**KEEP THIS COPY FOR QUICK REFERENCE**

**TO THE Farm Women of the South:—**

This is your "Reference Special." Except for the editorial page and the page facing it, the men editors are stepping aside and giving the entire issue to Mrs. Hutt who deserves all the credit for this store of useful and instructive information. The men folks will find only one lonesome page prepared primarily for them.

Mrs. Hutt got up this paper especially for our women readers. But there are a good many things in it that the men should read. By the way, see to it that hubby reads the editorial about farm home conveniences, waterworks, lights, etc. Don't let him put you off with, "I haven't got time." Use this "Reference Special" to help get some of the things you need and should have.

We feel sure you will find this paper a big help to you. Save it. Keep it where you can find it this spring and summer when canning time comes, next fall hog killing and every day in the year for the many vexatious household problems as they arise.
