I have the honor to inform you that it is not contemplated to make any further call on the Executive of your State for any volunteer or militia force, with a view to the existing war with Mexico. A sufficient amount of force for the prosecution of that war, hus, it is believed, hen already culted in active service. I have the honor to be, very respectfully,

Your obedient servant, W. L. MAR. Y, Secretary of War.

NEW MEXICO.

A TERRITORY OF THE UNITED STATES. CAPTAINS GATLIN AND HOLMES. In a letter from an Officer of the Army, published in the Picavurs, we find the following mention of

States.

these two Officers of the Army, one a native of Kinston, N. C., and the other a native of Sampson Coun-

"Capt. Gatlin was on the left with Capt Miles, he got into the hottest sort of work, and for his temerity got a ball through his arm, which has kept bim in bed ever since, though he would not leave the field until he played the game through. Capt. Hobines was ordered to take to the house tops with companies C and E, and had plenty of the hardest sort of fighting until it was too dark to see, when he found he had advanced on the enemy about a quarter of a mile. The next morning they capitulated before the battle got warm."

17 The present war brings us better acquainted with the country which we have conquered. It shows us the habits of the people, the productive capacities of their soils, its mountains, and the routes by which commerce is hereafter to shed its blessings upon the land. How many were acquainted with the beauties of Monterey, for example, of which one of the first officers of the army gives us the following picturesque description, under date of Octo-

"The brave division of General Worth has fought six distinct and separate battles, and as often to quered superior numbers, and strewed the valleys and the mountains, the streets and house-tops with the enemy's dead. We have gained a series of ophs, and we hope the Government and People will be satisfied. This valley and surround-Rasselas. Nothing can exceed its fertility, beauty, or grandeur. As to climate, it seems to be a resolu tion of all the finer elements. In the same enclosure you observe the tropical and the northern fruits: the orange and pomegranate, blended with the ap-ple, pear, and cherry of the north; all growing in rich and harmonious luxuriance. The mountains seem to stretch to heaven and kiss the hand of God in thankfulness for his blessings. Indeed, all but the face of mon is divine"

THE RESULT IN MASSACHUSETTS. The Boston Atlas, speaking of the general result of the late election throughout the ancient Commonwealth of Massachusetts, says:

" Our Whig brethren of the South and West will perceive through the results of this election, that the Whigs of the old Bay State are determined to maintain the integrity of the Whig Party proper throughout the country. We look to the united of fort of our party-here, there, and everywhere in the Republic-as the only safe hope upon which we can for the establishment of a wise and good administration of our Government, for the enactment and execution of wholesome laws, for the restoration and preservation of peace abroad, and for the protection of the greatest interest of our country at home.— We have beaten down every political sect and faction that has set itself up in array against us. We have nobly triumphed over all our enemies. We stand on the high eround that the Whig Party will always occupy. We deplore the evils that exist in the land-we detest the wrongs that are done by wicked men in power-but, nevertheless, we go for the Union, and we are determined to maintain it .-We love our country, and we mean to adhere to her -wherever is her territory, or however it may be bounded."

Gov. Young's HEALTH .- The Rochester Demo erat of Saturday, thus rebukes the paragraphs which are in circulation as to the precarious condition of the health of the Governor elect of New York :

" We have contradicted these reports half a dozen times, but since they won't stay contradicted, we will, to ease the anxiety of our Whig friends abroad, say again that there is not the slightest foundation for the rumor that Mr Young is in a dangerous condition. His health is better than it has been for months past. Every day since Election he has attended to his ordinary business. Last week he was at Batavia, and he is making preparations for a trip to Albany next week. Early last summer he had an attack of erysipelas, the effects of which were perceptible upon his general health for some time.— But he recovered over two mouths ago, so as to be able to attend to all his ordinary business, and his general health, we are happy to say, is constantly sproving. Several of our citizens saw and conversed with him in the streets of Genesee, on Thursday.

MR. CLAY.

A Frankfort correspondent of the United State's Gazette, says that this gentleman has been engaged lately in the trial of several important cases, in one of which his closing speech is described as one of the best efforts of his life, and, to all, "it seemed as if olden times had returned. His mental and bodily wein appears as strong as ever, and having just heard the news from the Old Key Stone, he was in the vey best flow of spirits."

