No. Let them first look around, and laving aside all prejudices, ask themselves this is his reputed skill my only resort?"

Perhaps at that moment the heading of this advertisement, "Moffat's Life Medicines, would catch their eye; and were they in truth divested of foolish prejutices, they might perhaps, be induced to inquire whether Mr. Meffal's theory and treatment of diseases differ from that of their own physicians. They would then learn that it did differ, and very widely and with most happy results too.

A good Vegetable Medicine is just the re-

verse of all this. For hundreds of years before that scourge of mankind, 'Mercury,' was employed in the healing art, Physicians used nothing but simple herhs. Even the Bible recommends as the 'skilful physician' he who prepareth his medicines from herbs Witness Ecclesiasticus, chap. xxiii.

V. 3. The skilful physician shall lift up his head; a d in the sight of the great men he shall be in admiration.

V. 4. For he hall prepare I his medicines out of the Herbs of the earth, and he that is wise will not abhor them.

Moffat's Vegetable Life Medicines possess qualities of the most mild and beneficial nature. They are composed of articles the most antidescription. INSTRUCTION RESOLUTIONS. We congratulate the Whig party of the State upon the passage, by the House of Commons, of the putrescent, combined with ingredients known | Resolutions introduced by Mr. RAYNER, in relation as the only certain autidote for fevers of every to the course of our Senators in Congress. That they will also pass the Senate, we cannot doubt, and we shall then see how the conduct of Messrs. malignant or epid mic, or by other causes, these BROWN and STRANGE will tally with their high sounding professions. We call them Instauction Resolutions, because they were so treated by the

The Resolutions were adopted, as originally introduced, every amendment proposed being promptof life begans to grow dien, the circulation land by voted down by the Whigs, on the ground that the object was to embarrass the House, and defeat the Resolutions by indirection. We refer the reader to the proceedings in this matter, and they will see of what materials the Whig party of North Carolina is composed. If he was, and has violated his plighted faith to his constituents, they will not, (as the Hibernian said,) forget to remember it, when he again applies for their suffrages. He has, we believe, voted with the Administration party on every test question. In doing | rich cut 10 and 8 inch long drops; candelabras; giso, he may, perhaps, have consulted the wishes of those who sent him here; but, if he has not, the honest yeomanry of Rutherford are the appropriate judges of his acts, and will doubtless demand a strict

They had the power, and could have protracted the sittings of the Committee, until every Whig had expressed his views; but, whilst, in a spirit of courtesy, they allowed the greatest latitude of debate to the other party, they have contented themselves with acting. No reply was even made to the three day's Specch of Mr. Hour, of Lincoln, though we know that Mr. Boy-DEN, Mr. RAYNER, Mr. GILLIAM, Mr. WADDELL and perhaps others, were taking notes, and would

Nothing could have been timonial of approbation from the triumphant Whigs of North Carolina, in the moment of their victory : and, to have exchanged congratulations with those who, after a long and arduous struggle, have placed their State in an attitude of hostifity to the dangerous measure of Executive power, which has marked the history, and is the steady policy of the present Administration. WADDY THOMPSON. "DEMOCRACY."

While the Locofocos are shouting Democracy. nd designating the Whig party as Aristocra's, i may be well to contrast their practice with the doctrines which they so lustily preach. It will be seen. that whilst endeavoring to deceive the people with their bollow pretensions and high-sounding precepts, they are revelling in official extravagance, and lavishing the people's money in expenditures better suited to despotic opulence than Republican simplicity. The establishments of princely nabobs would hardly vie with the domicils of those who receive their pay for upholding the interests of the self-styled 'democratic" Administration! The following Advertisement of the Auctioneer, offering for sale the Furniture of Mr. PRICE, the defaulting Sub-Treasurer, may serve to show how it is that the public money is squandered:

So much for the DEMOCRACY of Sub-Treas ury defalters!

FRANCE AND MEXICO. Hostilities have actually commenced between these two nations. A French squadron, as our readers will recollect, has for some months blockaded the Mexican ports, waiting the settlement of the failure of every negotiation for that purpose, the ships attacked the Castle of St. Juan de Uiloa. on the 27th ult. and after 54 hours fighting, the castle ed. DR. HILL'S SPEECH.

We invite the attention of the reader to the admirable Speech in this paper, delivered a few days since in the House of Commons, by Dr. F. J. HILL, of Brunswick, on the Resolutions presented by him touching the Public Lands. It is one of the best Speeches on this subject we have ever read, and deserves to be re-published in every paper of the State. We hope the Legislature will not adjourn without rebuking in some mode, the disposition manifested by the President of the United States, in his late Message, to trample upon the trights, and to sacrifice the interests of the Old States in the Pulfic

Mr. Banden has written and published another letter to Ma J. ALABAMA.

The express slips from Mobile bring us an account of the meeting and organization of the Alabama Legislature. In the Senate, James M. TROUBLES IN HARRISBURG.

The Senate of Pennsylvania have, by a vote of 13 to 11, adopted the Resolution reported by the Committee, in the case of the 8th Senatorial District declaring Messrs. James M. Bell and R. P. McClay (Whigs) duly elected.

The Committee of the Senate, appointed for the purpose of inquiring which was the legitimate House of Representatives, have made a report to that body recognizing the Whig, or Cunningham Branch; which Report was re-committed to the same Committee, who would in all probability report it to the Senate the next day.

CONGRESS.

Very little of inte-est has transpired as yet. We subjoin the most important items.

A spicy debate sprung up in the Senate, a few days since, on a bill reported from the Committee of Finance by Mr. Wright, postponing the payment of the fourth instalment to the States, for an indefinite period. It was admitted on all hands that there was no money in the Treasury to pay the instalment, but Mr. Clay moved to postpone it for one year longer-instead of forever. Upon this amendment the debate commenced. The amendment was advocated by Mr. Clay, Mr. Tallmadge. Mr. Wright. The deposite act of 1830 was denounced in a violent manner by Mr. Benton, and warmly defended by Mr. Calhoun, Mr. Tallmadge, ed hot-shot into the Missonri Senator, and Mr. Rives was full and free in his condemnation of the Secretary of the Treasury, some of whose financial schemes he pronounced to be "alarming proposi-

> The Resolutions concerning Abolition, introduced by Mr. Atherton, were all finally adopted, though strongly opposed by several Southern members as De Laines, hypocritical and evasive.

The other day, in the House of Representatives, when the Abolition and Slawery matters were up, Mr. Adams was called upon to vote, when he at tempted, in violation of the rules of order, to state his reasons for not voting, and the Speaker, in attempting to make him take his seat, asked the House to "assist" him. "How shall I assist," said Mr. Thompson, "I am ready-but how !" The Speaker was nonplussed.

Mr. Stanly, of this State, in a note to the Editors of the National Intelligencer, explanatory of some proceedings in the House of Representatives, in re-

ation to Mr. Atherton's Resolutions says: "I have good reasons for refusing to join in the miserable farce which has been played by the instruments of party in the House of Representatives during Tuesday and Wednesday fast."

His accounts are undergoing examination, and extensive defalcations have already been discovered.

Gen. GRATIOT has been dismissed from the office of the Chief of the Engineer Department, and Gen. Torres substituted in his stead, it being discovered that the former is a defaulter.
