THEREGISTER RALEIGH, N. C. MONDAY, OCTOBER 22, 1838.

(1) RULES OF THE CONVENTION. In reply to the question put by the "Newbern Spectator," we state that, sooner than depart knowingly from the rules adopted by the Editorial Convention, we would forego the profit of an Advertisement altogether. It is proper, however, to state that whilst absent on a recent trip to the North, one of the young men in this Office was induced to admit an Advertisement for Patent Medicines, at less than the prescribed rates, by the exhibition to him of a written agreement, on the part of another Editor, to insert it for a specified sum. This is the only instance, within our knowledge, where the Rules of the Convention have been at all infringed at this Office ; though, in consequence of a strict adherence to them, we have had, on several occasions, Advertisements taken from the Office. In one particular instance however, an Advertisement was returned, the bearer stating that, finding the rule uniform in the City, he preferred the REGISTER, as the medium of publicity.

The Fayett ville Observer & Hillsboro' Recorder, in alluding to this matter, suggest the propriety of holding another Convention in this City, during the approaching Legislature. It would give us great pleasure to welcome our brethren of all parties here, if they feel inclined to come ; but, after the thin attendance at the last meeting, we dislike to move in the business without the certainty of a full representation on the part of the Press of the State.

Federalists of the day. And they have just given a fresh proof how easily they can accommodate their principles to circumstances. In Massachusetts, THEODORE SEDOWICE has been nominated by the

Van Buren party as their candidate for Lieut. Governor. Of his political opinious and associations, the "Boston Courier" thus speaks : " Mr, Sedgwick is a Federalist, died in the wool. He is not only a Federalist, tut a downright, true blue, Hartford Convention Federalist-one who has united in the declaration, that he is willing to live and die in the faith of that honored and much abused Convention."

Affairs in Guilford.

It will be recollected that soon after the August Election, the "Standard' preferred a serious and weighty charge against the Merchants of Guilford, the citizens of Greensboro,' and the Society of Friends. The accusation was indignantly denied by the Merchants, in a body, through the columns of this paper. 'The "Standard" then published the certificate of one Hurdy Bridges, by way of substantiating the allegation ; but the last "Greensborg Patriot" copies a Court Record, by which it appears that the witness of the "Standard" is totally unworthy of credit, having been convicted of kidnapping, besides being guilty of other crimes and mis demeanors. In this situation of affairs, the last "Standard" comes out with the following acknowledgment :

" From the testimony adduced in regard to the character of the evidence in support of the assertions made by our correspondents, as to the doings in Guilford, and other circumstances, we freely acknowledge that our friends have utterly failed in establishing all or any part of the charges brought against the merchants of Guilford, the citizens of the town of Greensboro,' or the society of friends.".

A DILEMMA.

During the recent absence of Mr. HALE, the estimable and able Editor of the "Fayetteville Observer," a most scurrilous and malicious article appeared about him in the "North-Carolina Journal," under the signature of VERITAS. On Mr Hale's return, he demanded the author, and the Editor of the "Journal" gave in writing the names, of two individuals whom he represented as the authors .-One of the persons implicated has since " explicitly and indignantly denied having had any agency whatever in writing, or causing to be written or pub lished," the article in question. Quere ?- Who then, did write it ? A boy being scolded for whistling, excused himself by declaring that he had not but that " it whistled itself." Perhaps the libellous article in the Journal was produced by an agency

STATE ELECTIONS.

NEW JERSEY.

The Whigs of this State have maintained their integrity in the face of all the allurements of the National Treasury, though the Administration forces fought with a desperation worthy of a better cause. Reposing upon their previously well-earned laurels, the Jursey Blues have well nigh been caught napping; but so it is, they have escaped with the skin of their teeth, having elected every member of Congress a Whig, and a sufficient majority, on joint ballot of the Legislature, to secure a Whig United a majority of two in the Senate and four in the States Senator. So, threecheers for the Jarseys! House. In the present Congress, the Whigs have The Whig majority for their Congress Ticket is 95-on joint ballet of the Legislature, 16.

