversy between a party of American and British gentlemen, over their wine after dinner, as to the relative hospitality and liberality of England, Ireland and America. To test the question, he determined in the guise of a Piper, to visit personally the countries in question. He is now about re-visiting portions of England and Ireland, and when his task is done, his name and rank are to be disclosed. He states in his Card, that, in America, he collected \$27,600-every cent of which he expended or bestowed on Charitable Institutions.

ARKANSAS.

We yelled, it seems, before we got out of the woods. Mr. Yell is re-elected to Congress from Arkansas, over Ringgonn (Whig) by a small majority. The returns came in so favorably at first, that it seemed almost certain that this infant Hercules had also put its shoulder to the wheel which is now grinding Van Burenism into non-entity.

PROFESSION vs. PRACTICE. AMOS KENDALL Wrote the famous Address put

forth by the Central Hickory Club of Washington. This Address contains the following remark : " Officers in our Government are created for the

good of the PEOPLE, and not to provide places for the personal favorites of the Chief Magistrate, or any other MAN OR MEN. So much for Mr. Kendall's professions. His

practice is quite a different thing. Since the publiself, and his "personal favorites," the following valuable Offices:
