Nursing Mothers ... Female Troubles. HOPEWELL, N. C., Sept. 4. 1888.

Mrs. Joe Person-Madam-Four years ago I took violent cold, which resulted in Quinsy, and after suffering almost death, got relieved; but alas! the disease was in my system, and finally culminated in a womb trouble which caused me great suffering that winter and spring. I could scarcely drag around, and was often so miserable I would pray to die. I begged my husband to let me try your Remedy. He bought me one box, and it has made a perfect cure of me. It has also cured me of Indigestion, and furthermore, after the birth of five of my children I would very nearly lose the use of my arms, and suffered untold agony with Rheumatism and Neuralgia. I have not been troubled with either with my last two children. I keep a bottle of the Remedy in the house all the time. My husband says it is better than a doctor. With all my other children I had great trouble with them during dentition. I can truthfully say, never did children cut teeth with so much ease and as little trouble as my last two -The Durham Globe says: Col. Webb's have. Whenever I see any sign of their teething I commence taking the Remedy. It keeps my stomach and bowels regular and in a healthy condition, and seems to have the same effect on theirs. It is certainly the best Tonic I ever tried. A few doses will brace me up and make me feel like a new person. Yes, publish any part of my letter that will help your cause in -Prof. Penick informs us by letter the least. I hate publicity, but if my experience with the Remedy will be the means of others trying it, I am willing for the public to know the good it has done me and mine. May God bless you!
