

Motor Secrets That Quickly Put Me On Easy Street

By O. H. JUSTUS.

NOT so very long ago, I was in the rut with millions of other wage earners. Today I'm head of a prosperous business and on "Easy Street."

I'm not boasting. I merely want to let other men know what they can do—if they will! It was not luck or brilliance that put me where I am. I got there by simply using the common sense every man has.

First, I selected the business offering the biggest opportunities, present and future—auto and tractor repair. But I found that I could never get anywhere by "picking up" the trade—that to make real money I must know the mechanical secrets of motors—secrets that separate the \$2-a-day laborer from the \$40 to \$100

O. H. Justus and his big agency and repair shops at Parkersburg, W. Va.

a week of the trained mechanic. So, when I read one of Henry Rahe's advertisements, which said he could teach me these secrets in a few weeks in one of his shop-schools. I wrote to him for the proof. And that letter started me toward "Easy Street."

A few weeks later I was a Rahe-graduate—master of the auto and tractor repair business—a free man with an assured future. From then on I never wanted for work an hour, and I was soon able to open my own shop, which ALWAYS has had from a week's to a month's work ahead of it.

If you want to free yourself from drudgery, do interesting work at big pay or get into business for yourself, write to Henry Rahe today.

I Want Men! I'll Pay Your Fare To Chicago, Cincinnati or Kansas City

I want to start 500 more men toward "Easy Street" at once, just like I started Justus. YOU can be one of them, regardless of your age and education. You can get to my nearest school FREE, no matter where you live. If you want to get started QUICKLY, jump on a train for Rahe school nearest your home and I'll refund your fare the minute you enroll. Be sure to go to my nearest school to get advantage of this offer.

I've started 48,000 other men to "Easy Street." I can and WILL start YOU if you'll just say you want to go. DO IT NOW. HENRY J. RAHE.

Master Instructors! Wonderful Shops!

Every instructor in my three schools is a MASTER of his business—trained by me and always under my supervision. Under these experts, in my wonderful shop-schools with everything needed for your training, you, too, can quickly become a MASTER of this big-money business. No "book learning" necessary. Just a few weeks' work with tools on actual motors and cars and you'll be ready to open your own shop or earn a salary of \$40 to \$100 a week.

Special Money-Saving Price. I've always given the BEST auto and tractor course for the lowest price

quoted by any reliable school. Now, with schools in three locations, I am able to cut my tuition still lower—and pay your railroad fare besides. Write for my new low rates.

7-Day Guarantee

Try a Rahe School a week. Then, if not convinced that I can make you a competent mechanic, withdraw and the week will cost you NOTHING. This EXCLUSIVE Rahe guarantee is your INSURANCE of satisfaction.

There are now TEN MILLION cars in the U. S. and THREE BILLION DOLLARS will be invested in new ones this year. THOUSANDS of new garages and Rahe-trained motor mechanics will be needed. Here is YOUR big opportunity. Get out of the rut! Get a pleasant job at REAL MONEY or open your own garage and be your own boss. Start early—There's big money waiting for you NOW. Just write me a card will do—for my big free illustrated book and PROOF that the EASY Rahe training will quickly put YOU on "Easy Street."

DO IT TODAY! Yours for quick success, Henry J. Rahe

Tested by time

Every feature of a Planet Jr. garden and plantation implement has been designed by practical farmers and worked out in years of actual use. For Southern conditions Planet Jr. No. 4-D horse hoe has proved an extremely satisfactory, economical tool. It is stiff and rigid in the row, works clean and close, and is a light, quick, handy tool for cotton, corn, potatoes, beans and other row crops. Equipment includes shovels and hillers for working to or from the row.

For market growing, home gardening, for all plantation work, Planet Jr. seeders, wheel hoes, one-horse and riding cul-

tivators are famed the world over. Write for complete Planet Jr. illustrated catalog.

OUR YOUNG PEOPLE

Address Letters to "The Young People's Department" The Progressive Farmer

Be Sure to Enroll in Club Work

DEAR Boys and Girls:— There are two things I wish to urge every Progressive Farmer boy and girl to do in 1922:

First, if you are going to high school I hope you will take the work in vocational education. I shall have more to say about this later.

Second, I hope every boy and girl who reads this page and who is within the age limit for club work will join one or more clubs this year. You should begin right now to get ready to win prizes next fall. If your teacher cannot enroll you in the clubs you like, get into touch with your county agent, write to the state club agent at your state agricultural college and tell him your wish. I shall be glad to answer your questions.

II.

If you tried club work last year and the drouth ruined your crop or your pig died, or some other misfortune happened, don't get discouraged. Try again. Have the same kind of spirit shown in this manly letter from William Ruffedge, an eight-year-old boy of Milton, Fla.:

"I joined the corn club last year and Papa gave me an acre of land. I did not come out very well, and so this year I am going to try again, as I will be older and stronger and better able to manage it. Papa says I can join the pig club also. I have a fine sow and six pigs. I am going to sell the pigs and save the money to pay my way through college."

