Contrast a dried out, weather-worn strap from a harness ignorant of oil, with the soft, glove-like springy quality of leather oiled with

**EUREKA Harness Oil**

Think how much better the leather looks; how much easier it is for the horse; and how much longer it will wear. Nothing like "Eureka" Oil to make a harness soft and black. Ask your dealer.

**THE FOOS GASOLINE ENGINE**  
Made in Three Types--All Sizes.  
Stationary--Ready for Mounting--Portable.

Some of the mechanical features that place the FOOS in a class by itself and make it the most reliable gasoline engine on the market:

- (1) Both valves worked vertically and mechanically.
- (2) Plain cylinder head free from all mechanism.
- (3) Sensitive governor, permitting regulation of speed while engine is running.
- (4) Balance weights on crank arm in line with piston and cylinder and between main bearings (the most expensive but only proper way).
- (5) Wipe Spark which keeps itself clean and insures ignition of every charge taken into the cylinder.

Get a mechanic to compare the FOOS with the one which the "other man" tells you is "just as good" and let him decide for you.
