

NEXT WEEK--OUR PRETTY HOME SPECIAL.

**TUXEDO  
TOBACCO**  
is that kind  
—the smiling  
kind—

They surely do like  
Tuxedo!

Made of the best Burley  
leaf grown.

To get the best Burley has  
meant paying more money to the  
planter than is paid for simply  
"good" tobacco. It has meant en-  
couragement to careful, enterpris-  
ing growers, and a steady rise in  
the price that growers receive.

The splendid success of Tuxedo  
in this way has been an important  
fact to the men who "produce the  
goods," and it has been an impor-  
tant fact to the American smoker,  
who gets his favorite Tuxedo for  
the same price that is charged for  
tobacco made of inferior leaves.

The leadership of Tuxedo shows what  
particular smokers want.

It shows that the best tobacco *when  
prepared for the pipe by the Patterson Process*  
is a sure winner.

That mild, fragrant smoke—the origi-  
nal "no bite" tobacco—has brought the  
smile of real satisfaction to hundreds of  
thousands of American smokers.

## YOUR SOIL NEEDS LIME

The summer crops tax the fertility of your  
land, and leave the soil acid.

Then the fertilizer you used made it  
more so.

Thus, the soil is in poor condition, and  
the acidity needs to be neutralized in order  
to produce the big wheat yields.

### Apply Lee's Prepared Agricultural Lime.

This lime is specially prepared and contains  
potash and other ingredients essential to plant  
growth.

It neutralizes the acidity of the soil, makes  
humus, and makes the dormant phosphoric acid  
and potash in your soil available.

It dissolves vegetation quicker than rock lime,  
and less is required. Thus you save handling,  
hauling and freight.

Our interesting booklet and name of nearest  
dealer sent free to every farmer.
