

**You cannot do a carpenter-like job unless your tools are carpenter's tools**

Few carpenters will attempt to work with poor tools. That is one reason why they do workmanlike jobs. Every time you try to repair a fence or a shed with poor tools you are attempting more than most carpenters would undertake.

The tool a carpenter chooses is a good tool for you to buy. Most carpenters have used Disston Saws all their lives.

**DISSTON SAWS AND TOOLS**

Disston trowels, files, screw-drivers and other tools are all of the same Disston quality.

Send for free booklet "Disston Saws and Tools on the Farm." It tells you how to select, use and care for saws and other tools and how you can cut down your farm expenses by getting out your own timber with a Disston circular-saw. Ask your dealer for Disston Saws and Tools.

**IT WORKS LIKE A HOE**

The Fowler has no long teeth to destroy crop roots. It scalps the surface like a hoe, and makes a perfect dust mulch. With one man you can cover eight or more acres a day.

The Fowler Cultivator establishes a new principle of cultivation -- it works above crop roots and makes such a perfect mulch that those who use it don't care whether it rains or not. Talk about prize acres! You can make every acre a prize acre, just as good an acre as if you hoed it by hand and also cut your usual labor cost in half.

We guarantee that if the Fowler and the principle it teaches do not increase your crop yield your money will be refunded. Get our book. It tells the whole story. It's free. Send a postal today.

200,000 Farmers need better planters and Distributors

**Save Seed, Labor and Fertilizer**

Get better stands and get more seed from guano. Why not You?

**YOU** can get a Cole Planter to plant every crop just like YOU want it planted, and a Cole Distributor that will do the work the way you want it done.

**Cole Cotton Planters Nos. 1, 2, 3 and 4** are accurate, durable and easy to run. They save seed and get a good stand. They sow the seed in a straight line so that the cotton is cheaper to chop and cheaper to cultivate. The depth of planting and quantity of seed can be easily adjusted.

**Cole Combination Planters Nos. 5, 6, 7 and 8** are acknowledged by all to be the best combination planters ever made. They plant to perfection Cotton, Corn, Peas and other seeds and are made with or without a fertilizer attachment. These popular and reliable combination planters will give you good satisfaction and long service.

**Cole Plain View Planters** beat the world for planting Corn, Peanuts, Velvet Beans, Peas and all known similar seed. No Brush--no Cut-Off. Automatic Gravity seed selection. Can't injure the tenderest seed. Seed are selected and dropped in plain sight. Nothing like them and nothing equal to them.

**Cole Double Plain View Planters**, plant Corn and Velvet Beans or any other two crops at the same time in the same row, either hill for hill, or one bean to two, or one to every three hills of corn. Also fine for one crop at a time. Bonanza for growers of Velvet Beans and Peanuts.

**Cole Distributors** handle all kinds of fertilizer and are made either with opening plows or covering plows to suit every need. Most complete line of high-grade reliable Distributors in the world. Be sure to get the genuine Cole.

As you plant, so shall you gather. Therefore, use the Cole for best results. Thousands of farmers say that it pays to throw away other kinds and buy the Cole. Write us for full description, testimonials and name of dealer nearest to you. Ask your home merchant to show you the labor-saving and crop-making Cole Machines. Do not let anyone put off on you any imitation or substitute. Look for our name, it is a guarantee of quality and service.

**The Final Answer**

To the Tractor Fuel Question

**WE** believe that a farmer who buys a kerosene tractor costing hundreds of dollars is entitled to get what he pays for.

We know that Titan tractors are real kerosene tractors. When you buy a Titan tractor you are safe. You have the written guarantee of a responsible Company that your tractor will do good serviceable work, using common coal oil as fuel at all loads. That is the final answer to the tractor fuel question.

Titan tractors are now built in three sizes, 10-20-H. P., the 3-plow outfit; 15-30-H. P., for 4 and 5 plows; and 30-60-H. P. for the heaviest work of the largest farms. All operate on kerosene.

The 10-20-H. P. size is a two-speed tractor, 1.85 and 2.50 miles per hour, with a smooth running twin-cylinder engine, slow speed, mechanically oiled, starting and running on magneto. It can be used for any field work you would expect nine or ten horses to do, and it will run any machine that takes up to 20-H. P. at the belt.

If you place your order soon you can have a guaranteed Titan tractor for the heavy spring work. Drop us a line so we can send you full information at once. Don't wait. Write now.