MARYLAND.

The "Bugle," a Newspaper printed in Kent Co., Maryland, presents the full returns of the election in that county-from which it appears that Mr. Primrose (V. B.) is the only candidate elected to the House of Delegates in Kent, the other two candidates on that ticket, and Mr. Constable, (Whig) being a tie This deducts one from the number heretofore allowed to the Van Buren party; so that the House-will stand, Whig 40; Van Buren 34; doubtful, 2 tie, 3; total, 79. The Senate, as heretofore stated, Whig, 12; Van Buren, 9.

SOUTH.CAROLINA.

All the Sub-treasury Candidates are elected to Congress except Gen. CAMPBELL and the gallant WADDY THOMPSON, whose success by so tremendous a majority, in Mr. Calhoun's own District, almost compensates for the defeat of the other Conservatives. It must be a source of great mortification to Mr. Calhoun, after having taken the stump in person against Mr. Thompson, that he should have triumphed by so signal a majority-say more than a thousand votes.

The Members of Congress elect are Messrs. W. Thompson, Isaac E. Holmes (in place of Legare) F. H. Elmore, F. W. Pickens, R. B. Rhett, J. K. Griffin, J. P. Richardson and Gen. Campbell.

The contest in Charleston has produced some strange disclosures. The "Mercury," Mr.Calhoun's organ, having claimed that Mr. Holmes (the Sub Treasury Candidate) was a more thorough-going Administration man than Mr Legare, the friends of the latter controverted this position, and asserted that he was the true Simon Pure, and in support of

GEORGIA.

In this State, as we ventured to anticipate in our last, the whole Whig Ticket for Congress is elected by an average majority of 1500 votes, and we have but one member; in the next, they will have nine. ANOTHER WHIG VICTORY.

The Editor of the "Hillsboro' Recorder," in no-Wisconsin Territory has elected Judge Dorn ticing the late Van Buren Dinner at Caswell Court (Anti-Van Buren) to Congress over Gen. Jones, the particular friend of Messrs. Duncan and Bynum, in the duel between Messrs. Cilley and Graves, last

winter. Wisconsin, it is true, is but a Territory, but the result shows what may be expected of her elections as sufficiently explicit, and should therewhen she arrives at voting age.

The Election (says the American) was not characterised by those scenes of violence which disgraced our City two weeks ago. The money of the Govgare, and as stated, "at the instance of Mr. Calernment was wanting, and no hired bullies appeared at the polls to prevent the aged, infirm or timid from depositing their ballots The consequence was that the Whigs have obtained a majority of nearly five hundred votes-a majority which falls short of their real supremacy in Baltimore. This result shows conclusively that, but for the violence which prevented a fair election on the 3d of October, Mr. STIELE would have obtained in Baltimore a sufficient majority to elect him the Governor of Maryland.

RALEIGH & COLUMBIA RAIL ROAD. The friends of Internal Improvement will be gratified to perceive from a notice in this paper, that a sufficient number of Shares of the Stock in this Road has been taken to secure the Charter. This Road, it is generally known, is a continuation of the great line of Rail Road from North to South, passing thro' the Capitals or principal Cities of each State

We confidently rely upon the justice and liberality of the Legislature, at its approaching session, for aid in this undertaking-aid which has been extened to other Roads, and aid which the State cannot withhold, without an evidence of illiberality and partiality unworthy of its character We believe that the State would have interested itself in the Gaston Road, two years ago, but for the strange apathy or opposition of those members whose constitnents were most vitally interested in its successful prosecution.

"GOVERNMENT BANK."

