A NEW IDEA.

No single invention has lessened the Alliance, No. 85, Johnston labor of womankind so much as that C., this Oct. 15, 1892, the of the Sewing Machine. Until recently resolutions were unanimous- the high retail prices, the direct result of the expensive agency system, has prevented their introduction into thouarolina and of other States has, sands of homes. It has remained for he fluence of designing men the Cash Buyers' Un on, of Chicago, lagogues, perverted the origi- Ill., to be the first to abolish this exention of the Order, and, con-the constitution thereof, has selling Sewing Machines. The "Union" gives prompt attention to all orders. We would advise any of our readers who may be interested in Sewing Machines, to write to them at once for their special Sewing Machine Catalogue No. 101. It will be sent free to any address.

The contributions to the October Arena are varied, interesting and able. In this issue Hon. Thomas E. Watson, who created such a furor in the House of Representatives by his charge of drunkenness among Congressmen, ap pears in a thoughtful paper on the Negro Question in the South." He does not believe in Federal interference, but shows that the only solution of the problem is a division of the vote among white and black. Congressman Brosius discusses in a thoughtful manner the plan of limiting the number of the House of Representatives. Rev. Thomas P. Hughes, D. D., answers Ibn Ishak in a masterly contribution en titled, "Has Islam a Future?" Under the title, "The True Character of Christopher Columbus," Mr. A. P. Dunlop gives a severe arraignment of Columbus, quoting numerous authori ly injuring the Order and your ties. This paper is refreshing after the flood of extravagant econiums which has recently surfeited even hero worshippers.

PEOPLE'S PARTY STATE PLAT-FORM.

That we favor the strictest economy in the administration of the State Gov That we favor the fullest develop-

of its department. We favor the fullest encouragement to the great agricultural and mechanical and manufacturing industries of our State and all enterprises tending to build up our State and to develop its

ment of our educational system in all

varied resources. Whereas the last General Assembly of North Carolina tailed to pass a bill reducing the legal rate of interest to 6 per cent.; and whereas we endorse the position of those who used their efforts and votes to pass such a measure. Therefore

We demand of our General Assembly at its next session to pass a bill reducing the legal rate of interest to 6 per

cent. We demand of our General Assembly at its next session the passage of a secret ballot law, with a provision in No 40, P. R. said law that will secure to voters who cannot read an opportunity to vote.

We deplore the corrupting use of money in elections as tending to degrade manhood and to corrupt the ballot box, and we do denounce all attempts to subvert the rights of the people at the ballot box and an effort to deprive them of a fair and honest count when the votes have been cast.

Whereas, there are large railroad properties and interests in this State now escaping taxation in whole or in part; and whereas, further, it is in the province of the General Assembly of North Carolina to make all property in the State bear its equal burden of taxation; now, therefore,
