THE PROGRESSIVE HARMER, JULY 24, 1884.

PROCEEDINGS OF CALDWELL COUNTY.

A Plan in Place of Sub-Treasury.

We published a part of the proceedings of Caldwell County Alliance last week. The following is the part left over for lack of space:

The paper known as the Sub Treas ury bill," which had been sent down to the Sub Alliances for adoption or rejection, coming up as unfinished business from the April meeting of the County Alliance, a motion was made to adopt. After an able discussion of the bill for and against, a vote was taken and the motion to adopt was lost. Dr. R. L. Beall then offered the following paper, which was adopted,

Believing in the fundamental principles of our Constitution, viz: equal rights to all and special favors to Crushed sugar drops...... none; to constantly strive to secure Patapsco..... harmony and good will among all mankind; to suppress personal, local, Muscovado sectional and national prejudices; and Ponce P. Rico No. 48 (bbls)... having faith in the intelligence and conservatism of our fellow citizens, Port Rico No. 46..... we offer the following plan as a remedy for existing public evils, not only to our brethren in North Carolina, but A D B New Orleans..... of the whole order, and would firmly but respectfully ask of all candidates Pure admiral brandfor the Legislature or Congress a public acceptance of the same.

First. Such a modification of the tariff as will allow the products of our farms not only to reach the free markets of the world, but to get in ex change for our products the manufactures of a free market without un. just restrictions.

Second, Such an economical administration of national finances as shall 200 lb bbls..... leave none of the people's money locked in the government vaults as a surplus above the needs of the government, thereby contracting the currency, or acting as a temptation to corrupt schemes, or wasted on needless public buildings and unnavigable harbors and rivers.

Third, A modification of the national banking act, so as to prevent a needless contraction of the currency; the repeal of the tax on our State banks, and the free coinage and remonetization of silver.

Fourth, A cessation and repeal of all unconstitutional, centralizing, sec. tional and partisan legislation by Congress, thereby promoting a feeling of national brotherhood and confidence in the justness and stability of the government which is the Basis of NA TIONAL PROSPERITY.

Fifth, A proper control of the railroads, which are but the highways of the people for purposes of travel and commerce, in such a manner as not to deprive the railroad companies of a reasonable profit on their investment and at the same time protect the people from unjust discriminations and restrictions on trade and travel.

HEALTH! HEALTH!

A NEW DISCOVERY.

Having been a great sufferer, from childhood, the result of protracted chills and indigestion, terminating in diseases of Liver. Kidney and Uninary Organs, and having tried many remedies known to the profession with only temp rary relief. After much experimenting, I succeeded in discovering a combination of vegetable remedies, which combination has proven a emedy for diseases of all the internal organs superior to any known in a life of suffering and practice of fifty years. As by it I have been restored from what seemed to be mevitable death to perfect heath, without any other medicine, for those diseases over three years past. It also erabled me to travel all the winter of 1888 and 1889, in the mountains, in all kinds of weather, and eating any and everything set before me with impunity. It has since cured me of chills and prevented my taking "la grippe," and relieved those of the late epi-demic who tried it. It is also proving valuable in many ten ale diseases.

For further particulars, apply to druggist, or Dr. Jno. F. Foard, Prop'r, Olin, N. C. P. S .- Having reduced the price from \$1 to 50 cts. a pint, it is now the cheapest remedy of the kind in America.