DISAPPROVAL OF THE WAR.

The New York Commercial Advertiser con firms the opinion we have heretofore expressed. that the public diseatisfaction at the unconstitu-Nine Regiments of Volunteers have been called tional commencement of the Mexican War, the for by the President of the United States with a view manner of its management, its ruinous expense. to the existing War with Mexico, from the States and the terrible sacrifice of human life, have had an important bearing upon the late elections, and contributed materially to the deleat of the Administration. There is no doubt of it. The great majority of thinking men of all parties, there and here, and throughout the country, (if we may except the extreme South,) are utterly opposed to the Administration which wantonly and unlawfully brought on the war, though they may, and do, with true patriotism, sustain it now that we are engaged in it. This is a duty not more imperative than the condemnation of those who wrongfully involved us in its horrors. The Executive doubtless imagined, that the

existence of war would excite the patriotic feelings of the people to such a pitch, as to break down all party lines, and drag in the whole country, not alone to the support of the war, but to the support of the Administration which waged it. He had the example of 1812-15, when the Federal Party was annihilated by the War with Great Britain. A great portion of that party, op-posed as they had been to President Madison and the Republican party, at once ceased their oppostion and lent a hearty support to the war, in the field and in the public councils; and those who still resisted, became so odious that their party name became a reproach. It was doubtess in the hope of a similar result, that Mr. Polk plunged the country in war. He hoped to break up the Whig party in the same way, and to perpetuate and increase the power of his own. But there is an all-essential difference between the cases. The war of 1811 was waged by the con-stituted authorities of the land, after mature deliberation, in defence and assertion of the dearest rights and most sacred honor of the country. and against the greatest power of the world This Mexican war is the act of the Administration, which Congress was called on to sarctify only after it had been begun. Its plea was that Mexico owed us mane; which she had not been prompt in paying. THE LATE WHIG VICTORIES-MR. HAYWOOD -If there is a man in the Union, who, in his heart of hearts, repoices over the crushing defeats lately sustained by the Loco Foco Party-it is Mr. Senator Haywood. He knew the character of the "Experimental Tariff"-he knew what would be the effect of its enactment to the party to which he belonged-he warned them to pause and reflect, and finally resigned his seat rather vote for a Bill so obnoxious to himself, and which he deemed so impolitic for his Party.

For this, obloquy and abuse were heaped upon him mountain high-his motives were impeached and his conduct denounced with almost unparalleled ferocity. But, now, what is the aspect of affairs! Mr. Haywood's policy and foresight stand vindicated before the Country, and full many a Loco who voted for the "British Bill." ing scenery would seem to have set to Johnson's and who joined in the hunt, who only locked the ability, to pursue Mr. Haywood to the death would give their eye-teeth, if they had beeded his warning voice and stopped short of the measure, which will prove to be a mill-stone around the neck of Locuism.

Mr. Haywood has had his days of bitterness and mortification-he has now his days of triumph and exultation. He met with no pity and no sympathy from those to whom he had a right to make the strongest appeals, and he can now mock when their fear cometh."-Pet. Intell.

MEETING OF STOCKHOLDERS. The meeting the Stockholders of the Wil-mington and Raleigh R. R. Company, was commenced in this town on Thursday, and adjourned last evening. We subjoin as much of the proceedings as our time and space will permit.

WILMINGTON, Nov 12th, 1846. At the annual meeting of the Stockholders of the Wilmington and Raleigh Rid Road Company, ield at Wilmington, on the 12th November, 1846, James S. Battle of Edgecomb, was appointed Chairman, and Wm A. Wright and James Griswold. Secretaries.

On motion of Gov. Dudley. Resolved. That the proper notice be given that this company will apply to the next Legislature for an amen lment of their charter, with a view to an ex-tension of the road to Fair Bluff, or some point on the South Carolina line.

Mr. Toole offered the following Resolutions which he enforced by some appropriate remarks, delivered with much eloquence and animation.

Resolved 2d. That the present Road must be sus-

That the general Government, with a view to mail facilities hould extend a festering hand. That the new enterprize strongly appeals to the State pride of the citizens of North Carolina, presenting the simple nestion whether we shall remain as heretofore in intercial vessalage to Virginia. South Carolina, New York, or whether, uniting all our efforts we shall ail to build up in North Carolina a City worthy of the State.

