

This Soil Devil Fish Is Stealing Your Money

Under the sea lives the Devil Fish, reaching out with tentacles, devouring everything within reach.

On your farm are other Devil Fishes—Stumps—occupying valuable land, feeding off virgin soil, robbing you of crop profits, making a "no-man's land" of your property.

Pull them out! Get the money under these stumps that rightfully belongs to you. Turn idle stump land into rich crop land this winter. Have it ready for your plow next spring.

Here's the cheap, quick, easy way to pull stumps. The biggest, toughest stumps—tap roots and all—can be pulled in five minutes or less with a Hercules all-steel triple-power stump puller. Clears the land as clean as a whistle.

It has added hundreds upon hundreds of thousands of dollars to incomes for owners from coast to coast. It has swept dollars into pockets of owners everywhere.

Clear your own property and then make extra money clearing your neighbor's land.

Hercules One-Man Hand-Power Machine

The fastest-working hand-power puller made. Four machines in one—single, double, triple and quadruple power, drum type. Equals the combined pulling power of one inch and five-eighths inch best steel cable.

Easy to operate. You stand in one position all the time—the best, most comfortable position you can choose. Equipped with compound lever and three speeds. The low and medium speeds are first used to start the stump, the high speed to rip it out and finish the job. A hand lever enables you to roll up the slack cable easy and quick.

It is strictly a one-man machine, both in operation and in moving. To move, you simply push it along as you would a wheelbarrow. There is no heavy lifting or straining. Write for our special folder on this greatest of all one-man stump pullers.
