PEOPLE'S PARTY PLATFORM.

Adopted by the Convention at Omaha. Neb., July 4, 1892.

Assembled upon the one hundred and and sixteenth anniversary of the Declaration of Independence, the People's party of America, in their first national convention, invoking upon their actions the blessing of Almighty God, puts forth in the name and on behalf of the people of the country the following preamble and declaration of principles: The conditions which surround us

best justify our co-operation; we meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballotbox, the legislatures, the Congress, and touches even the ermine on the bench. The people are demoralized; most of the States have been compelled to isolate the voters at the polling places to prevent universal intimidation or bribery. The newspapers are largely subsidized or muzzled, public opinion silenced, business prostrated, our homes covered with mortgages, labor impoverished, and the land concentrating in the hands of the capitalists. The urban workmen are denied the right of organization for self-protection; imported pauperized labor beats down their wages; a hireling army, unrecognized by our laws. is established to shoot them down, and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to tender for all debts, public and private, build up colossal fortunes for a few, unprecedented in the history of man- corporations, a just, equitable and kind, and the possessors of these in turn despise the Republic and endanger liberty. From the same prolific womb | cent. per annum, to be provided as set of governmental injustice we breed the forth in the Sub Treasury plan of the two great classes-tramps and millionaires

The national power to create money is appropriated to enrich bondholders; a vast public debt, payable in legal tender currency, has been funded into gold bearing bonds, thereby adding millions to the burdens of the people.

Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold, by decressing the country should be kept as much as the value of all forms of property as possible in the hands of the people, well as human labor, and the supply of and hence we demand that all state currency is purposely abridged to and national revenues shall be limited kills the body. Destroying free coin fatten usurers, bankrupt enterprise, to the necessary expenses of the govand enslave industry. A vast conspiracy against mankind has been organized on two continents, and it is rapidly taking possession of the world. If not met and overthrown at once it forebodes terrible social convulsions, the destruction of civilization, or the establishment of an absolute despotism. We have witnessed for more than a quarter of a century the struggles of the two great political parties for power and plunder, while grievous wrongs the rai have been inflicted upon the suffering people. people. We charge that the controlling influences dominating both parties have permitted the existing dreadful conditions to develop, without serious effort to prevent or restrain them.

Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming cam panger, every issue but one. They pro pose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, national banks, rings, trusts, watered stock, the demonetization of silver, and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of mammon; to destroy the multitude in order to secure corruption funds from the millionaires.
