FOUNDED, 1886, AT RALEIGH, N. C.

Vol. XXVII. No. 34.

SATURDAY, AUGUST 24, 1912.

Weekly: \$1 a Year.

## OUR NEGLECTED BEAUTY OF TREE AND HEDGE

THESE two beautiful English views illustrate Mr. Poe's contention that the South has woefully neglected two of its main resources of beauty, hedges and avenues of trees. The upper picture shows a typical hedge such as line most country roadways in England, and the lower picture shows an avenue of trees whose beauty would make famous any Southern town or plantation.

Why not plant an avenue leading to your residence—an avenue which, even if less pretentious than this, will nevertheless give a peculiar dignity and charm to your home, and whose beauty will increase with every passing year until your children's children revere the loving foresight you exhibited?
