## Wood's Productive Seed Corns.

Our Virginia-grown Seed Corns have an established reputation for superiority in productiveness and germinating qualities.

Wood's Descriptive Catalog tells about the best of prize-winning and profit-making varieties in both White and Yellow Corns.

### Cotton Seed.

We offer the best and most improved varieties, grown in sections absolutely free from boll weevil. Our Catalog gives prices and information, and tells about the best of Southern Seeds,

**100-DAY VELVET BEANS, Soja Beans, SUDAN GRASS, Dallis Grass and all Sorghums and Millets.**  
Catalog mailed free on request.

**T. W. WOOD & SONS, SEEDSMEN, - Richmond, Va.**

**Boone County 3 PER 50**  
**White Seed Corn**

**BOONE COUNTY WHITE** has won more prizes at fairs and corn shows than any other variety. Would you like to get an average of fifty bushels of corn per acre for two hundred and fifty acres? Last year we secured such a yield on Lanier Farm, and are offering you some of this seed corn. It grows tall and large and produces an abundance of fodder. Grain deep set in small cob. Matures early.

### Fifty Bushels Per Acre Without Fertilizer

Don't plant corn this year that has been doctor'd and over-fed on fertilizer, as fertilizer is scarce and high this year. Our yield was produced without a pound of fertilizer. We are not professional seed men, but we do breed and carefully select our seed each year. In twelve thousand bushels, not an off-color ear, showing exceptional purity. Germination guaranteed 95%. Order now. With big shortage of good seed corn in the United States, we will be quickly sold out.
