

STATE AGENCY DEPARTMENT.

Under this Head Will be Found Everything Relating to the Agency.

This page will hereafter be devoted to the Business Agency and co-operative trade. Communications from all interested will be accepted.

I am glad to announce that an arrangement has been made by which I am now prepared to send THE PROGRESSIVE FARMER, State Alliance Organ, for one year to every Sub-Business Agent not now a subscriber who will send me fifty cents.

The brethren will please take note of the rise in pork products, all of which are from one-eighth to one cent higher.

Always give plain shipping directions, giving the line on which your station is located, unless it is a well-known point, and if a pre-pay station, so state.

It is expected that you will take this paper to your Sub-Alliance, show it to the brethren and talk freely with them about what it contains.

Unless you are a bonded agent, please accompany each order with sufficient money to pay the bill. It is positively forbidden by the State Executive Committee that the State Business Agent should send out goods except in such cases.

All brethren wishing to purchase garden seed of any kind will find it to their interest to place their orders with this office. By so doing they will get 20 per cent. off of published catalogue prices, and there will still remain a small brokerage to the State Alliance.

As the amount of bill of some goods cannot always be determined before hand, be sure to send enough money to pay it. If you send too much it will be placed to your credit.

Your bill of lading always calls for goods in "good order." Be careful to examine every package before taking it out of the depot, or before surrendering your bill of lading.

Do not expect to get your goods on the day after your order. Remember that no goods are kept in stock at this office. Your order will be mailed to the manufacturer or wholesale dealer on the same day on which it is received at this office.

In all cases where goods are advertised to be delivered without freight charges, you will be expected to pay whatever charges are due at your station and send to this office your freight bill as so much cash, or with request to remit.

Under our present system of business, with Sub-Agents trading directly with the State Agent, we already have, and expect to have, a still larger number of names on our books.

It is hereby ordered by the Executive Committee of the North Carolina Farmers' State Alliance, in session at Raleigh this day, that the State Alliance Business Agent fill orders only from County and Sub-Alliance Business Agents when cash for the full amount of the bill shall accompany the order.

The small amount of cash in the hands of the State Business Agent, and the increasing business of his office, render it necessary that the above orders should be made.

One brother in ordering a sewing machine to day, says: "One of my neighbors has just bought a machine for sixty dollars."

their slick tongue, rather than by the sweat of their brow.

We give below a letter, with its answer, which will be of interest to many of the brethren:

Wm. B. Sellers, Stainback, N. C.—DEAR SIR AND BRO.—I have in my safe a check for \$1,000 from the Durham Fertilizer Co., for the benefit of all those who used the goods seized at Mebane in June of last year by the State Department of Agriculture, because of its being below the guaranteed analysis.

Mr. Sellers replies under date of Feb. 13, as follows: "My Alliance does not lay any claim for damages against the Fertilizer Co. on the seized goods. The last was as good as the first and the first as good as the last, and all good enough. You can return the money."

SIGN YOUR NAME TO ORDERS.

I have two orders to-day without any name signed to order, one from Greensboro, N. C. for seeds and guano, the other from Tweed, Buncombe county, about seed, potatoes, harrow, etc., etc.

Please read carefully the following circular, which has just been sent out to every Business Agent in the State whose name appears on my books.

The following resolution was adopted at the State Alliance, which met at Morehead City, August, 1891: (See Proceedings, page 41.)

Resolved, That the State Alliance recommend that none of its members buy any fertilizer from any firm or manufacturer who will not contract with your State Agent to give same terms and prices as they do their local agents and best customers—then put a brokerage of fifty cents per ton, one-half to be paid to agent for handling it and the other half to the State Executive Committee to pay expenses of Business Agent's office, and to keep Lecturers in the field.

In pursuance with the above resolution, I addressed the following letter to every fertilizer manufacturer registered as doing business in North Carolina for 1891:

GENTLEMEN:—Please quote me prices at which you will furnish fertilizers for the year 1892, to the N. C. Farmers' State Alliance. The price named to be for goods f. o. b. cars at your works, at Richmond, Va., and at Norfolk, Va., in any quantity from 10 tons to 15,000 tons (we sold 15,000 tons this year), terms cash April 1st, 1892, or farmers' note, at option of farmer, to bear interest from April 1st at 8 per cent., payable in cotton sections December 1st, 1892, in tobacco sections April 1st, 1893. The State Business Agent to be, in no wise, held responsible for the payment of any notes, nor under obligations to order any specified quantity of goods. The guano in all cases to be bagged and tagged according to North Carolina law, and if necessary you are to advance the freight charges on at least one third of the goods ordered as above.

Ammonia—One-third from sulphate of ammonia and nitrate of soda; the balance from animal sources. Phosphoric acid—At least 3 per cent. from animal bone, the balance from Charleston rock.

Potash—From sulphate and muriate of potash and tobacco stems. The goods are to be delivered between December 1st, 1891, and May 30th, 1892, in such quantities not less than car load lots, as the Alliance may order.

The reason I named the sources from which ammonia, phosphoric acid and potash was to be derived is, that the elements named are the best. Ammonia especially varies in effect on crops— that derived from hoofs, horns, leather scraps, etc., being soluble by laboring methods, but not available in the soil, mineral ammoniates being quick to act and animal ammoniates being slower.

Nine manufacturers bid. Twelve answered declining, and fifty-six did not reply at all. The contract was awarded to the Durham Fertilizer Co., they giving the best terms and prices.

The following terms and prices was the result: N. C. ALLIANCE (OFFICIAL) GUANO. Ammonia, 2 1/2 per cent.; Available Phosphoric Acid, 8 per cent.; Potash, 3 per cent.

F. O. B. Richmond, Va., car-load, \$20.50. Portsmouth, Va., car-load, 21.00. Wilmington, N. C., car-load, 21.50. Durham, N. C., any quantity, 21.50. Progressive Farmer Guano, one dollar less per ton at any of the above named points. Plant and Truck Fertilizer, f. o. b. Richmond, Va., 28.00.

Plant and Truck Fertilizer, f. o. b. Durham, N. C., 30.00. All time sales will be due December 1st, 1892, in cotton section, and March 1st, 1893, in tobacco section. Terms same as last season. Place your orders early, so that they may be filled before the rush. Interest will not begin till April 1st, 1892.

Edisto Acid Phosphate, 10 1/2 per cent., f. o. b. Charleston, S. C. 12.00. N. C. Alliance Official Acid Phosphate, f. o. b. Charleston, S. C., 13.00 per cent.
