

" LIER ORIENT PEARLS AT RANDOM STRUNG.

TROM THE MICROCOSM. FAREWELL ALFONSO.

Say bold Misanthrope, thou whose heart of steel, No tender love nor woman's power can feel; Say, can'st theu boast one spark of generous flame, Man's noble feeling with a manly name. Oh! no; and from thee I will gladly turn, To that mild sex thy lifeless soul did spurn! Yes gentle sex, we own thy powerful sway, Thy look is law; and trembling we obey : Thy frowns we dread-they sink to deep despair Thy smiles we seek, for Heav'n itself is there. No heart so hard but female tears can move, No heart so stern but owns the power of love: "I'is this alone our rugged bosom cheers, And smooth's the passage thro' this vale of tears. With ardent LOVE the tender female shares Our keenest sorrows, and our bitter cares ! And when at last the final hour draws nigh, The trembling soul, prepar'd for realms on high, The dying pangs, by quivering lips express'd, She gently soothes-and while the tender breast Pillows his head, she wipes the damp away, And weeps in anguish o'er the lifeless clay ! Oh! then how blest-supremely blest is he, From slavish pride and cold indifference free, Whose generous breast a woman's tears can move Whose tender heart admits a woman's love ! CORA.

ALICE GRAY. THE OFFICE-HOLDER'S LAMENT.

'Tis all my fancy painted it, 'Tis lovely, 'tis divine-But oh! it is another's, It never can be mine. Yet loved I as man never loved, A love now growing old-Oh ! my heart, my heart is breaking, For Benton drops of gold.

For that I'm toiling at the bar, Declaiming in the street, Without a hat, without a coat, No shoes upon my feet. Oh, Martin, send the real stuff, · For I am growing old-And my heart, my heart is breaking, For Benton drops of gold.

PETERS'PILLS.

THE unparalleled reputation which Peters's L Pills have acquired as a Medical Restorative, is the most unquestionable proof that can be given, of their immense importance to the afflict. ed, in almost every class of diseases. The number of letters received from Patients recovered through their means, is really prodigious, and the complaints which they have cured are almost as varied as they are numerous. But stillthere are some in which they are more especially beneficial than in others ; and among those may be named the too often fatal complaints of the stomach and bowels, such as Cholic, Flatulence and Indigestion, for which they are not

only a certain, but an immediale cure. It is well known that from the disarrangement of the stomach and bowels, arise nine-tenths of all the muladies of adult and declining life ;that this is the foundation of flatulency, spasmodic pains, indigestion, loss of appetile, Sc. and that hose in their turn give birth to Dropsy, Liver Complaint, Consumption and habitual lawness of spirits; therefore Peters' Pills being the very best medicine which has ever been discovered for the insipient diseases of the intestines, are necessarily the surest preventatives of those dreadful, and also general disorders which embitter mature life and drag so many millions to untimely graves.

In speaking thus, Dr. Peters arrogates nothing to himself that has not been conceded by the public. He is no needy quack or unknown spehas enjoyed for years, and which is increasing | Consisting in part of to an extent unprecedented in the annals of medicine, that makes him careful to assert nothing which is not borne out by the most infallible proof, and hence he does not fear to be put to the test in any thing which he has promised respecting his Pills.

Dr. Peters is most happy to be able to state on the authority of a great number of regular Physicians, that wherever his vegetable Pills have been introduced, they have almost superceded the adoption of mercurial experiments, for their peculiar faculty in sweetening the blood, and stimulating it to expel all noxious juices, and in giving strength and tone to the nerves, prevents disease from acquiring that strength which must be got under, if at all, by dangerous remedies.

Prepared by JOS. PRIESTLY PETERS, M. D. No. 129 Liberty street, New York. Each box contains 40 Pills. Price 50 cents. D Be careful and enquire for Peters' Vegetable Pills. They are for sale in Raleigh, at the Drug Store of WILLIAMS & HAYWOOD. Sept. 17, 1838. 46---6m

RALEIGH REGISTER AND NORTH-CAROLINA GAZETTE. CITIZENS OF N. CAROLINA. BRANDRETE'S VEGETABLE UNIVERSAL PILLS.

HIS celebrated Medicine has been in use in England nearly a century. It has been introduced into the United States, little more lier place," situated on the north side of Neuse Ri. than three years, since which, more than five ver, 35 miles above Newbern, and 6 miles east of millions of boxes have been sold. Its universal use wherever introduced, speaks quite sufficient in its praise. All who use, recommend it .-There never was an individual, that did not warmly recommend it, who has had any experience of its properties. As an Anti-Bilious Medicine, it claims a preference over every other now in use. The only thing about which care is required is, that the genuine Pills are procured; and remember, that Dr. Brandreth has never authorized any Doctor, Druggist, Apothecary or Pedler, in the United States, to sell his Medicine. The Brandreth Pills sold by them are generally counterfeit, calculated to injure the health of the patient, and ruin the character of the genuine Pills, made by Dr. Benj.

Brandreth, of New York. NEVERFORCE

That all authorized Agents have a copperplate certificate of Agency signed IN WRITING with a PEN by the Doctor himself. The date is always copperplate, (not written.) This certificate requires renewal every twelve months. The following are Agents, and each have a certificate of Agency, dated August 1st, 1838 :

Transylvania University.

MEDICAL DEPARTMENT.

T a meeting of the Trustees held this day, A Dr. N. R. Smith of Baltimore, was unanimously elected to the Chair of the Theory and Practice in the Medical Department of Transylvania University. Aware of the responsibilities in making this appointment, the Trustees have pleasure in announcing to the public, the selection of a gentleman to fill the vacancy, who is elready eminently distinguished both as a practitioner and teacher in his profession. The facalty is thus completely made up, and at no period of the history of this valuable department of Transylvania, has it been so thoroughly prepared for imparting the substantial practical principles of medicine, surgery, anatomy, chemistry, and all the tributary branches to a comprehensive course of medical instruction.
