William Randolph Hearst is receiving many accessions to his following as a candidate for mayor of Greater New York from the ranks of those who are discontented with the tickets and promises of the regular parties.

The raising of a banner with a red flag over Hearst's name and an American flag over McClellan's name near the City Hall in New York almost caused a riot, and the police reserve were called out to disperse the crowd.

If he returns to the section, George Washington Murray, a negro, once a member of Congress from South Carolina, will have to spend the next three years in cracking rocks and road-building as a member of the chain-gang of Sumter County, though he is the largest landowner in that county. Forgery is his crime.

THE VALUE OF GOOD TOOLS.

Tool Buying No Longer a Matter of Luck.

(Advertisement.)

Pretty nearly everybody knows how valuable tools are. In a general way they know the part tools play in building the home, in the making of furniture and doing hundreds of other useful things. In fact, the home that has not constant use for a saw or an axe or a tool of some sort hardly exists.

Notwithstanding the general knowledge of the utility of tools, few people seem to realize what a lot of money can be saved by having a tool chest in the home. Shelves can be put in cupboards, furniture that is damaged can be fixed and lots of improvements can be made. The best of it all is, very little experience is needed to give anyone a good working knowledge of how to use tools.

Ordinarily, buying tools is largely a matter of guesswork. If you want an axe you go to the nearest hardware store and ask for "an axe." If it turns out to be a good axe you are lucky. If use proves it to be a poor one you have to make out with it or buy another. In other words, it is all a matter of luck.

However, it is very simple for anyone—even a child—to buy a tool of any kind and be positive that it will be the finest tool that can be made, and that it will give satisfaction in every respect. You say "How?" By simply asking for the Keen Kutter brand. For the name Keen Kutter covers a complete line of tools, this brand being the only complete line of tools to receive the Grand Prize at the St. Louis Exposition.

Keen Kutter tools have been the standard of America for thirty-six years, and are without doubt the finest tools it is possible to produce. Every Keen Kutter tool is made under the mark and motto that "The recollection of quality remains long

after the price is forgotten." Yet Keen Kutter tools cost but a trifle more at first than inferior kinds, and in the long run are much more economical.

If your dealer does not keep Keen Kutter tools, write the Simmons Hardware Co., St. Louis, Mo., or 298 Broadway, New York, who will see that you are supplied.
