Charleston, S. C.

Plant now our early bearing bred-up budded and grafted papershell pecan trees for the safest, surest, most profitable and permanent investment you can make. Trees of our bred-up stock have cleared over \$30 each for our customers the 8th year set out. Thousands of our trees begin to bear the second and third years set out for our customers all over the South. \$1,000 per acre would not begin to buy our groves. Many acres in pecans this year have cleared over \$400 per acre in clear profit. The trees are still there and not to be replanted during a lifetime but will get better and more profitable each year as they get older and as you get older and need their help and support more. All our bred-up pecan trees are absolutely guaranteed to be true to variety, strong, thrifty, vigorous, well dug, well packed and to reach you in excellent condition. New catalog and price list sent free. Write today.

Satsumas Sneer at Cold

They are far hardier than other oranges, and if frost hits the groves, you'll be mighty glad you planted Satsuma. We have only one variety, the Owari. It produces good sized fruit consistently, as the strain is pure. One of the best varieties in the market and brings the highest prices. Our catalog fully describes and illustrates it.
