**READ OUR OFFER:**

We propose to the cotton farmers of North Carolina, to take the oil out of any seed they may send us, and return them the meal and hulls ground together, that they can use as a feed, or fertilizer, containing as it does over 5 per cent. ammonia, 2 per cent. potash, and 2 per cent. phosphoric acid. We will pay the freight on the seed, you paying the freight on the return "Compound."

The farmer who has the oil taken from his seed and gets back 1,400 pounds of "COMPOUND," and feeds it to his stock and uses the manure on his land, is better off in the end than to sell his seed at \$20 per ton.

One-half pound of "Universal Compound" and one-half pound of Corn Chops will fatten your pigs faster than twice that quantity of corn. If you are interested at all, in this proposition we shall be very glad to send you leaflets and full information. Write the

This is Demo-cratic low water mark in the Senate since the days of Reconstruction.

The extent of the criticism of Sen-ator Bailey and his oil company fees in his own State is somewhat indi-cated by thirty-five comments from other Texas papers which are printed in the Houston Chronicle. Of these thirty-five there are eighteen which are distinctly unfavorable to the Sen-ator, while only eight or nine can be called favorable. But since Bailey was nominated for re-election at the party primaries held last July, it will be difficult, if not impossible, for his critics to compass his defeat in the coming Legislature.
