PURE-BRED LIVESTOCK

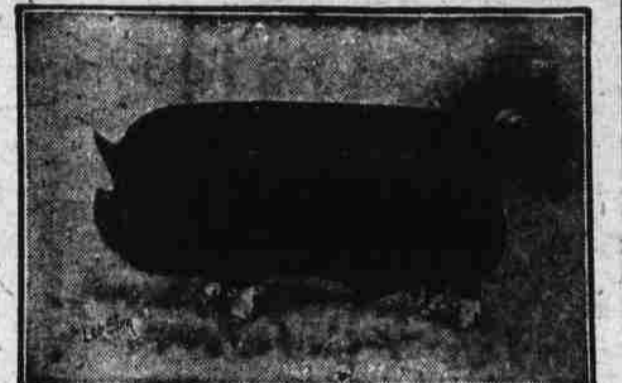

IMPORTED CATTLE, HORSES and SWINE.
The South is destined to be the breeding grounds of America. Your mild winters, long growing season and abundant grasses and pasture lands make it possible and the demand for more food to feed the people makes it a necessity.

For twenty-five years I have had experience in selecting and buying for American breeders stock from the best herds and flocks of England. Commission me. Can furnish best of references,
GEO. ELLIS, M. R. C. V. S., GLOSSOP, near Manchester, England.

THE MANY RECENT SUCCESSFUL PUBLIC SALES OF SHORTHORNS clearly indicate that demand for America's most popular and useful cattle continues to increase on a safe and sane basis. This office, through its Directors and officers are executing plans for breed promotion in this and foreign countries never before attempted by a similar association.
