From a Granville Tar Heel in Illinois.

NORMAL, ILL., June 16, 1893.

EDITOR PUBLIC LEDGER:—It has been some time since I looked at a copy of the LEDGER, but received today the copies of June 2 and 9 which were very much appreciated, and you can only imagine how good it makes a fellow feel to get his old home paper, especially when he is way up in the Northwest. When I first landed here I felt a little "jib" to think I was in Yankeedom and North of the Mason and Dixon line, but after I had been here for a while, I found it just as agreeable and pleasant as if I had been in my own country. Another thing I remember—last fall I was in Oxford the day after the election and was up in Democratic headquarters when the telegrams from Illinois were read out by A. W. Graham, announcing that the Democrats had carried that State, which makes me feel a little more at home, especially since I have become acquainted with the country, towns and cities. I am living within a mile and a half of our Vice-President and that makes me feel good too. He lives in Bloomington. I have seen him once since I have been here. My brother and I was out driving last Sunday evening and passed his residence, which looked just like a Democrat's home. This is a fine State and very rich land, and all the corn, wheat and oats anyone could ask for is raised here. Corn is no object—is selling for 25 to 30 cents per bushel; more fine horses than some of the Granville boys ever say or ever will see, and beef—there is no use talking. Some times I see a train a mile long loaded with cows going to Chicago to be butchered and dressed for market, so those who go to the World's Fair may expect plenty of beef, for I have seen it going on to the place. Weekly Weather Crop Bulletin.

RALEIGH, June 20.—The week ending June 19th was not so favorable to crops and farm work as the preceding week. The temperature was slightly below the normal; sunshine deficient; rain-fall generally above the normal, with great excesses in some localities. A severe storm moving up the coast on the 16th produced very heavy rains and high winds in the counties along the coast. Hail occurred on the 12th, 13th and 14th, the damage generally being slight, but on the 13th greatly injured all crops on a few farms in the west. The frequent rains in the central and western portion of the State greatly interfered with harvesting of wheat and caused some slight loss. Reports on tobacco very encouraging; plants growing off nicely. Corn generally very good. Only a few discouraging reports received. As compared with last year all crops seem to be in good condition.

To Brace Up

the system after "La Grippe," pneumonia, fevers and other prostrating acute diseases; to build up needed flesh and strength, and to restore health and vigor when you feel "run-down" and used-up, the best thing in the world is Doctor Pierce's Golden Medical Discovery. It promotes all the bodily functions, rouses every organ into healthful action, purifies and enriches the blood, and through it cleanses, repairs, and invigorates the entire system.
 For the most stubborn Scrofulous, Skin or Scalp Diseases, Dyspepsia, Biliousness and kindred ailments, the "Discovery" is the only remedy that's guaranteed. If it doesn't benefit or cure, you have your money back.

Can you think of anything more convincing than the promise that is made by the proprietors of Dr. Sage's Catarrh Remedy? It is this: "If we can't cure your Catarrh, we'll pay you \$500 in cash."

 —Mr. Cleveland's renomination was the work of the people, and Mr. Cleveland knows it too well to be imposed on by those who claim that they helped do it, and that they should, therefore, be reimbursed for the sacrifices they made as his friends. He does not feel himself in anybody's debt for his renomination and reelection, and those who undertake to foreclose mortgages on his gratitude are going to have a hard time doing it.—St. Louis Republic.

OUR FOREIGN POLICY.

The Democratic Idea of Dealing with Other Nations.
 The foreign policy to which the democratic party is committed is of peaceful trade with all countries and intrigues against none. Only through such a policy can we long escape a foreign war that will saddle our workers with another grand army of military pensioners, so that instead of supporting a single million pretorians we will have several millions of them, insisting on their right to be supported at public expense because of their patriotism.
 The foreign policy of the last four years has been dangerous to the welfare of our own people and alarming to our neighbors. Things have come to a pretty pass with us when it requires a change of administration to make our neighbors feel, as Chili now feels, that they are safe from imminent danger of being oppressed by our intrigues in their affairs, if not by an actual army of invasion, sent to subjugate them and acquire control of their guano beds, their sugar trade, or whatever any syndicate of rapacious American plutocrats may chance to covet.
 We have all the territory we need and a great deal more than we are yet able to develop. We have not yet learned to govern ourselves justly, and we would be foolish indeed to subjugate others for the sake of governing them the better to give the same class of plutocrats who are robbing us opportunity to rob them under our auspices and with our consent.
 The foreign policy we want is not one of robbery, subjugation and annexation, but of peaceful extension of our trade. We want to put the American flag back into every port of the world and, wherever there is an English or a German mercantile agent, we want an American drummer there to compete with him.
 President Montt, of Chili, feels that his country is safe from attack now that the democrats are back in power in the United States, and the party must so shape its foreign policy that no weak people will dread subjugation from the United States. We must keep on good terms with our weaker neighbors and restore their confidence in our sense of justice and love of freedom. The country has been sufficiently disgraced by the policy of Pateganism. Let us have no more of it, neither in Chili nor in any other country.—St. Louis Republic.
