

FISH FISH FISH

Drop us a card and we will put you on to something with which you can turn your neighbor "green with envy" by catching "dead loads" of them in streams where he has become disgusted trying to catch them the old fashioned way. It will tickle you to see it catch house and musk rats, and will soon clear your fishing place of terrapins and crawfish. It catches at all seasons, something no other tackle will do. **EUREKA FISH TRAP CO., Griffin, Georgia.**

Now Cheaper Power

OTTAWA 90-Day Trial Kerosene Gasoline ENGINES

WITH my Kerosene Engine you can get more power from a gallon of 12c Kerosene than you can from a gallon of 20 or 25 cent gasoline in any gasoline engine. No cranking, no batteries, easy to start, easy to operate. All Sizes and Styles, 1 1/2 H.P. to 22 H.P. **FREE BOOK** Before you arrange to try any engine, read my latest and finest 3-color book—makes you understand engines like you want to. Low prices, if you write today.

GEO. E. LONG, OTTAWA MANUFACTURING CO., 1096 King St., Ottawa, Kans.

OUR FARM NOTEBOOK

TIME for that picnic or fishing trip!

Be sure to get in abundant grazing crops for the fall pigs.

The wise farmer keeps his work planned ahead—saving something for a rainy day.

It is well to keep up the cultivation as long as one can kill weeds and save moisture.

a file to the field with you and "touch up" the dull spots occasionally.

The calves and colts should not be neglected, as winter will be hard on them if they go into it in thin flesh.

Seeds were scarce this year and will probably be still harder to get next year unless farmers save an abundance.

Take stock of your forage needs for the coming year and grow enough feed crops to meet them without pulling fodder.

WANTED: LETTERS FOR OUR COVER CROPS SPECIAL

SOIL-SAVING and soil-building are two jobs no Southern farmer can afford to ignore, because upon them depends our whole agricultural future. And in saving our soils and building them up to a higher state of productiveness, cover crops to keep our plant foods from washing and leaching away are almost absolutely necessary.

On July 27 we issue a "Cover Crops Special," in which we will deal particularly with such great crops as crimson and bur clovers, vetch, oats, rye and wheat and how they have been and are being used to save and build our soils. For this number we invite short, snappy experience letters from our readers. Remember, tell what you have actually done, and make your letter short—preferably not over 300 words. Good clear pictures of cover crops are also wanted and we will pay cash for them.

For the best letter received we offer \$5, \$3 for the second best, \$2 for the third best, and \$1 each for the ten next best.

All letters must reach us by Saturday, July 13.

Tent caterpillars may be put out of business by singeing with a torch of rags soaked in kerosene.

Cultivator hoes may be kept in good shape—polished and free from rust—by constant use!

Why tolerate the dull hoe? Take

Dispose of the roosters as soon as they are of marketable size, unless they are to be sold for breeding stock.

Every weed is an enemy. Fight them in pastures, fence corners, and on roadsides as well as in cultivated fields.

Fertilizers for fall use should be ordered early. This is the only safe way to make sure of getting them before using time.

Have you completed plans for that silo? Better have things ready to begin work when the cultivating season is over.

If you are going to put in a fall crop of Irish potatoes, Lookout Mountain, Sir Walter Raleigh, Hoosier, or Green Mountain are good varieties.

MARKET AND CROP NEWS

CORN HARVESTER

Self Gathering for cutting Corn, Cane and Kaffir Corn. Cuts and throws in piles on harvester. Man and horse cuts and shocks equal with fodder binder. The only self gathering corn harvester on the market, that is giving universal satisfaction. — Dexter L. Woodward, Sandy Creek, N. Y., writes: "3 years ago I purchased your Corn Harvester. Would not take 4 times the price of the machine if I could not get another one." Clarence F. Huggins, Spersmore, Okla.: "Works 5 times better than I expected. Saved \$40 in labor this fall." Roy Apple, Farmerville, Ohio: "I have used a corn shucker, corn binder and 2-rowed machines, but your machine beats them all and takes less time of any machine I have ever used." John F. Haag, Mayfield, Oklahoma: "Your harvester gave good satisfaction while using filling our Silos." K. F. Ruegmits, Otis, Colo.: "Just received a letter from my father saying he received the corn binder and he is cutting corn and cane now. Says it works fine and that I can sell lots of them next year." Write for free catalog showing picture of harvester at work and testimonials. **PROCESS MFG. CO., SALINA, KANSAS.**
