

## Try This Stump Puller FREE 30 Days

**Read These Letters**

My old stump land now pays me \$125 per acre in cotton—and my corn is great, many ears 11 inches around. My One Man Kirstin Outfit pulled 33 inch red pine stumps. A 30 x 40 ft. store house to the astonishment of all present.—H. J. Thompson, Appleton, Ark.

Have tried the One Man Kirstin Stump Puller and it works fine. My little boy 10 years old can pull a good size tree with it. J. G. Fyle, Aberdeen, Ark.

My pine stumps are sold in the ground, and average about one and a half to four feet across the top, but the LITTLE KIRSTIN takes them all out fine.—J. S. Jones, Washburn, Wis.

## All is Grist to the Williams

**CONVERT** everything that stock can eat to "real meal." Grain, stalks, hay, peavines, velvet beans, kafir corn heads, in fact almost anything that grows, can be made into good stock feed. Get more feed and more digestible feed by using the Williams Mill.

The exclusive Williams Patented grinding system is different. Hinged tool-steel hammers, revolve against heavy in-

terchangeable breaker plates and screens. These break, cut and grind any grindable substance into any desired grade or meal or fine flour. Some use it for grinding clean shells, roots, and the like. Can be adjusted in three minutes. No wrench needed.

No buhrs, rollers or knives. Hammers are reversible. Will outlast several sets of buhrs. Shaft has ball bearings. Light running. Has double the capacity of any other type of mill—on equal power.

Capacities 600 to 12,000 pounds per hr. Power: 6 h.p. gasoline engine up. With or without wind-sacker and self-feeder.

## SUBSCRIPTION MANAGER'S COLUMN

### Coöperation

**T**he Progressive Farmer advocates coöperation among the farmers because coöperation accomplishes big things.

Tell the people you call on how The Progressive Farmer coöperates with them. Here's the story: Two hundred thousand subscribers pay us \$1 each. This enables us to pay our large staff of editors \$40,000 a year, so as to cover every kind of farm work from breaking the ground to marketing the crop, also our Woman's Department, and to buy \$100,000 worth of print paper a year; to maintain a large printing plant and give our readers the benefit of it all at only 2c a week, \$1 a year.

In other words, through coöperation, we give them what they couldn't buy singly for many thousand dollars. Surely coöperating with The Progressive Farmer pays.

### This Means You!

**N**O MAN knows The Progressive Farmer—the inspiration and real service it gives to the man on the farm—like the man who takes it from his mail box every Saturday. We have already a small army of local representatives who along with their regular farm work take time to speak a good word for their favorite farm paper and get their neighbors to subscribe.

It is our desire to enlist the active support of our readers in each community, the men of whom it is said "You can tell by their farms that they read The Progressive Farmer," and this is our invitation and request that you coöperate with us in making your neighborhood a Progressive Farmer reading neighborhood.

Every other subscriber in your neighborhood is a reason why the fellow who doesn't now get The Progressive Farmer should give you his subscription. A sample copy or a back number containing an article of interest to your neighbor prospect, a few words of solicitation, and the job is done.

Let us have your acceptance of this invitation—and while about it send a new subscription to cinch the contract, and let us know whether you wish to earn merchandise rewards or cash commissions.

Today is a good time to write me.

### All Right—We Will

**"YOU** should give us young people a page. We haven't a page. Get your heart on our side and give us a page. Now come on and give us a Young People's Page."

We recently received the above from Aren Burgess and were happy to be able to write him that our plans are all made for just the dandiest kind of a Young People's Page and that same will start very soon now. So, boys and girls, don't think that The Progressive Farmer forgets you for a minute and be on the lookout for the Young People's Page.

### R. Facts Says—

**"SOME** men manage to dodge enough work to keep a dozen people busy."

### THE SHINING OF MARKS

Brack: I heard of a German who cleaned up a fortune in two months.  
Stock: I'll bet he did not get it very clean in that length of time.

## DEPENDABILITY

That's what you want above all else in a running water supply system. A system that requires tinkering is an annoyance. One that fails at critical times is a keen disappointment. When you put in your water system, put in one that will be dependable. Such a water system is the

## — Home Water System —

Leader in Fame as  
Well as in Name.

Since 1903 LEADER has been supplying running water to the finest country homes, farms, and estates in the United States. We know all water systems. We sell LEADER because it is the best. LEADER is not a piece-meal job. In fact, it is the only complete unit of pump and tank manufactured and guaranteed by the same manufacturer.

LEADER comes in stock sizes to fit every requirement, large or small. You might be satisfied with a less perfect system for a short time, but if you want to be right, first and last, choose LEADER. It costs nothing to investigate. If there is no Leader dealer near you, write us. Full stocks at Winston-Salem, Atlanta and Richmond.
