EDITORIAL NOTES.

We have a communication from Rock Alliance, Rowan county, signed "O. C." If the writer will send his full name, the letter will be published.

Send in your stock for the Alliance shoe factory. It must be running in time to make our winter shoes, and it will be if each brother will do what he can.

The Populists declare that the finan cial question is the great issue. But our Democratic friends are content to rock along with "harmony" inscribed on their banner.

We want to state officially that the fools who believe the goldbug yarn about making money plentiful by stopping the making of it altogether, are not all dead yet.

We see no signs of Democratic Populist fusion in North Carolina, nor in any county in the State. The report that it has been effected is probably the same old campaign lie in another form.

Failures for the past week foot up 259 against 234 for the same week last year. Liabilities much heavier, showing that large concerns are going under. See the beauties of the gold standard?

Wake County Alliance will meet with the L L Polk Alliance at the A. & M. College on the second Thursday in April. The brethren of this Alliance will furnish a dinner for the delegates. Let's have a full attendance.

It seems a little strange that people build a handsome church, dedicate it to the service of the Lord, and then spend \$200 putting up a lightning rod to keep the Lord from destroying his own property before the summer is over.

THE STATE'S DEBT.

The State's Bonded debt, at present, stands as follows:

lew 4 per cent. Consolidated bonds ...,\$3,347,75 per cent. N. C. R. R. Construction Bonds 2,720 000

The interest on the 4 per cent. bonds is due semi-annually, in January and July, and is paid upon presentation of coupons, out of special taxes levied for the purpose.

The interest on the 6 per cent. bonds is provided for out of the rental coming in to the State Treasury from the N. C. R R.

The amount of this 6 per cent. interest, or six years it is to be Then for 93 years, finishing out the 99 year's lease..... 225,01

15 cents in the dollar in new North Carolina 4 per cent. bonds. As the new 1 per cent bonds are now at premium of 5 per cent., the bonds found are worth \$7,780.50. The bond record has been checked up and does not show that the bonds found have ever been refunded. So North Carolina is nearly \$8,000 richer than she was under Democratic rule, and there is no tell ing how many more thousands.

In the report of the Secretary of the Treasury October 1, 1894, we find that there was outstanding \$1,154 912,734 of paper money and that there was \$123, 665,756 in gold coin and bullion in the treasury to redeem it with 9 cents in gold to redeem 100 cents in paper .-Mobile Unionist.

Abraham White, of Boston, is sound money man, but until J. G Carlisle began to mortgage the United States, he was peniless. But White had nerve. He bid for \$900,000 worth of bonds and sold them to a Boston bank, making \$30,000 clear. Then he concluded he was a Wall street goldin that narrow, dirty den of iniquity. There has never yet been a time shown in history when a nation went to war and needed money that gold did not sneak out of the country, leaving the government to bridge over the crisis by issuing a circulating medium consisting of its promise to pay; and there never has been a time when war was over and the danger past that gold did not come swaggering back, demanding that all other kinds of currency should be taken out of circula tion, and that it alone should be sovereign over the people.-Daily Argon aut, Lexington, Ky.

SOME FINE HORSEMANSHIP.

The Statesville Landmark comments on the meeting of the central Demo cratic committee thusly:

"The news which comes of the meeting of the Democratic central commit tee at Raleigh last week is that it was governed by a spirit of conservatism and a desire to harmonize the different elements of the party. As stard elsewhere a majority of its members were found to be sound money men, but the financial question had less consideration than the weightier matters of fusing and bolting. With one, possibly two exceptions, no member of the committee entertained any idea of doing either, nor entertained any idea that the party will do either. Upon these points the free silver men, with the one or two exceptions noted, rang clear as the sound money men, and it is satisfying to learn that there was an absence of any spirit of proscription. The prevailing sentiment was that we must all abide in the ship and get in as many others as possible instead of throwing any of the present crew or passengers overboard."
