

Armies Must Have Hay

Many Shiploads Will Go to Europe—Farmers Advised to Plant Wheat and Oats Stubble to Sudan Grass—Farmers' Notes Taken in Payment for Seed.

This is going to be such a big year in the demand for hay (owing to the war) that it will surely pay the farmer to raise an extra amount for forage.

Two Crops From Your Land

After you have taken off your small grains or other crops this month, or at any time before August 1st, put that land right back into Sudan Grass, and raise a heavy tonnage forage crop by fall. This ought to double your net income on that land.

Sudan Creat for Hot, Dry, Weather

Through the dry weather of July and August, when many other crops and pastures suffer, Sudan, the new, wonderful drouth-resister, flourishes, yielding plentiful, choice hay. It yields more tons to the acre than any other forage crop—three to ten tons per acre. First cutting, fifty to sixty days after planting. Additional cutting every thirty to forty days till frost kills dead.

Pay for Your Seed With Note

If you will plant ten acres to Sudan Grass I will supply you with a liberal quantity of seed and accept your four months' note for \$20.00 in settlement for the seed.

How to Pay for Seed With Hay

If you will plant forty acres or more, I will supply a liberal quantity of seed for planting at the rate of \$1.75 an acre, accepting your four months' note in settlement, and will buy sufficient of your baled Sudan hay to pay for the seed at \$15.00 a ton, delivered at your nearest railroad station.

The Agricultural Department has declared that Sudan grass is the best forage crop known. I am the biggest grower of Sudan Grass in America, and believe it will bring millions of dollars to the farmer. I know it is so good that I am making you this extraordinary offer. I am negotiating for army hay contracts. I recently wrote a book entitled "SUDAN GRASS—ITS HISTORY, USES AND METHODS OF CULTIVATION." It gives just the information you should know. I will send it free if you will ask for it.

The seed I will ship is of the very highest class, and a certificate of inspection by the State Experiment Association, vouching for its purity and freedom from all other grasses and weeds will accompany the shipment.

If you prefer to pay cash for seed, I will allow you a discount of 5 per cent providing payment is made within five days of receipt of seeds.

Please write me at once, stating whether you will pay cash or give a note. If the latter, then give number of acres you will agree to plant. State whether you own your own farm and give references. Promise to give me your four months' note in settlement, and I will ship seed at once, and send note for your signature. Act quickly. Planting time is on us, and I have only seed enough to plant 20,000 acres.

You Can Tell By The Milk Pail When Cotton Seed Meal Gives Out.

The day you start feeding Cotton Seed Meal you get more and richer milk. The milk pail tells as soon as Cotton Seed Meal gives out. The Farm Journal says: "There is no food-stuff known that will place the same amount of fat on cattle within so short a time as Cotton Seed Meal combined with cotton seed hulls," and this fact is recognized wherever this food is used. When fed to dairy cows, or by the family that has but a single cow, its use increases the quantity of milk, improves the color, and the cream therefrom makes richer and better butter.

Saves \$55.40 worth of Feed

"In Indiana it was found that the addition of 1 pound of Cotton Seed Meal to a ration of corn and clover hay, resulted in a saving of 1.37 lbs. of corn and 1.41 lbs. of clover hay. This means that at average prices—each ton of Cotton Seed Meal fed, the farmer saves \$55.40 worth of other feed."

Feed COTTON SEED MEAL to Your Cattle, Hogs and Sheep

Cotton Seed Meal is the cheapest and most digestible source of protein. Puts flesh on lambs and increases wool on sheep. Especially valuable for sucking sows—giving vigor to pigs before and after farrowing. Write today for

VALUABLE FREE BOOK ON FEEDING

This book will show how to save money on feeds and have better balanced rations. Send for it today—it's FREE!

A Government Machine for Testing the Strength of Wood

When the Government Tests Lumber

It Studies Thousands of Different Pieces

before reaching a conclusion. Did you ever know that the Government, after careful laboratory tests, found Southern Yellow Pine to have greater breaking strength than White Oak, and greater crushing strength than White Oak, Rock Elm, Hard Maple or Big Shellbark Hickory?

That is fact, surprising though it may be.

Here are the Government's figures, made by the experts of the Forest Service, in comparing various commercial woods:

Woods Tested	Breaking Strength	Woods Tested	Crushing Strength
LONG LEAF YELLOW PINE.....	8,630	LONG LEAF YELLOW PINE.....	4,280
White Oak.....	8,160	Shellbark Hickory.....	3,890
Post Oak.....	7,380	Hard Maple.....	3,850
White Elm.....	6,950	Rock Elm.....	3,740
Silver Maple.....	5,820	White Oak.....	3,510

And in addition to those superior qualities, Southern Yellow Pine lumber costs much less than any of the others.

That is a valuable tip the Government gives you. It shows you how you can get from your home dealer any quantity of clear, straight-grained, durable, easy-working lumber stronger than Oak, for a very moderate price. There is no other wood so perfectly adapted to so many uses.
