

to dishonesty in any manner whatever. He should be truthful, and one who teaches not only by precept but by example as well. A man who has the entire confidence as well as the respect of his neighbors, and all who know him. Such a man will make good anywhere.  
C. C. W.

**Three Examples of Cooperation**

**W**ITHIN the first month of my service as market agent for the Roanoke, Va., Chamber of Commerce I have come across several forms of cooperation, which are easily possible in every community, even in those where there is no spirit of community cooperation.

1. **Between man and wife.**—There are at least three instances of women who come along with the market wagon, usually accompanied by some helper, to do the marketing, while the husband remains at home to carry on the cultivation. Each of these farm women has a peculiar fitness for this special work and commands the respect and the confidence of the men who buy on the market—as much so as any woman serving as private secretary, milliner or saleslady.

2. **Between brothers.**—Four miles out are Gilbert Brothers, two young men of a push and determination rarely seen. Five years ago they took the breath of their neighbors by attempting to buy seven acres of land with a very small house on it for \$3,000 with only a small cash payment. A year or two they rented other land, but soon gave themselves wholly to their little farm. They now have one acre with overhead irrigation. Their water supply comes from a well they themselves dug and is pumped by a gasoline engine. To protect themselves against a water famine they have dug a big cistern right by the well, which they keep full and from which they pump the water through the pipes with the same engine that pumps it from the well. They keep one horse of heavy weight and have an arrangement with a neighbor for the use of his horse in exchange for the use of their horse or labor at times.

3. **Between two neighbors.**—"Ramsey & Plunkett" is the style of the firm. The partnership dates back for 20 years. They are just farmers, that's all. But they have built up a big business on quality as their trade mark. One looks after the cultivation, and the other does the marketing. They have been pioneers in the trucking development of this section. They are both comfortably fixed and each bears testimony to the other's help in making their farming both pleasing and profitable.

**A County School Report Pays**

**A**NOTHER matter which will soon claim the attention of the county superintendents and the boards of education in the various counties of the state is the publication of an annual school report. For several years this has been done in a number of the counties, and where this has been kept up from year to year, it has done more than any other one thing to promote the cause of education in these counties. Let me suggest that a little money expended in this way will bring results that will surprise you if your county has not published an annual before, and if you do not object to having advertising in the report you could easily secure a sufficient amount from the merchants and business men of your town to meet all necessary expenses in the publication and mailing of the report.

This report should contain a table showing each school district, together with the school census, the enrollment and the average daily attendance with the name of the teacher. This one publication has had more to do with the increased enrollment and attendance in the writer's own county than any other one thing ever attempted here. Then there should be a comparative table showing the progress made from year to year for something like the past decade. It is true this will entail considerable extra work upon the superintendent, but nothing worth while was ever accomplished without labor.

# The Clemson Agricultural College

## SOUTH CAROLINA'S SCHOOL OF ENGINEERING AND AGRICULTURE.

One of the largest and best equipped Agricultural and Mechanical Colleges in the South. 1,554 Acres of land. Value of plant over \$1,300,000. Over 120 teachers, officers and assistants. Enrollment, 950. Every county in South Carolina Represented. 13 Degree Courses. 4 Short Courses. 26 Departments of instruction. New and Modern buildings, equipment and sanitation.

<p style="text-align: center;"><b>Courses of Study</b></p> <p>Agriculture (8 Courses), Chemistry, Mechanical Engineering, Civil Engineering, Textile Engineering, Architectural Engineering.</p> <p>• Four-Weeks Summer Course in Agriculture.</p> <p>• Four-Weeks Summer Course in Cotton Grading.</p> <p>• Two-year Course in Textiles.</p> <p>• One-Year Course in Agriculture.</p> <p style="text-align: center;">(Oct. 10th to June 8th.)</p> <p style="text-align: center;"><b>Requirements of Admission</b></p> <p>No student will be admitted to the Freshman Class who is not at least 16 years old at the time of entrance.</p> <p>An honorable discharge from the last school or college attended is required.</p> <p>The college no longer maintains a preparatory class.</p> <p>Details as to scholastic requirements furnished on application.</p>	<p style="text-align: center;"><b>Religious Influences</b></p> <p>The College contributes to the salaries of four resident ministers who conduct divine services and pastoral work among the cadets in barracks. There is a flourishing Sunday School and Y. M. C. A. with two salaried Secretaries. A \$75,000 Y. M. C. A. Building was completed January 1916.</p> <p style="text-align: center;"><b>Cost</b></p> <p>The cost for any of the twelve regular four year courses or the Two Year Textile course is \$149.10 per session. This amount covers uniforms, board, room, heat, light water, laundry and all fees except tuition. Tuition is \$40.00 additional, to those who are able to pay.</p> <p>The cost of the One-Year Agricultural Course is \$122.05. This amount covers the same items as are listed above.</p> <p>The cost of the Four-Weeks Summer Courses is \$19.00.</p>	<p style="text-align: center;"><b>Scholarships and Examinations</b></p> <p>The College maintains 168 four year scholarships in the Agricultural and Textile Courses, and 51 in the One Year Agricultural Course (Oct. 10th to June 8th). Each scholarship is worth \$100 and free tuition. Scholarship and entrance examinations are held at the county court houses at 9 A. M. July 14. Write for full information in regard to the scholarships open to your county next session, and the laws governing their award. <i>It is worth your while to try for one of these scholarships.</i></p> <p>Those who are not seeking to enter on scholarships are advised to stand examinations on July 14, rather than wait until they come to College in the fall. Credit will be given for examinations passed at the county seat.</p>

**Keeping Up Attendance in Local Meetings**

**S**ECURING good attendance at meetings of Local Unions depends upon the interest that is created in the meetings. If the program does not include any business transactions, it must include the social and educational features. It is a well-known fact that a business program that offers some profitable business transactions will do more than anything else to secure attendance. But it isn't practical to have an extensive business program at every meeting. Neither is it desirable, for there are other things in life that ought to interest us more than mere money getting or money saving.

As a school for the discussion of the problems of farm life in general and as an agency for the creation of a better community spirit and social relationship, the Local Union ought to be worth as much as it is for commercial or business purposes, and the Local Unions that have fully realized this are the ones that have best attendance and the most interesting meetings.

**The Next State Convention of the Farmers' Union**

**A** LETTER has been received from Dr. H. Q. Alexander calling attention to the fact that on June 30, when the Executive Committee of the North Carolina Farmers' Union meets in Raleigh, the time and place of the next annual State Convention will be selected. Towns and counties wishing to have this convention meet with them should send invitations to Chairman W. B. Gibson, Statesville, N. C.; and in order to receive proper attention this should be done at once.

## THE RANGE THAT SAVES MONEY

The average food waste caused by poor cooking resulting from a badly constructed or worn-out stove or range is sufficient to pay for two new ranges yearly, without counting extra work for the wife. It is real economy to buy a new stove or range instead of hanging to the old one.

**RICHMOND STOVES & RANGES**

eliminate food waste. Because of scientific construction they heat quickly and evenly. Proper combustion insures perfect baking and cooking. They are equipped with every labor-saving device and improvement to save time in the kitchen. Firebox is self cleaning. Write today for free book, tells all about stoves and ranges and the RICHMOND LINE that is rapidly replacing other stoves and ranges on the farm. Write and we'll tell you the name of the dealer who has them.
