PENSIONS.

Two Billion and Two Hundred Millions in Pensions Paid to Rich Corporations Annually---Shall we Pension the Rich or Needy?

HYPOCRICY.

MR. EDITOR:-There is a hue and ery going up all over the South among Democratic organs against the present system of pensioning Union soldiers. The writer would have referred to this subject if it were not that many Every editor of those organs knows the of these organs are warning the people Democrats could not carry a single in the South against the People's party as a party, if put into power will in- few Democratic Congressmen in the crease the pensions of Union soldiers North. They know that one-half of and increase the burden of the tax the pensioned soldiers, with their payers. The People's party has adopted friends, are in the Democratic party, the Alliance plans and they will reduce and these hold the balance of power in the burdens of taxation. There are every Northern State, and in nearly two ways to reduce the burden of taxation.

First. By increasing the ability of the people to pay their taxes. Second, By lecreasing taxation. The Alliance messures endorsed by the

People's party will do both This railing at the People's party for what these D O. P. organs suppose the People's party will do comes with poor made an honest effort to remove the pensions put upon the industrial class by the money devil, railroads and the G. O. P. and D. O. P. Through the iniquitous financial legislation inaugurated and perpetuated by these two old machines the money devil is the tune of one thousand million dollars each year and the pension is being enlarged. To secure these pensions they have mortgaged the industrial class ten billion dollars, and they are increasing the mortgage each year. In the interest of gamblers and specu lators on the farmers and other industrial classes the people are robbed to pay a pension to this class five hundred million dollars each year. In the interest of railroad monopolies the industrial class are taxed three hundred say dance, they dance, but they make and fifty million dollars to pay pen sions on watered or fictitious stock that represent no values, and this pension is on the increase. In the interest of patent right monopolies the people are taxed three hundred millions annually, and the tax is on the increase. They allow a few monied men to steal or buy a patent right for a song, form a corporation, manufacture, fix prices to suit their cupidity, and charge the consumer all the way from 200 to 1,000 per cent above cost for manufacturing. Six-sevenths of all the meritorious machinery is patented and cost the buyers two hundred per cent, more than they would cost if there were a free and open competition in manufacturing this ma

During the life of the patents on sowing machines a machine that cost nine dollars to make sold for sixty five dollars and one that cost twelve dollars to make sold for eighty-five dollars. The McCormic machine that cost twenty-seven dollars to manufacture sold for one hundred and seventy five dollars. This extra cost with interest on it is charged up to the consumers and the interest on this extra cost amounts to not less than one hundred and sixty millions annually. In the interest of the telegraph monopolies the industries are taxed to pay dividends on watered stock amounting to ave times the cost of construction or

forty per cent upon first cost.

chinery and other patents.

These two old machines have so shaped legislation that in twenty-five years they have doubled the purchasing power of the goldites dollar and reducing the ability of the tax payer one-half to pay their taxes. They have squeezed twenty billion dollars of the products of labor into ten billion dollars of the creditor class notes, and this pensioning process is on the increase. Here is pensions paid and two hundred millions each year. This amounts to \$33 89 each year for United States, or \$237.16 for every family of seven and this per capita pension is on the increase. They have pensioned these monopolies upon the farmers by making them pay eighty per cent, of the taxes while the farmwealth of the country. Here is pensions by the wholesale.

Has any measure been introduced the endorsement of a Democratic the pensions to rich monopolies? Has the U. S. Treasury. any bill been introduced by the Democratic party that has received the endorsement of a Democratic caucus am coming to my real proposition. I that looked to the removal of any part | want you to show a portion of your

per cent.

HYPOCRICY.

Every Democratic organ in the South knows the South is powerless to make any change in existing pension laws. Northern State, and could elect but every Congressional district. These are facts known to all these editors of Democratic organs South. Does these editors expect to make any change in the present pension system looking to the reduction of taxes? They expect nothing of the kind.

Democratic Congressmen from the North have introduced bills to equalize the bounties of soldiers. Any move grace from a party that has never looking to a change of the present pension system will bring overwhelming defeat to the Democratic party. Office is what these Democrats want, and patent right and telegraph monopolies | they will not do anything to jeopardize Let us glance at the pensions being the success of the party. This is why paid to monopolies by the con eit of these Democratic organs all over the South have turned their coat and abandoned all financial reform. They are now satisfied the pensioned monop olies holds the sugar plums. Why pensioned upon the industrial class to this demagoguery! It is to prejudice and deceive Southern voters and prevent them from going into any other party by making them believe the Democratic party will reduce taxes by repealing the present pension system.

