

WON HIGHEST AWARD AT SAN FRANCISCO EXPOSITION

Top-Notch Drills

Hoosier — Empire — Kentucky

HOOISIER, Empire, and Kentucky drills will produce grain crops of better quality than any other known method of planting.

Why? Because, seed planted with a Hoosier, Empire, or Kentucky drill has these advantages:

1. No expensive waste of seed.
2. Every kernel planted at the right depth, fully covered.
3. Every seed has the best possible chance for a strong start.
4. There is not so much danger from drought.
5. Each seed has sufficient ground to support it.
6. The crop all ripens at the same time.
7. Growing conditions being most favorable, the grain will fill out fully.
8. The crop will be as heavy as weather conditions will permit.

You will agree that these are advantages worth having. No matter what grain crop you intend to plant, you will do the best thing for yourself by owning a Hoosier, Empire or Kentucky drill. See the dealer who sells one of these lines. Write us and we will send you a catalogue, and also for a copy of our interesting booklet, "For Better Crops."

Big Ben

He's Had Farm Experience

On thousands of farms, Big Ben has been the clock of all work—ringing up the people who must get out early, and telling the right time of day to those who stay 'round the house.

Big Ben works 24 hours at a stretch—puts in overtime without extra pay, and never botches up a job.

He's husky, deep-voiced and strong. His call is clear—his bold numerals show plainly in the dim light.

If your dealer hasn't him, a money order addressed to his makers, Westclox, La Salle, Illinois, will bring him postpaid. \$2.50 in the States—in Canada, \$3.00.

Try This Engine 60 Days!

You Be The Judge! No Money in Advance

Write For This Book Today!

Before you decide on any engine, make this test on your own farm at our expense. Try any size Maynard for 60 days, without a penny in advance. There is nothing on your farm that will be of so much help to you, nothing that saves so much work, time and money as a good power outfit. It's going to make a big difference to you whether you get the right engine or the wrong one. There's a big difference in cost—and a still bigger difference in service. There is no longer any reason why you should take a chance of getting anything except the right power outfit. After this 60 days' free trial, if you think there's a better engine made at any price, or its equal at anywhere near its price, return the Maynard at our expense. You don't send us a cent. This 60 days' trial is free.

Divide the Cost by Eight!

Our book quotes low prices that save you \$25 to \$300 cash, and shows you the safe, sensible way to figure engine costs. Divide Maynard prices by eight, then divide price of cheap engines by three, and you will arrive at the cost per year. Read why no engine at our price will last as long as the Maynard—why no engine at any price will last longer. There are 16 big Maynard features of design and construction, all of which cannot be found on any other engine. With your book we will send you our "Comparative Chart" that makes it easy to compare different makes of engines. Don't decide on any engine till you read our book.

Mail postal now. Just say "Send Engine Book Free", and it will come by return mail, postpaid.

Our Rating 1 1/2 H.P.; Our Price, \$29.75

Actual factory tests prove this engine develops up to 1 1/2 H.P. at normal speed. All Maynards are rated at normal speed instead of speeding them up. A speeded up engine is like a speeded up horse—all right for a while but can't stand the strain. If we speeded up our 6 H.P. as some others speed up theirs, we could give it a much higher rating than we do. Our price, \$29.75, for this 1 1/2 H.P. engine (our rating) is an example of the low prices we quote on larger sizes. Actual Factory Test card, sent with your Maynard, shows actual horse power developed. Write today for this greatest money-saving engine book published.

The Vehicle You Want, at the Price You Want to Pay.

THAT is the PARRY Idea. Service, style, safety, beauty of design and perfection of finish with rugged honesty in every stick of hickory and every ounce of metal. For more than a third of a century we have been specializing on buggies, surreys, carts and spring wagons. We make every part, inspect every part, guarantee every part and put our conscience into every part of every PARRY VEHICLE.

Our factory is the largest in the world devoted solely to the manufacture of horse-drawn vehicles. We buy the raw materials in enormous quantities and thus get the best at the lowest cost. Our manufacturing economies enable us to put more vehicle value into every dollar's worth of price. We have dealers everywhere handling our vehicles in car-load lots, thus saving you big money on freight charges.

Our List of Summer Bargains, No. 23 contains the rig you want at the price you have been waiting for. Write for it today.

PARRY MAKES THE PRICE

Save the stalks!—they're half the crop in actual feed value.

The Appleton cuts or shreds the stalks; the fodder saved paying whole operating cost. First successful machine husker made; built by Appleton Standards from 43 years experience in farm machinery making. Husks cleanest, shells least; equipped with most efficient corn saver. Sizes for 4 h. p. and up gasoline engine.

APPLETON

Husker & Shredder

Made in four sizes

Guaranteed to do more and better work with less power than any husker of equal size.

Easiest and safest to operate. Gives years of service; yet one season's income from it pays the cost. Send now for free Appleton Husker Book. Appleton Mfg. Co., 537 Fargo St., Batavia, Ill.

The MONARCH FRENCH BURR MILL

WHY PAY GOOD MONEY FOR FEED GRINDING?

SAVE money by doing your own grinding, and make money by grinding for your neighbors.

The Monarch French Burr Mill is easily operated by anyone—man or boy. It grinds all feed for stock, table corn meal, rye, graham, or buckwheat flour. Never gets out of order; lasts a lifetime; stands all the grinding you can pile on it. Don't pay money for grinding you can quickly do yourself with this mill. Get special information, tell us kind and how much power you have.
