CATARRH

Is a most loathsome, dangerous, and prevalent malady. It is a blood disease, usually of Scrofulous origin, and for which local treatment is useless. Before health is possible, the poison must be eradicated from the system, and to do this

SUCCESSFULLY

the disease must be treated through the blood. For this purpose no remedy is so effective as Ayer's Sarsaparilla.

"For the past eight years, I have been severely afflicted with Catarrh, none of the many remedies I tried affording me any relief. My digestion was considerably impaired, and my sleep disturbed by phlegm dropping into my throat. In September last I resolved to try Ayer's Sarsaparilla, began to use it at once, and am glad to testify to a great improvement in my health." —Frank Teson, Jr., engineer, 271 West Fourth street, New York City.

"My daughter, 16 years old, was afflicted with Catarrh from her fifth year. Last August she was

TREATED WITH

Ayer's Sarsaparilla, and after three months of this treatment she was completely cured. It was a most extraordinary case, as any druggist here can testify." —Mrs. D. W. Barnes, Valparaiso, Neb.

The leader in our corset department is the Kabo Corset—and justly so.

It's not only perfect fitting, but the bones won't break.

In case they do, come back and get your money.

Another reason—it has soft eyelets which will not cut the laces.

THE PASSING LOCAL EVENTS OF THE DAY.

What is Transpiring Around and About Us, in Town and County--The Movements and Doings of People You Know, Etc.

—A big time is expected at the Oxford Orphan Asylum on St. John's Day, June 24.

—The new board of county commissioners will not go into office until the first Monday in December next.

—Cheap summer rates on the Richmond & Danville Railroad went into effect June 1 and will expire September 1.

—There were three deaths in Oxford during the month of May. All were colored—one infant and two old persons,

—The rock-crusher will be started working again as soon as the material train comes to haul the rock, which will be in a few days.

—Licenses to retail liquor, for six months from July 1, 1892, have been granted by the city commissioners to R. S. Usry and R. Broughton.

—A mass meeting, to organize the People's party of Granville county and to elect delegates to a district convention, will be held in Oxford Saturday.

—Clerk W. A. Bobbitt presented each one of the magistrates on Monday with a neatly bound fee Bill and Catalogue of Legal Blanks, which will prove of great value to them.

—The Baltimore Manufacturers' Record, noticing the incorporation of the Granville Iron Company at Oxford, says that the ore from the mines owned by this concern is high grade Bessemer.

—Roger Yancey, the jail-breaker, was brought here Friday and lodged in jail. When arrested at Durham that morning he made some resistance, and bystanders had to come to the officer's assistance.

—The work of grading the Oxford & Coast Line Railroad is going bravely on, and good progress is being made. The hands are now working in the rear of A. B. Currin's stables, within the corporate limits of the town.

—The railroads are publishing reduced rates to Oxford on account of the St. John's Day celebration at the Oxford Orphan Asylum on June 24. By the way, our citizens ought to lend a hand and help to make the occasion a grand and glorious success.

—The plan now is to run the O. & C. L. Railroad across Williamsboro street near the old O. & H. depot, along Railroad street, make a half circle through Taylor's old field, and come up New College street and locate the station next to the Osborn House.

—Raleigh is highly pleased with the O. & C. schedule with sleepers attached and claim that it is of material benefit to her business interests. It is said that the travel between Richmond and Raleigh has increased since the night trains have been put on.

—Porter's census give the acreage and yield of cotton in Granville county for the years 1889-90 as follows: 2,803 acres; 982 bales. Few of our own people had any idea the cotton crop of Granville was so large as that. Ours is a bright tobacco county and the greatest on earth in that particular line.

—The infant child of Mr. and Mrs. A. D. Oakley, died near Geneva, on the 2nd inst. Aged 18 months.

—A new post-office will be opened at Jones' store, near Geneva, on the first of July, by the name of Culbreth.

—We call the attention of guardians, executors, and administrators to the fact that the law requires that they shall make annual returns. Look after this at once or the sheriff might serve a citation on you for not complying with law.

—The Standard is glad to know that Mr. Dusenbery has a delightful position in Oxford and that he likes his new home. We warn him, however, of his love for Col. Britt, of the Oxford LEDGER.—Concord Standard. We call Major General Jim Cook down. Such passing remarks are out of order.

—Almost the entire tobacco crop has been planted, and the stand is something phenomenal, nearly in every instant the plant can be seen in a flourishing condition, consequently replanting will be a program of but little importance. The crop this year is smaller. Corn crop planted is large and a good yield is expected.

—Mr. and Mrs. C. W. Bryan will give a party this Friday night at their beautiful home near Minor's Mill, in honor of the Misses Bryan, who are their guests. Clever and unique invitations have been sent out, representing a well-executed spider web, with spider and flies and across it these words: "Will you walk into my parlor Friday, June 10, at 8 p. m.?"

COL. POLK DYING.

The President of the Farmers' Alliance said to be at Death's Door.

WASHINGTON, D. C., June 8th.—President L. L. Polk, is thought to be dying in this city. His case is considered hopeless by his physicians. Dr. J. M. Hays in diagnosing his case said that he had been ill with hemorrhage from the bladder, caused probably by a tumor, and this is complicated with blood poisoning. Dr. Ford Thompson is the consulting doctor. The sudden change for the worse in Mr. Polk's condition which occurred today was unexpected, the immediate cause of which was heart failure. Twice during the day the physicians thought he had expired, but each time he rallied.

Up to hour going to press 1 p. m. on Thursday no further news had been received as to his condition.

—W. T. Pattillo, a most worthy and well educated young colored man, and a prosperous merchant of Stoval, paid his respects to the PUBLIC LEDGER on Tuesday.

—We had the pleasure of meeting in our sanetum, Mr. A. B. Kimball, of Tar River, stenographer and typewriter for President Winston, of the University. He is one of Granville's rising young men, and we wish him continued success.

I have used one jug of Radam's Microbe Killer, and for the last three weeks have been sleeping naturally, soundly and sweetly as a child. I attributed my relief to the remedy, and heartily recommend it to any one suffering from asthma or catarrhal trouble."