On motion of Mr. T. D. Meares, it was Resolved, that the President and Directors apply to the Legislature for an extension of credit on the lebt due the Literary Fund and the Bonds of the Company on which the State is now an indorser,

J McRae, it was Resolved that we menorialize the next General Assembly of the State of North Carolina, to relinquish the mortgage held by the State on the Boat and Wharves of the W. and R. R. Read Company; to authorize said Company to negotiate, on the faith of said Boats and Wharves, as large a loan as possible; to subscribe the amount of said loan to the extension of said Road south to some point on the South Carolina line-the said stock in the new Road being pledged to the State in lieu of said mortgage on the Boats and Wharves, and for the same purposes.

Company, to enable them to connect with the S. C. Road, or to procure another Charter for the same purpose, and to attend to the interest of the toad in all other particulars; and that the Committee appointed as aforesaid, be authorized to add to their number, or till any vacancies in their body which may occur.

On motion of Dr. Sugg, the following Resoluions were adopted:

Resolved, That Wm. A. Wright and James Griswold, be appointed a committee to prepare the pro-ceedings of this meeting for publication; and that 700 opies of the same be printed for distribution amongs the Stockholders.

On Thursday, the Meeting was addressed by the Hon. RICHARD HINES, the Representative of the State Stock in said Company. We were pleased to find this gentleman's views were highly patriotic and embraced the interest of the whole State He is well acquainted with the subject, in all its bearings, and we hope our citizens will be admonished by the eloquent and warm appeal he made to them, to rely solely on themselves for success; for we may take his assurance, that if the people of Wilmington do not do the work, it will not be done at all! Mr Hines is entittled to the warmest thanks of this community, for his liberal and enlarged views of public improvements, as well as for the masterly

illustration of them, on this occasion. The following officers were elected for the ensuing year, Alexander McRae, of Wilmington,

RUM AND POLITICS. Ma. Gates: We see in the last "New York Organ," an Adress to the Electors of the City, issued just before the late Election for Members of the Legislature, by a Committee of the prints of free trade, alias, the advocates for Rum selling. It seems there were 16 Whig candidates, with their names in one column; 16 Democrats in another column, and 16 Native Americans in a third column. The four first on the Whig list, were recommended as friends of the Rumies, the other 12 Whigs were marked as unworthy of their suffrage. Every one of the 16 Democrats, were recommended, with the first four Whigs, as favorable to the Rum cause! and every one of the 16 Native Citizens, were proscribed as being opposed to Rum, or of doubtful friendship for it! Who, sir, do you think, thus joined Rum and Politics together? CATO.

ABOLITIONISM ON THE DECLINE There is no more gratifying fact, says the "Rich-cond Republican," connected with the late elections than the triumphant manner in which, in Massachu setts, they exculpate the Whigs from the charge of coalition with the Abolitionists, and, in the Empire State, show a sound and healthful state of public sentiment in regard to the extension of suffrage to the black population.

BE WISE No time must be lost in the use of foolish remedies, such as bleeding or mercury, for they both only put off the evil day to make it more fatal. Even in nflammatory disease, bleeding ought never to be resorted to, for in nine cases out of ten it will take away the power of nature to effect a cure, even when aided by Brandreth's Pills. They can take out the impurities from the blood, but alas! they cannot put new blood into the body, this requires time, but they can regenerate old blood, but the old blood must be there. It is at all times easier to eradicate mercury from the system and restore the mercurialized being to full health, than it is to affect the restoration of to full health, than it is to anece the lead. Bleeding The Speaker announced that mesers. Onenries, the man who has repeatedly been bled. Bleeding Wooten, Stowe and Barnard form the Senate's branch and the effects of opium are the greatest antagonists the Brandreth's Pills have to contend against. Let us us therefore be wise, and when sickness assails us, abstract the disease out of the blood, not the blood out of the blood which the bleeding does.

Now, Brandreth's Pills not only purifies the blood, but they lessen the quantity, and at the same time they make the quality better. They only take the worn our parts from the blood, those which, if retained would be a source of disease. The good effects which are derived from Brandreth's Pills have o be felt to be believed. The seeds of decay can be constantly eradicated by their use, and the Principle of Life—The Blood—strengthened.