A boy with such a spirit is sure to be a prize-winner before he stops. When a boy or girl is not discouraged by one failure but instead is ready to tackle a job twice as big, he or she is sure to succeed.

III.

I musn't forget to give you the answer to the puzzle we had from Claud Moore last week. He asked: "Do you know how you could draw and measure 5 gallons of molasses from a barrel when the only measures you have are a 4-gallon jug and a 3-gallon jug?" And here is the answer he sends:

"First, fill the 4-gallon jug and then fill the 3-gallon jug out of the 4-gallon jug, leaving 1 gallon in the big jug. Then pour the molasses in the 3-gallon jug back into the barrel and pour the 1 gallon from the big jug into the 3-gallon jug. Then fill the 4-gallon jug again, and you have 4 gallons in that jug and 1 gallon in the 3-gallon jug. Therefore you have 5 gallons of molasses."

I am always glad to have our boys and girls send problems, puzzles, riddles, games, etc., for our page, and hope more of you will follow the examples set by Claud Moore of Tennessee and Paul Dresser of Texas in this respect. Send on the best ones you know! We want to make 1922 a great year both for having fun and for learning things and doing things. UNCLE P. F.

Every Girl Join a Sewing Club

(Girls' \$1 Prize Letter)

I HAVE been a club member two years and I like club work fine. In 1920 I joined the peanut club and planted one-tenth of an acre.

In 1921 our home demonstration agent came to the schoolhouse and organized the sewing club in February. We held our meetings twice a month at the schoolhouse until school was out; then once a month at the members' homes. We have 25 members in our club, and we all have made several pretty garments, making two garments a month. Our home demonstration agent says that our club is the best and smartest club in the county, which is encouraging to the members and makes us work better.

We club members had an exhibit of our work at the schoolhouse on commencement night. By being a member of the sewing club, you can learn to make anything, such as fancy stitches, cutting and fitting, etc. I think every girl should belong to a good sewing club MYRTLE VAUGHT.

Editor's Note.—I suspect several thousand of our Progressive Farmer girls will say when they read this, "I'd like to belong to a sewing club like Myrtle's." Well, if so, why not tell your mother and your teacher and get into the work?

A Pig Club Member's Nine Remarks

(Boys' \$1 Prize Letter)

MY NAME is Henry Dagley, Jr. This is my first year as a pig club member. We moved out to the country February 22, 1921, and after talking with my father we decided that to know how to raise good hogs at the lowest cost per pound would be worth a lot to me.

2. My father gave me \$12.50 to pay for my pig. He weighed 40 pounds and was just three months old when I bought him, June 7.

3. I selected the Duroc-Jersey because my father told me he believed the pure-bred Durocs would yield the greatest returns and greatest per cent of profit may be made from them after paying for the pig and the feed than any other breed that might be selected.

4. By means of grazing crops, pigs can be produced at a much less cost than when fed on what Daddy calls "concentrates"—corn, beans, peas, etc.—and when properly cared for, the pigs will soon be ready for market.

5. October 9, 1921, my pig weighed 234 pounds, which gave him an average gain of 2 and 13-100 pounds per day, beginning June 7, 1921.

6. I fed my pig both morning and evening—that is, before I went to school and after returning from school—which took me only five minutes each time, and my brother gave him buttermilk at the noon hour, also about 3/4 pound of shelled corn.

7. I did not spend very much time with my pig, but what time I did spend with him I spent it rubbing him, which made him gentle, and he soon learned his name, Rastus.

8. At the pig show, given at the Hamilton County Fair, I learned that it meant a great deal to me to be a member of the boys' pig club, and received \$17 in cash prizes.

9. I also learned that well-bred pigs make better hogs and will yield more to the producer than the scrub.

HENRY DAGLEY, Jr.

GIVEN 42 PIECE INITIAL EMBLEM DINNER SET

Rose border pattern, with your initial or lodge emblem. Given to you for telling your friends about KIBLER'S ALL 'ROUND OIL.

The perfect furniture polish and light lubricating oil. Truly named the oil of a thousand uses. To get this beautiful set simply order and sell 30 containers at 50c each. Return the \$15.00 and the dinner set is yours.

HENRY DAGLEY, JR. AND RASTUS, HIS PRIZE-WINNING PIG (Henry is 12 years old and weighs 90 pounds. Rastus is 7 months old and weighs 300 pounds. Henry and Rastus are accustomed to having a social chat every Sunday morning while Rastus is having breakfast. Judging from the seriousness of Rastus' looks, Henry had evidently suggested to him that it is now hog-killing time.)

Remember, you must mention The Progressive Farmer when you write an advertiser, or our guarantee does not protect you.

\$1,000 PRIZE CONTEST—To introduce a New Tomato worth millions, \$1,000 will be paid for Best Sets of words formed from the letters comprising its name. Send 10 cents for trial package, catalog, and full particulars. I. F. TILLINGHAST, R-20, Santa Rosa, California.
