

A Farm and Home Weekly for
The Carolinas, Virginia, Georgia, and Florida.

FOUNDED 1886, AT RALEIGH, N. C.

Vol. XXIX. No. 7

SATURDAY, FEBRUARY 14, 1914

\$1 a Year; 5c. a Copy

KEEP THIS REFERENCE ISSUE

THIS week The Progressive Farmer is celebrating its twenty-eighth birthday. A rather lusty, vigorous youngster we believe our readers will all agree. As a fitting celebration of the event, and as a culmination of a series of special issues, we felt that we could not do better than furnish our several hundred thousand readers a Reference Special—an issue worth preserving in any man's library and one to which we might frequently turn as a source of information.

Is it fertilizers you wish to know about? This Reference Issue will tell you. Suggested fertilizer mixtures for cotton, for corn, for tobacco; amount of plant food in dozens of different fertilizing mate-

rials; plant food value of various kinds of manures; amount of plant food taken from the land in various crops; how legumes enrich land; and many other facts about soil-fertility that it is valuable to us and our business to know.

But it is impossible to tell you here about all the good things in this week's Progressive Farmer. The best we can do is to make as comprehensive an index as possible, and we ask you to turn to it and find the information you need.

And let us repeat, this issue should be carefully preserved for future reference.

FEATURES OF THIS ISSUE

AGRICULTURE—	Tenancy, The Alarming Increase in ... 18	Fungicides, How to Make and Use Them 26
Agricultural Bulletins You Ought to Have ... 5	Torrens System, An Explanation ... 33	Grafting Wax, Formula For ... 24
Agricultural Organizations ... 30-31	White and Colored Farmers in the Cotton Belt ... 6	Horticultural Associations ... 30-31
Agricultural Terms, Glossary of ... 6	White Farm Acreage Decreasing ... 19	Lime-sulphur Wash, How to Make ... 25
