**More Butter and Better Butter**  
**YOUR HERD** should average at least 500 lbs. of butter per year. A good Jersey herd will do even better—600 lbs. per year, and the butter will be of the finest flavor, texture, and color. There are many individuals of this breed producing 1100 lbs. They make good use of every ounce of feed, do not require fancy feeding, mature early, thrive in any climate, are steady producers, are beautiful and gentle. They pay big dividends on the highest priced land.  
 Our latest free book, "About Jersey Cattle," tells all about the development of this hardy breed. Send for it—now. You'll be glad you did.

**Purebred Registered HOLSTEIN CATTLE**  
 If you are not ready to buy purebred registered Holstein cows for foundation stock, why not grade up your common cows by using a purebred Registered Holstein bull? The Dairy Department of the Illinois Agricultural College has figured that \$150 invested in a good purebred bull earns in six years nearly 1900 per cent. profit in the increased production alone, not taking into account the increased value of the herd. Can you invest \$100 or \$200 so that it will pay you more profit? Investigate the big "Black-and-Whites."

**WHY IT PAYS**  
 Why Does Farm Paper Advertising Pay?  
 Because a clean, well-edited, high-class farm paper editorially creates a desire for certain commodities.  
 This being so, a market is created for various things and the buyer is on the lookout. The seller has but to introduce himself, display his wares and close a trade.  
**THAT'S EXACTLY WHY!**
