Our Public Roads.

It is a well known fact that Granville is far behind a large number of counties as to public roads. For years it has been said we had the worst roads of any county in the State. We are glad to see that steps are daily being taken to relieve our county of that stigma, and the man who has shouldered such an enormous burden is A. W. Graham, Esq. His shoulders are broad and he is determined to stand up under it if the people will only prop him up sufficiently with enough silver dollars to buy a rock crusher. When he has worked a bad piece of road he can at once macadamize it, and the people will have first-class roads travel over.

We had the pleasure of accompanying Mr. Graham a few days since over that portion of the Oak Hill road that is receiving his attention, and found that great improvements had been made in the road bed by grading and ditching, besides replacing the old bridges that were always out of fix with large terra cotta pipe put down in such a manner as to make them perfectly solid. You could not detect any perceptible difference when you rode over them as they were so nicely put down. Where a ditch was large two of these pipes were used instead of one.

In order that more grading can be done at less expense Mr. Graham has just purchased a 2 horse scraper on wheels which will be put in operation as soon as it arrives. The next important thing Mr. Graham needs is a rock crusher, and we do not think that our citizens could invest in anything that would bring more profit and greater benefits to the people of Oxford and Granville county than a judicious investment in a Rock Crusher.

It has been fully demonstrated that any town that has good roads leading to it is prosperous, and the farmers do not have to ruin their teams and break up their wagons to market their crops. Thus good roads confer manifold blessings on every class of the community, and on no class more than the farmers who haul their tobacco to market. We suppose the town and county commissioners could with propriety unite in an investment of this kind. What do you think about it, gentlemen?

Commendable Moyo.

We are gratified that the Town Commissioners are ridding our streets of the swarm of colored wenchies that take possession of our thoroughfares as soon as it is dark. The new law went into effect Saturday night and now our ladies and gentlemen can walk the streets without being forced to hear all kinds of vile language.

Another set of hard cases, which are white, were hauled up before Mayor Smith, Saturday evening and fined for disturbing the peace and quiet of the good colored citizens of the Camtown neighborhood. The little racket these women indulged in swelled the town treasury \$96.

A Graceful Reply.

We thank Brother Manning for his characteristic reply to our article last week. His kindly words for Oxford expressed in his reply shows that his soul is not bound up in any "pent up Utica," and although we did with hurried pencil say something about his being a "little jealous," we retract even the slightest insinuation of jealousy on his part.

No Brother Manning in all seriousness and candor we gladly acquit you of even the slightest jealousy, and if possible will read your Gold Leaf ideas with more pleasure than ever. Your paper is a credit to yourself, and the go-ahead and progressive town of Henderson in whose prosperity we rejoice.

Don't read! Don't think! Don't believe! Now, are you better? You women who think that patent medicines are a humbug, and Dr. Pierce's Favorite Prescription the biggest humbug of the whole (because it's best known of all)—does your lack of faith cure come?

Where proof's so easy, can you afford suspicion always comes more easily than confidence. But doubt—little faith—never made a sick woman well—and the "Favorite Prescription" has cured thousands of delicate, weak women, which makes us think that our "Prescription" is better than your "don't believe." We're both honest. Let us come together. You try Dr. Pierce's Favorite Prescription. If it doesn't do as represented, you get your money again.

Oxford Female Seminary.

We champion the patronage of home industries and institutions, and in this connection would call the attention of the people of this section to the Oxford Female Seminary as an educational institution of unsurpassed advantages, now under the able administration of Prof. N. Penick, a gentleman of the most evincing intellectual attainments and social polish. The organization of every department of the school is equal to that of any in the country, and is presided over by a corps of ladies of much reputed fitness in every respect for their duties as teachers.

Education is a subject that is engaging the attention of all people and of whatever class, the advantages of which are so great in our country, that it has become a necessity to those who wish to enter with success the competitions of life. Here is an institute at which for a moderate cost your daughter can acquire those advantages which make her an ornament to society and prepare them for the successful administration of any and all duties incumbent upon them.

A Correction.