Second. They are furnishing ammu nition to the Republican party North ple's party. It is as certain to be done eat that many for breakfast and then to enable them to hold the old soldiers as if it had been accomplished. Why to the Republican fold. The two old do you hesitate? Are you afraid the machines are puppets in the hands of money devil will deprive you of govpensioned monopolies, and when they the industrial class pay the fiddler.

Reader, observe how anxious these tax on State banks so the rich moneyed in pensions to rich corporations, and men in the South can loan their credit | double the ability of the tax payers to any of these Democratic organs propose ment of the people, for the people, by (Laughter.) The people are \$35,000. to repeal the present banking system | the people, for the first time in the hisand have the government issue its tory of the civilized world. credit and put this money into circu lation by paying the expenses of the government, and to this extent reducing expenses and saving the people the enormous pension paid in the shape of interest on private corporations credit. Why don't they advocate this measure when it would remove such a burdensome pension from the backs of the

Because their bosses have put a muzzle upon their mouths. The bosses ear the money devil more than they do the people who pay their pensions. These 2x4 editors haven't a soul they dare to call their own.

Under the State banking system they will allow the rich to tax the industrial class South fifty-eight millions of dollars annually for the use of their credit, and eighty millions each year to foot bonds on which to issue their promise to pay.

The Alliance plan adopted by the People's party will save the Southern producers eight hundred millions each year now paid as pensions to rich monopolies. The Peoples' party once in power will issue fifty dollars per capita, and this will be put into circulation without taxing our industries. By so doing they will double the paying power of the industrial class The increase of the circulating medium to fifty dollars per capita will give the South an additional circulation of \$800,000,000. I want to make a sugges: tion or proposition to the Democratic to monopolies amounting to two billion editors who are championing the pen sioning of rich corporations. Suppose we adopt Senator Woods' financial every man, woman and child in the plan, viz: Let the government issue full legal tender United States notes to the amount of fifty dollars per capita, and let each State have its pro rata. Each State would be free to choose circulation. Let the Southern States ers have less than one half of the loan seven hundred millions to the people, secured by real estate at 4 per cent. interest. The interest on this will amount to twenty eight millions by the Democrats that has received annually. To keep up the per capita to fifty dollars, the South will receive caucus that looked to the removal of annually twenty millions dollars from

This will give the South an income of forty eight millions annually. Now I hese Democratic organs that will bring | bodies to the inclemency of the weather

pay by the infliction of the exception grow up criminals as they are now te clause in the greenback. This excep- prey on the industrial class, fill prisons tion demands the values of all notes and add taxes to the sax payers. It one half. These notes were gathered will not cost anything to do this and in by the money devils by legislation will save the South millions of taxes (the credit strengthening act) was each year. Won't it be better to pendoubled in value, and by legislation it sion the old Confederate soldiers than has increased in value four hundred to continue the pensioning of rich cor porations and taxing the wealth producers as we are now doing?

You won't have to pension the boys who were the gray long They will soon pass over, but corporations never die. There is no way to pension rich corporations but by taxing the people. You can pension the old soldiers with out any cost to the people. Under this plan the pensioning of the boys in blue and gray will cost but little If you have one half the love for the boys who were the gray you have shown for rich corporations, you will fall in with us and carry out this plan. Help us carry out this act and perform the greatest act of your life and immortalize vourselves. Will you hesitate? If you do not agree to this at once, the better class of people in the South will do it through the People's party. This act of justice the South owes to the broken down and destitute Confederate soldiers and their wives and dependent children Just as certain as there is a God in Heaven, the people in the South will perform this delayed but righteous act. It is a duty that should and will be gratefully performed by the South

when the people are in power. The hearts of the masses are in the right place. In all earnestness isn't it time to stop pensioning the rich and spend a small portion we have spent on the rich on the needy?

The people will do this gladly if you will help remove this pension burden of two billions and two hundred million dollars and double their abilities to pay taxes and debts. Won't you help one year would only make them three

us to do this? If you do not, then the boys in blue and gray will do it through the Peoernment papt It that is your reason. Democratic organs all over the South | North and South and relieve the indusadvocate the repeal of the 10 per cent | trial class of paying over two billions (debts) to the industrial class and pen- pay their taxes. Hark! ye Democratic sion them on the working people. Does organs, we are going to have a govern-

