WE'LL MEET YOU AT THE FAIR

OF COURSE you will be mingling with crowds like this when the fair comes off, so let's get everything ready to go. Plant the oats and rye, the crimson clover, and the hog-grazing crops right away. Get some extra labor to pick out the cotton, and get the

corn and hay housed. The better quality of the products, if harvested at the right time, will pay for the extra labor, and you can take in the fair, look after your exhibits, and visit with your neighbors with an easy mind.
