It is just possible that the alleged failure of the peanut crop is the first move in an attempt to corner the market. The corner always has been very conspicuous in the peanut industry.

Hon. Roswell P. Flower, chairman of the Democratic congressional committee, says the committee is short of cash. He hasn't got the protected lords and barons to furnish the fat like the other fellows.

As long as the Republican majority is permitted to throw Democrats out of the House it is satisfied. But when the Democrats choose to go out of their own accord the other side kicks. So do the Democrats.

Don't despise scraps, they come high sometimes. The other day the U.S. Senate authorized the Senate librarian to pay \$30,000 for a collection of eighty-eight scrap books, containing clippings relating to the war, at the rate of \$340 a volume.

GETTING THEIR EYES OPEN.

The farmers have at last been rous ed from a deep unconscious slumber to see their awful condition. The farmers for a number of years have been going down hill and falling into every trap that any Smart Alex might set for his weary feet. From the signs of the times, the farmers' sun is be-

ginning torise and we hope it may hold out to guide him to that power which he so rightly deserves. The farmers are organizing Alliances all through every section and we hope the good work may go on until there shall not be a worthy farmer in this land but what shall belong to the Alliance. Then we shall see peace and prosperity rule this dear old country of ours. When the people who are supporting all of Adam's race shall have a controlling voice in all of the conventions to say who shall be our law makers and partly as to what our laws shall be, then this land will be almost a garden of Eden, and all such things

as trusts and monopolies will be something of the past. The farmers are not opposed to any man following an honest occupation,

for it takes all sorts to make a world. But they do oppose and will always Robinson, of Kansas, as the leader oppose any set of people who are working an underground railroad to take advantage of the farmers. It is well known that the farmers as a class of people, are not as smart and as quick to see tricks as some classes who, many of them, burn the mid-Hon. boundless resources of our great country is in the fact that with a Congress that has strained the business of the country to the utmost; that has wasted the surplus; that has made the first Treasury deficit since the war, and that has shamed the nation by lawlessness in the temple of our laws, there is no panic; no profound business distrust and scarcely a shade of paralysis in the varied business circles of the country, outside of purely speculative channels.

THE SCHEME OF THE ALABAMA FARMER.

Col. Livingston, the Farmers' Alliance leader, of Georgia, opposes the gigantic warehouse scheme of the Alabama farmers, so that advances from Liverpool could be secured. It has been reported that offers have already come from Europe to advance \$32 a bale, and when asked about the plan, Col. Livingston said: "The advance of \$32 a bale on cotton would of course be a very desirable thing for the farmers, and would relieve the stringency of the money market, as about \$64,000,000 would at once come to our people. But the scheme is impracticable. The only thing that will relieve the stringency is the shipment of cotton to Europe and the return of money to this country." His advice to the farmers is: "Put your cotton in the hands of your merchant if you are indebted to him; not to be sold, but as a security debt, and let him draw on the cotton to relieve his own indebtedness."

A Good Appetite

Is essential to good health; but at this season it is often lost, owing to the poverty or impurity of the blood, derangement of the digestive organs, and the weakening effect of the changing season. Hood's Sarsaparilla is a wonderful medicine for creating an appetite, toning the digestion, and giving strength to the whole system. Now is the time to take it. Be sure to get Hood's Sarsaparilla.