> We are going to reverse the order of things. We are going to make cor porations our servants. For ages they have been our masters. We hold this trush to be self-evident that the South owes to the destitute Confederate saldiers, their wives and dependent children to furnish them a comfortable home the rest of their lives They now have a chance to do it and relieve the toiling masses of a burden too grievous to be borne any longer. This movement is not made by broken down politicians, but by men who have the supreme love of God and man in their hearts. They are determined that the race shall no longer be op pressed in the interest of the few and at the expense of the many. This Alliance movement chrysta ized into law will bring relief at once to the oppressed North and South. You can

help us to do it. Whether you will or not, will not stop this humane movement. We are determined to place this nation where every man, woman and child will re ceive a home and the necessaries of life There is an abundance for all and we are determined to establish a correct system of distribution. The two old machines have been weighed in the balance and found woefully wanting. We have had class legislation and hypocritical attacks on manufactures and seeming defense while the real pensioned monopolies have received protection from these two old corrupt machines. Every proposition made by the Alliance, if chrystalized into law, will equally benefit every industrial class. How can it then be class legislation! I challenge the world to put their fingers on one proposition that can ever be construed into class legislation. I call upon every Alliance their plan of putting this money into organization to appoint a committee to canvass for subscribers for reform papers. Appoint a good zealous committee, and you can soon double the circulation of your organs and support ers. Patroniza no paper that opposes the leading Alliance demands If you reform literature into the hands of

MOTTOR: Please allow me a bit of give you a few work. Bro. H. P.
Massey's lecture to Chestnut C. Ridge
Alliance. Though the weather vour valuable unfavorable, the house was nearly full The audience listened for about one and half hours with intense interest. He said: "Th: Alliance would never have existed had it not been for the necessity. Remove the cause and it will cease to exist. A backward look will show us that our condition is worse than that of our fathers; it is not because the wealth is not in our country. But because thirty thousand men have it This is a sad fact. Wrong system is the cause, for the farmer pro duces seven-eights of the wealth in the country. There must be change. Introduce a system that wil rightly distribute it. To do this we must have concert of a tion, that is our only hope, We have been convinced that we must have an issue of our own. I know when the farmers try to tell what they want, the plutocrat takes off his silk beaver and kid gloves and says go home and go to work, you are lazy. If so, where do the products come from ? Well, you are extravagant, and in all my travels I have not seen an extravagant farmer. If I were to see extravagance coming in at my front gate I would run and cry murler. Then the plutocrat says it is over production Laziness, extravagance and over production fit; No. it is none of these We have two million tramps that could to perpetuate this endless warrare, the not get work, men and women are hungry and shivering. The cotton and wool produced in the United States in garments apiece. Every grain of wheat would only make them six biscuit people, burdened with mortgages, opapiece per day, plenty of men could be hungry all day. The people would consume the products if they could get them But the producer is too poor to hold them and the consumer too poor then cravens to the rear. The People's to purchase. If a man has a barrel of take care of every worthy soldier ions is all he can afford at one time. important demands. The adviser next says, you don't raise the right kind of crops, raise corn and meat and you will be happy. De we have a section of this kind ? Yes. In Illinois its said that you have to make a hog squeal to tell where his head is. 000 in debt. They are too poor to hold their crops and are obliged to sell for less than cost of production. The financial system is a great fraud and ought to have been abolished twenty five years ago

The "Gold Bugs" for the price. If you will let me for the price I can make or break any man regardless of his occupation, profession or trade. The men of Wall St have concluded to make us mor. But it is no use to curse them. change the system. They contracted one-third of the surrency, and cotton fell from 30 to 20 cents. Silver was demenstized and the circulation diminished from 7 to 3 billions. The system is selling out 450 persons every day and closing out 350 business men every week. And do you know that ten thousand men of England may call for a panic and it will come in thirty-six hours, and we would perish in twenty days? A gold basis will run any country. Nine tenths of our busi ness is done on the credit. There ought to be enough money to run a cash business. you can't borrow money at 8 per cent and not make but 3 per cent on investment.

There is no use of making gold the basis. We could live without it, they want an honest dollar. There is not an honest dollar in America, and there will never be until it will buy the same amount the year round. The credit of the country ought to be based on some thing substantial, such as meat and

He compared the present system to the old negro's "'possum and taters" which he had cooked and put aside to cool, and while waiting fell asleep. A young negro came along, took the meat off the bones, greased the old man's lips and left the bones and potato peelings on the floor by his side. When the old negro awoke and found his lips | those present. He said he was here to the Alliance of Jose County greasy, the bones and peelings on the floor, said: "I must have eat dat pos sum and taters, but if I did, it was the country is in a dire condition—that we most 'onsatisfying' possum and taters ever saw."

centralization. It is my idea that we cannot distribute money without s classism. I want money of a natio character—as good in California as North Carolina. How is there am 24. That, in our opinion, not a single better way to distribute money the on land and products? When a miners dig up gold, and go to the ernment and say coin this, to that ent it is paternal, because not lasses have gold mines. There is of necessity be some paternalism. W ot extend the same privilege that i miner enjoys to the products of rmf

He said if there were three Ir casury warehouses in this State at Newberne, one at Wilmingtons one at El zabeth City, they would b great benefit. I believe that if the would be felt Oregon. Slavery was once had in this don
