It is evident, that the coming Session will be one of peculiar interest, and it shall be the aim of the

The sun shone out bright and gloriously, the precursor, we trust, of the brightened prospects which will gladden the hearts of our people, from the wise and salutary legislation of those they have delegated to correct the abuses of the past, and to devise measures of wisdom for the future.

It is only by preserving the unity of the party, that we can hope to sustain ourselves as a party. And, surely, when the great States of New York and ennsylvania, have asked to be admitted into our ranks, old North Carolina, the forement of the oriinal panel, will show no signs of backing out. THE PROSPECT.

The Whig party, every where, seems now sensible of its power. Confidence in their own strength, the only thing wanting to ensure success, is now thoroughly established, and two years hence, instead of Editor, to give a full, fair and impartial account of finding them listless and spiritless, they will be found united and irresistible. It is apparent that the friends of the Administration, however they may whistle to keep their courage up, are sensible of their waning prospects, and that the disposition of the next Presidency is in the hands of the Whigs.

THE POPULAR VOTE.

The "New York Express" publishes a table showing the vote on the Congressional ticket in each District of the State, by which they claim a Whig majority in the popular vote, on National questions, of upwards of 20,900!

The Election held in Delaware, on Tuesday last, has resulted in the choice of THARP, the Locofoco candidate for Governor, by a majority of 169 votes. Houston, the Whig candidate for Congress, is elected, and the Whigs have a majority in the Legislature, which secures them a United States Senator in the place of the Hon. COM. DECATUR'S TOAST.

The "Norfelk Herald" gives the true version of the celebrated Toast drank by Com. DECATUR in that City, in April, 1816, and which it appears has been since entirely perverted. Mr. HENRY KAYTON, who brings most flattering letters of recommendation from Norfolk, where he on Fayetteville Street, in this City, Portraits and Minatures in the fresco style-a style, which gives enduring freshness and brilliancy. Specimens may be seen by such as are disposed, either to admire the performance of the Artist, or to employ his pencil. We subjoin a notice of one of KAYTON's Pictures, from that admirable paper, the "Baltimore Sun."

" Portrait of Judge Brice-Happening in the Office of the Clerk of the City Court on Saturday, we observed over the mantel piece as admirably exe-cuted Portrait of his Honor Judge Bricz, recently from the pencil of KAYTON, done in fresco, and re-presenting the expression of the features, and every characteristic of the face, with life-like and striking accuracy. The venerable Judge is presented to the eye in a familiar position, the forehead reposing upon the first two attenuated fingers of the left hand, and we believe there's not a knave in town but would identify the likeness in a moment. The disposition of the whitening locks, and their peculiar shade is in excellent keeping, and the tout ensemble is scarcely less natural and impressive than the veritable Judge himself. This "fresco style," seems admirably adapted for effect, and withal preserving the harmony and pristine freshness of its coloring under the test of centuries, has been lately, very successfully brought into use for Portraits."

A SMALL SIGN.

New York, Pennsylvania and Ohio, are the three mperial States of the Union. They have a population of nearly six millions, elect seventy-nine members to the lower House of Congress, and are entitled to eighty-five Electoral votes. They must, therefore, always exercise a controlling influence in the National Elections. Within a short time past, these three magnificent States have proclaimed their devotion to the measures of the Whig party. It certainly is a significant sign of the times.

THE ARMY NEWS.

The following extract from the "New Orleans We are besten-badly besten, routed and used up. Times," confirms the important intelligence published by us in a Postscript, last week:

"From Col. Davis, we learn that the Mexicans have totally evacuated the whole country this side of San Luis Potosi. The information has been derived from so many sources that there is now no doubt of this fact. They left behind some forty dragoons to destroy the fortifications that had been constructed at Los Muertes, a naturally strong and difficult pass on the road to Saltillo, and about five or six miles be-yond the Rinconada. They have also dismantled Saltillo, destroying whatever might be of use to our Petersburg Republican," a Democratic paper, and army, and which they could not take away. Thus would particularly commend it to the attention of but a barren region of rugged mountains and thirsty plains, affording neither water nor provisions for the subsistence of man or beast, over a distance of two or three hundred miles to San Luis Potosi. If, as has been said. Gen. Taylor has orders to march upon San Luis Potosi, so as to reach that City by the end of November, the question arises how he is to araverse such a country, as he will have to do, by a forced march at the rate of fifteen or twenty miles per day? The only water on this route is in the Mexican ranks, which will doubtless be all broken up as the enemy retires. To carry water sufficient to save his army and teams from suffering, would probably re-quire more horses, mules and oxen than are now in the army, all of which are required for the transportation of the necessary stores and munitions. In making this retreat, the enemy have doubtless adopted a wise policy, leaving behind them a far more formidable enemy for Gen. Taylor to encounter (viz. this march) than he could ever find in their own

This policy has inquestionably been dictated by the sagacity of Santa Anna. It is stated, on good authority, that he had sent orders to Ampudia to evacuate Monterey, and all other places this side of the mountains, but that those orders were not received till after the battle.

After leaving the troops necessary to garrison. Monterey, Saltillo and other towns, Gen. Taylor will only have an army of about 5000 men with which to penetrate into the heart of the enemy's country, and far beyond the reach of any reserve upon which he might fall back for support in case of necessity. Such we believe is a correct account of the present position and prospects of our army, as
