

CURE FOR RISING BREAST.

MR. EDITOR:—Will you please allow me space in your valuable paper for the following recipe? Take the crumb of one biscuit and wet it good with fresh milk and make into a poultice, adding one tablespoonful of salt. Pour on the poultice one teaspoonful of spirits of turpentine and apply to the breast. Apply a fresh poultice every four hours until the swelling is subdued. Ladies who are suffering from above trouble are invited to try this remedy. I have used it myself and know it to be good. Respectfully,
MRS. D. H. FUGNAY.

Neck in the Halter.

That merchant who puts his neck in the halter by buying his goods on credit and of high price concerns, cannot expect to sell goods in competition with D. T. Swindell's Big Racket Store. No credit asked and none given at this modern business concern. When the auctioneer's hammer comes down on a big lot of desirable clothing or dry goods and shatters the price in a thousand pieces, we are right there with American money to cover the pile, and you hear the clear voice of the auctioneer when he calls out: "D. T. Swindell's Big Racket Store takes the entire lot." These are not pictures of fancy but solid realities. We have received this day the largest lot of unlaundried white shirts ever in Raleigh and can give you a good shirt for 25c.; \$1.25 shirt for 68c.; Coats' spool cotton 52c. per dozen. If you fail to visit D. T. Swindell's Big Racket Store you rob yourself.

Young Man, Are You

Making any money? Are you in a good paying business? If not are you ready and willing to get on the road to riches? If you have a few spare dollars you can go to D. T. Swindell's Big Racket Store and invest in Racket goods, get the true business ideas of the Racket, go in some town or X roads, and with a wheel-barrow full of those big bargains, those unanswerable values at the Big Racket Store, you can annihilate that big concern which has a stock of ten thousand but has not their values.

Pomona Hill Nurseries,

POMONA, N. C.

Two and a half miles west of Greensboro, N. C. The main line of the R. & D. R. R. passes through the grounds and within 100 feet of the office. Salem trains make regular stops twice daily each way. Those interested in Fruit and Fruit growing are cordially invited to inspect this the largest nursery in the State and one among the largest in the South.

The proprietor has for many years visited the leading Nurseries North and West and corresponded with those of foreign countries, gathering every fruit that was calculated to suit the South, both native and foreign. The reputation of Pomona Hill Nurseries is such that many agents going out from Greensboro, representing other nurseries, try to leave the impression that they are representing these nurseries. Why do they do it? Let the public answer.

I have in stock growing (and can show visitors the same) the largest and best stock of trees, &c., ever shown or seen in any two nurseries in North Carolina, consisting of apple, peach, pear, cherry, plum, grape, Japanese persimmon, Japanese plum, apricots, nectarine, Russian apricot, mulberry, quinces. Small fruits: Strawberry, raspberry, currants, pecans, English walnuts, rhubarb, asparagus, evergreens, shade trees, roses, &c.

Give your order to my authorized agent or order direct from the nursery. Correspondence solicited. Descriptive catalogues free to applicants. Address, J. VAN LINDLEY, Pomona, Guilford county, N. C.

SEE WHAT

Mrs. Joe Person's Wash Will Do—Chronic

Bilious Colic.

A New Departure.

As a family medicine for general use I consider Mrs. Joe Person's Remedy ahead of anything I have ever seen; we try it for everything, on man and beast, and like a good friend, it is always ready to help us. I was a frequent sufferer from severe attacks of colic; at such times I would take a big dose, a wineglass and a half full, which always gave me immediate relief, and its continued use has entirely cured me of the trouble. Being a farmer, I frequently have accidents among my stock. On one occasion I poured some of the Wash on a hog which had been badly bitten and torn by dogs, and the places were alive with vermin; as soon as the Wash touched the affected parts the vermin would leave and there was no further trouble. I have saved two valuable head of stock by an application of the Wash, and, unlike other things usually used, it is perfectly painless. I think all farmers who own stock should try this great remedy. In such cases, it is worth its weight in gold. If all knew the worth of your Remedy and Wash, I do not think you could supply the demand.