It will be seen that our Correspondent " POTATO CUSTARD" still endeavors to sustain his plea that the financial policy of the Administration, in its recommendation of the Sub-Treasury and an issue of Government paper, has no relation to a backing system. We see nothing advanced by him, of sufficient force to make us abandon our position; on the contrary, the more we reflect on the nature and effects of this Executive project, the more clearly are we convinced that it is intended as the speedy forerunner of a great banking institution.

We are requested to give the specific clause, in the Sub Treasury bill, which authorises an issue of promissory notes. If our Correspondent will review Enquirer says :--our preceding remarks, he will find that we never stated that this power was granted specifically by that bill. The authority to issue Government paper, under the appellation of Treasury notes, was asked for and granted in a distinct bill ; but its connexion with the Sub-Treasury plan is obvious. We represented the Sub-Treasury operation as the agency by which the means were to be collected to redeem the "promises to pay" issued from the Treasury. This is the light in which alone it can be considered; and we leave it to candor and justice, if these two features combined do not form a banking process. Here we are to see a great chartered institution (we might call it a " corporation" if our Correspondent fancies the term) adjusting its debts in paper issues-yes, in ordinary, undisguised promissory notes-but at the same time demanding collection of its receipts in Gold and Silver, as the medium by which to liquidate these paper issuesor re-issuing its own notes. What boots it, that by this plan discounts are not allowed, or individual deposits received ? Is not circulation the feature of a Bank with which the great mass of the public are chiefly interested ? And would not the circulating promissory notes of this Government establishment soon flood the country, and find their way was at one time as much a novelty in the U. States, into all the channels of trade ? Still, we suppose, it would be denied that the system bore even the faintest resemblance to a Bank, when its notes were generally received and acknowledged as a part of the circulating medium of the country ; when they were received as equivalent to the " ('onstitutional Currency" by the Government, and paid out as the repof the world ?" resentative of Gold and Silver ! To the late Freshet, Tar River was higher than it has been since 1798 - and about a foot higher than in the great Fresh of 1817. The Cape Fear and Neuse were also unusually high : and, every where, immense damage was sustained by the destruction of Mills, Crops, Stock, Fences &c. The losses on Tar River, Fishing Creek, Swift Creek and Deep Creek are estimated at three millions of dollars.

This is the purport of the letter; we have it not before us and pretend not to quote it verbatim "

PENNSYLVANIA.

Final returns have not been received from this State, but enough is known to satisfy the public mind, that the Van Buren Candidate for Governor, (Porter,) is elected over Ritner; but with regard to the majority in the State Legislature, there is considerable doubt. Both parties admit that the Whigs have a majority in the Senate, whilst both seem uncertain which way the majority is in the House .-As to the Congressional Election, our returns are unsatisfactory and indefinite. As far as heard from, however, the Whigs have gained three mem-

bers and lost one. We may obtain more full and certain information, in time for a Postscript. Whether the Whigs have a majority on joint ballot or not, the result shows a great Whig gain, and gives rea son to hope that in 1840, the Key-stone State will be found ranged in the line of Republican Whig States. Duly to estimate the present strength of the Whigs in this State, the reader shoul I bear in mind the fact that Pennsylvania has been always in the hands of the Administration. In 1832, Gen. Jackson's majority was nearly 30,000. In 1835, when Ritner (the present Governor) was elected, he ran gister, to \$7,500-besides retaining an ample stock | against two Jackson men, (Wolf and Muhlenburg,) and, by dividing the vote between them, succeeded,

though their joint vote exceeded his by more than 12,000. In 1837, the Van Buren majority was 9,601. What it is now, remains to be seen. Perhaps, there never was such desperation ex-

hibited by any party, in any age, as by the Administration party of Pennsylvania, at this election .--We will mention an instance : In the third Congressional District, composed of the Northern Liberties, and parts of the County of Philadelphia, Mr. J. Ingersoll, the man who openly boasted that "had he lived during the Revolution, he would have been expressed will of the people, two of the Van Buren inspectors refused to produce a statement of the Polls, as held by them in two Wards of the North-
