HOLSTEINS

Purebred Registered HOLSTEIN CATTLE

To the open minded farmer or dairyman, the results of actual comparative tests of Holsteins with other breeds are striking object lessons of economic investment. The ten largest records of Holstein cows average 1,007 pounds of butterfat and 25,897 pounds of milk in a year. A like number of cows of the nearest competitive breed produced 974 pounds of butterfat, and 18,120 pounds of milk. One good Holstein cow will produce as much as two ordinary cows at a saving in feed and care. There's big money in the big "Black and White" Holsteins.

SHORTHORNS

RAISE MORE BEEF

Mr. Farmer and Mr. Cattle Raiser—You will increase your beef output by using registered Short-horn Bulls. The Short-horn is the great improver.

Mr. Dairyman—Select your Bull from a Short-horn strain showing a milk tendency. The calves from him will sell readily and at higher prices and the milk flow will be maintained.

Use only Pure-bred Registered Bulls. We will help you secure them.