Mr. H. W. Kronheimer, Editor of Day: In a card of mine in the PUBLIC LEDGER of Aug. 22, there is an error. How it occurred I do not know. It may be my fault or the printer, but I hasten to correct it. I am reported as saying "delinquent poll tax payer." I intended to say delinquent poll tax lister." The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at J. G. Hall's Drug Store. Regular sizes 50c. and \$1.00

A Big Pic-Nic.

A correspondent from Huntsboro says, the people of Salem and Dabney Alliance, together with other Alliances, speak of consolidating and giving a grand picnic at Dabney about the 26th of September. It will be held in the interest of the Farmers' Alliance and the Democratic party. If these plans are carried out Salem will choose the two favorite sons of our own county, Congressman A. H. A. Williams and Judge Robt W. Winston to address the large crowd on that day. The editor of the PUBLIC LEDGER will not be slighted.

Hon. C. F. Crews, of Salem Alliance, will be expected to make some remarks, or at least to introduce some of our Oxford speakers. Our friends Oscar Yancy, Buck Crews and the writer will be on hand; among other duties we will have to perform the most important to us will be to enjoy the sumptuous—whatever is spread on the table.

I finally bought a bottle of Ayer's Hair Vigor, and after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Minnely, Sharon, Gro. & Dry.

FIRE PROOF ROOFING.

The most important thing about a house is the roof. If it is not in order you cannot sell the house, nor rent it, nor live in it, nor get anyone to live in it free.

There are all kinds of so-called roofs, but most of them are delusions. When they ought to keep out snow and rain they don't; they just leak and make life wretched for you, while your property is being ruined.

A roofing that will stay where it is applied, and will do yeoman's service while there, is made of Rubber and other materials by the Ind. Paint and Rolling Co. of N. Y. City. It is a handsome-looking covering and more durable than any other, while it is light and perfectly tight. Any man who was as tight as one of these roofs would never get sober.

Rubber Roofing is adapted for flat or steep surface, or may be laid over old shingles, and can be applied by anybody on house, barn, shed, etc., as the materials are ready for use.

It is as water-proof as an iron top's stomach, its fire-proofness is truly heroic, and it will last like a cake of cast-iron soap, yet the price is lower than for roofs which don't look so well nor last so long, nor keep out the water as well. Write for Book circular or full particulars to 42 West Broadway, N. Y. City. (Send five if you mention PUBLIC LEDGER, and state size of roof.)

Dr. A. Trent Clarke, of South Boston, Va. has something to say. Read it!

I have used your vegetable preparation, NOLANDINE, and find it a valuable agent in the treatment of functional diseases of the liver. Its action on that organ and all secreting glands is equal to that of calomel, and, to my mind, the only yet discovered substitute for this time-honored remedy. I consumed thermost, entirely free from constitutional effects, too often observed from the use of mercurials. In many cases, where mercurials have been habitually administered, I have witnessed the beneficial results of NOLANDINE in eliminating and modifying the most distressing symptoms. I will add, in regard to your Fever and Ague Preparation, that I prescribed it to my mother, who had been suffering from chills and fever for twelve months. She had taken quinine until it had ceased to have any effect on her. One-half bottle of NOLANDINE relieved her entirely of the chills and restored her to good health. I cheerfully recommend a trial of NOLANDINE to the profession, believing that it will stand their test. Very truly yours, A. TRENT CLARKE, M. D. Malvern, Md.

OFFICE CHESEBROUGH AND OREGON RAILWAY CO., Richmond, Va., March 1, 1890. I lived on lower James river for eight years, in the malarial district. My system was thoroughly cleared with this deadly poison. I exhausted the usually prescribed and domestic remedies without any benefit. I was induced to try JOHNSTON'S VEGETABLE NOLANDINE. Before using it, my liver was aroused from its long torpor, and am now enjoying the best of health. My wife and children derived the same benefits from NOLANDINE. J. A. WYATT.

Richmond, Va., May 1890. I can cheerfully recommend JOHNSTON'S VEGETABLE NOLANDINE to any one suffering from liver or kidney complaints and bilious derangement of the system. Its prompt and permanent action in my case affords a pleasant recommendation to others similarly affected. CHARLES P. SELDEN, Hardware Merchant, formerly with Singer Sewing Machine Co.
