

**WESTERN HORSES AT AUCTION**

On Saturday, November 11, 1909, at 10 O'Clock A. M. at my farm, about six miles from Reidsville, N. C. I will sell at public auction, twenty-two head of Dakota bred Mares and Geldings. This is not a lot of ponies but a bunch of good-sized, sound well bred horses. Some of them broken to work or ride. Buy these horses at your own price, take them home and work them lightly the coming winter and they will take the place next summer of \$300 mules. A. L. French—whom Progressive Farmer read r. all know—uses nothing but these We tern horses for his farm work, and driving, and no teams in Rockingham county do more hard work. These horses are not in high flesh and will probably sell below their value; so be on hand sale day to pick up the bargains. H. H. WILLIAMSON, REIDSVILLE, N. C.

**SEED OATS** 3,000 bushels planted APPLER OATS and 4,000 bushels COOK'S IMPROVED COTTON SEED at \$1 per bushel These seed are grown, ginned and threshed on our own farm where nothing else is allowed to be planted or ginned. Full printed directions for fertilizing and drilling oats by the open furrow method sent with each shipment. VINEYARD FARM, Griffin, Ga.

ESTABLISHED 1880.

The largest yields of wheat have not been made with less than one bushel of seed per acre nor with more than about 1 1/2 bushels per acre.

**FARM DRAIN TILE**

**ROUND TILE**

Write for our free Pamphlet on Drainage. Gives all necessary information. Tells HOW to Drain and WHY. Use of drain tile increases value of land and crops at least 25 to 40 per cent. BECAUSE IT PREVENTS damage by excessive rains; prevents damage by stagnant water and souring of soil, and prevents soil from becoming baked and cloddy. It enables the farmer to work soil earlier in the spring; lessens risk of "freezing out;" lessens risk of surface washing. It lets the air in, makes the soil warmer, and enables the roots to go deeper. Consequently it is a help in dry weather as well as in wet weather. It is good for all kinds of lands and all kinds of seasons. It is no experiment. We make a SUPERIOR grade of drain tile at a reasonable price. WRITE for the pamphlet and let us quote prices.

Box 204 SHEMANTON, N.Y.

**BEST LAND ON EARTH FOR SALE**

**Rich, Virgin Soil**

That is the big advantage of farming in Arkansas and Eastern Texas. Your land there is not worn out by years of crop-growing. The soil doesn't need constant cultivation and fertilizing to make it produce. It grows bigger crops of almost everything than farms in older sections and yet fertile land can be had there now at from \$5 to \$25 per acre. Farmers there do not take years to pay for their land. Often a single season's crops pays the entire cost of the farm, for

**in Arkansas and East Texas**  
you not only get bigger yields and often more than one crop, but your income is not eaten up by long costly Winters. Stock can graze all year and never needs costly shelter, for the Winters are short and very mild. You get the highest prices for your products at near-by markets and your family has good schools and churches to go to. Is it any wonder that thousands of farmers are going down there to better themselves? Why don't you.

**COTTON BELT ROUTE**  
You will never know how big the opportunities really are until you investigate. Send for free copies of our books about Arkansas and Eastern Texas. Post yourself on conditions. Take advantage of the low fares offered twice each month by the Cotton Belt Route. Make a trip down there to look around. It will be a start on the road to prosperity. Write today—tomorrow you may forget.
