

WINCHESTER

"REPEATER"
Smokeless Powder Shells

These shells cost a little more than black powder loads, but for bird shooting they are worth many times the difference, as there is no smoke to hinder the second barrel. They are by far the best low priced smokeless load on the market. When you buy, insist upon having them.

DANVILLE TOBACCO SALES.

Since the sales of loose leaf tobacco resumed at the warehouses on the first of the month the breaks have consisted nearly entirely of primings. For the past week the auction sales have lasted only an hour or two each day. Some few common primings are selling as low as 1c., but the larger proportion are of a medium grade and are selling at 3c. to 5c. The bright primings bring from 6c. to 12c. There is some little stalk-cured leaf coming to market and selling from 6c. to 12c. The little new that has been sold so far indicates a very useful crop in the old belt section, which promises to be of good body and quality

BIBRELL BROS.

The man who produces good seed is a benefactor; he who produces scrub seed is a malefactor.—Rev. M. G. Hamm.

BEE KEEPING FOR FARMERS.

XXI.—Making a Living With Bees.

Bee keeping certainly does pay, else so many persons would not be engaged in it. It also pays better in some places than in others, as southwestern Texas and southern California. The quantity of bee pasturage in a given section of country mainly determines the success of the business there. One of the first things, then, is to find out all the nectar-bearing plants in your vicinity and determine the possibilities of the business on that score.

It is evident that bee keeping will more readily pay as a side line than as an exclusive business. In connection with other farm lines it can very easily be made to bring in its proportional part of the profit. Without much difficulty it ought to be made to pay as well as poultry. Bees come in very nicely with poultry, gardening, and fruit. In a good locality the business can also be made to pay well when practiced exclusively. Tennessee bee keepers have been known to make \$600 a year. In other parts of the country their incomes may run as high as \$3,000 a year.

Making a living with bees depends much also upon the person engaged in it. Adaptability and love for the work have largely to do with it. One should also be endowed with a painstaking disposition and possessed with the gift of continuance. The man or woman who will soon get tired of the work would better not begin it. The disposition to study and gather information about the best art of doing the business is also essential.

One special advantage in bee keeping is the large returns it will give for the investment of a small amount of capital. It is easily possible to make back in one year all you have expended for bees and materials in getting your start. What other business will make quicker returns than that? Some of them take eight or ten years to pay back the investment.

A living can not be made in bee keeping without a thorough knowledge of the business any more than in law, or medicine, or merchandising. It is not the thing to take up when you fail in every thing else. It must be pursued for its own sake. Nor must one become discouraged. If you happen to begin in a bad year like the present, don't knock off because you make nothing, but keep right on. The likelihood is that next year you will be all right.

T. C. KARNS.

OUR LAND EXCHANGE

Farms Wanted or Offered For Sale or Rent

In this department we shall publish offerings of all land wanted or offered for sale or for rent. We do not extend our general advertising guarantee to this department, because every purchaser should see land for himself before buying, but no man is permitted to offer land for sale in this department until he has first shown us satisfactory references as to honesty and financial responsibility.

FARM LANDS FOR SALE

Myself and associates have sold over half million dollars worth of farm lands in Southwest Georgia within the past 8 months. This is the best Cotton, Corn, Grain and Truck growing country in the entire South. We have other choice Farms and it will pay you to write me what you want.

SMITH D. PICKETT,
Empire Life Building, Atlanta, Georgia.

A REAL FARM BARGAIN

729 acres, 2 1/4 miles from Thomasville, Ga., 400 acres cleared. Large quantity of hard wood timber. Railroad bounds one side and two switches on the place. Well watered, good stock proposition. Good 7-room house, good well, fine oak grove. To settle an estate and give much needed money to a me heirs quick, it is offered at a real bargain price of \$25 per acre, one-third cash, balance on easy terms, at 6%. No lands so near town can be bought under \$25. Write for full particulars. W. E. CRAIGMILES, Thomasville, Ga.

Farm and Timber LANDS

Farms and timbered lands for sale at \$3.00 to \$15.00 per acre. Write for descriptive catalog. **JEFFREYS, NESTER & CO., Inc.,** Chase City, Mechanicsburg Co., Va.

\$5 A MONTH Buys a Farm

You are now offered an exceedingly inviting opportunity to procure, at a very low price and on easy terms, a home for yourself in the most productive country in the world, where ten acres will yield an income of \$3,000 to \$5,000 a year—where not one crop, but two, three and even four crops may be grown each year on the same ground; where climate, natural rainfall and soil unite in creating bountiful harvests. Lands adapted to General Farming, Corn, Cotton, Market Gardening, Fruit Growing, Nuts, or Poultry, Live Stock, Bees, and Dairying, etc.

WONDERFUL OPPORTUNITY

This Washington & Choctaw Territory offers a wonderful opportunity to Northern farm-owners, who find land prices too high in their native state, or to the town man who wants to get away from the city strife and small salaries, or to the farm-owner who wants a pleasant Southern home where he can pass his winters, and, best of all, to the man who wants to invest in lands which are increasing in price over 200% a year. This is the place to make money.

You can buy this land on long time with annual payments or on little monthly payments of \$5.00 a month.

THE SOIL. A sandy loam, entirely controllable and without a peer in productiveness, Northern men having successfully tilled it for fourteen years and made money.

THE CLIMATE. The territory is about 60 miles from the Gulf Coast, 300 feet elevation above the sea. Cool in summer, no heat prostrations, and the winters permit out-of-door work in the fields, snow being unknown.

THE RAINFALL averages 59 inches per year; no droughts; no irrigation needed.

THE HEALTHFULNESS. The territory has been under observation and reported upon for a number of years by the United States Marine Hospital Commission, and these reports say that it is the only part of the United States absolutely free from local diseases.

THE WATER. Its natural purity is proven by analysis, which shows the water to have been the purest of 9,000 samples examined by the University of Illinois.

THE CROPS. Anything can be grown on the Washington & Choctaw land that can be raised elsewhere. Crops can be produced twelve months in the year, and more corn can be grown to the acre than is possible in the best corn states of the North.

NURSERY ON THE LAND We are establishing a nursery in the midst of our holdings, consisting of 820 acres, and when completed will be the largest nursery in the South. We will supply our settlers with all their nursery needs at a big discount. We have many good things to offer settlers in our region. We see no reason why land values should not increase faster here than they have in most parts of the country.

FIVE ACRE ORCHARDS FOR SALE Our nursery department will plant you a five-acre orchard and take care of it for five years if you wish. This is not a regular business of ours, but we have competent men who will plant and oversee your orchard. In many other ways we are prepared to be of service to you. Your success in a measure is our success, and we help you get properly started.

MARKETS. There is unlimited demand for everything the grower has to sell. The profit per acre runs from \$75.00 to \$1000.00, depending upon the crop growing.

AGENTS WANTED

We want agents to sell our land in unoccupied territory. Write for terms. We have a good piece of land we want honest men to sell it for us.

Send for Our Free Booklet

If you were sure you could make \$2,000 to \$5,000 per year from a farm in the Washington & Choctaw territory, would you be interested? We print a 20 page book that tells all about this land and gives many letters from people who know the land, have tilled it, and who are doing well. Send for this booklet; it is free.

GET OUR FREE BOOKLET

Mail this coupon or send us your name on a postal card to the **WASHINGTON & CHOCTAW LAND CO.,** 7003 TIMES BLDG., ST. LOUIS, MO., and we will send you a handsome illustrated booklet telling about our lands.
