- Your talk won't help Bryan half as much as your vote, and you can't give him your vote unless you are registered.
- Will the white people of Granville allow the two Black Bills to be the ruling spirits in the county after the election?
- The PUBLIC LEDGER is for Oxford and Granville county, and for free silver. We want the patronage of the people.

- Where is the man who does not want the business enterprises of his town to be legitimate and up-to-date. This applies to your printing office. You should want a first-class paper to go out of the town and should hold up the weak knees of those who are endeavoring to do that. Don't dead-head them or send your job work to other places.

—The Populists of Person and Granville met at Berea Thursday and nominated Dr. Merritt for the Senate from the 17th district. Dr. A. J. Dalby, the decoy candidate to assist in electing Slippery Tommie Settle, the gold bug to Congress, was present and spoke a few lines for the great cause.

THE DEMOCRAT, SO CALLED.

It appeared in Oxford Saturday—Distributed free Around Town.

The first issue of the above paper at this place appeared on Saturday, with our old friend Col. J. C. Tipton as editor. It warmly supports Palmer and Buckner, not of course with any hope of securing the election of these gentlemen, but in order to inculcate and perpetuate principles of Democracy (so called).

The issue discusses politics at considerable length. The Democratic party, the People's party and the Silver party are roundly scored. Their candidate is ridiculed, his followers sneered at and their principles condemned. This is all well enough if the Democracy (so called) is opposed to them. But wonderful to relate, nowhere in the Republican party or its candidate adversely commented on. The editor has not found it in his heart to even give a passing slap to this great champion of the trusts. Can it be that the editor does not think the Republican party is a factor in this election? Does he really think it cuts such a poor figure that it does not even demand a passing remark? If there is any comment on this great party we have been unable to find it except by reading between the lines.

We find no word condemning trusts; no word against monopoly; no word against bond issues; no word in favor of an income tax; and no word in favor of protection of labor against capital. Could the Democrat (so named) not find it in its heart to say one word for the people on these subjects. Alas! "Where your treasure is there will your heart be also."

The fact that this paper is published in Oxford is no evidence that Oxford and Granville county is a hot bed of gold bugism, as we verily believe that their ticket will not receive one dozen votes in the county.

Major Guthrie Wants Kitchin Elected.

Saturday night Major Guthrie, candidate for Governor on the Populist ticket, advised the people to vote for W. W. Kitchin for Congress. The Durham Sun says:

After talking for sometime, the speaker said, "If the Republican party had been true, I would be with it today. I am glad to see that the Democrats and Populists of this county have come together. Are you going to vote in this contest to destroy your own rights, etc. Put honest men in office and you will have prosperity. People have been betrayed by the leaders. I want all of us to get a little religion in this campaign and get back together again."

"The toilers on the farms want more money. Taxes don't get any less. The national debt is big today or bigger than it was the day Lucy surrendered."

"A man cannot love his country when he is oppressed. He cannot love a government that oppresses him."

"I do not intend to vote for any President unless I think he is a patriot, etc."

"Let us elect Bryan. Let us send to Congress from the Fifth district, W. W. Kitchin, and let us say to Settle, 'you stay at home.' If he believed he could be elected, I would give him my vote. As a vote for him means a vote for Settle, I advise all my friends to vote for Kitchin. Don't stultify yourselves by voting for a free silver President, and then tie his hands by voting for a gold bug Congressman."

Strange But True.

We are sorry to see Mr. J. M. Curran has left the party of his fathers and joined himself unto strange gods. Mr. Curran has for years been a leader among the Democrats of this county and was at one time Chairman of the County Executive Committee. He has hitherto been in close touch with the people and been universally liked and respected. But for several years past he has been the trusted representative on this market of the American Tobacco Company—that great trust that has gone deeper into the pockets of the farmers of Granville than all the other trusts combined. Now he publicly states he proposes to vote for McKinley and Settle, which of course he has a perfect right to do, but in our humble judgment by such action he turns his back upon the masses of our people.

As editor of the PUBLIC LEDGER we are truly sorry of this, and believe sooner or later he will see the error of his action.

Good Breaks.

Oxford warehouses enjoyed good breaks of tobacco Friday, with the minor leading in quantity. The prices are still low, and seem "to get lower" so says the farmers, almost equal to giving it away. But still it is as high on the Oxford market as any other, as the American Tobacco Company controls them all.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do you have indigestion, which means not-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists. Price 10 cents to \$1 per bottle.

AFTER SETTLE.

The Colored Brother Wants to Know Where He Comes In.

In these days of great political excitement it is sometimes difficult to get at the exact truth of what is going on, but here is a story that comes pretty straight.

A crowd of influential colored voters called on B. C. Sharpe the other night and wanted to know how Settle stood on certain matters and what he was going to do for the "boys" who were willing to pull off their coats and do some missionary work for him.

It seems they couldn't exactly agree with Mr. Sharpe on details and finally things came just the least bit warm, when Sharpe, with great confidence, said:

"Oh, well, you fellows need not get your backs up—we can get along all right without you. You see the Pops are with us again—they have put up a decoy in the Shape of Dr. Dalby and those who won't vote for Settle will vote for him and as there are more Populists than negroes in the district you can see that we are all right."

Whereupon the crowd left, remarking that they would see how Tommy would come out without their support.

This is in keeping with the general program for has not Settle announced but recently that the negro Corbett was not and never had been his secretary, but that Sharpe is the man? This is done to secure Populist votes, but what is to be done with the colored brother?

We can tell you—he will be paid and paid well and after the election, if Settle is successful, the negro Corbett will be found doing business at the same old stand.

It's nothing but a ruse to catch Populist votes and at the proper time the word will be given to the negroes. It's too soon yet—Settle is afraid they might let it out, in their joy, and then the Pops would flicker.—Greensboro Record.

Shame on You Monroe.

By all means Monroe don't get excited or you will get in a hurry one time. Democrats and Populists listen to Monroe Sikes who has become awfully excited. At a meeting of Billie Royster's black McKinley club in the Courthouse Tuesday night Mr. J. M. Sikes was one of the orators, and in the course of his remarks said that his "daily prayer was for the eternal damnation of the Democrats" which so disgusted Dr. L. C. Taylor, an old line Republican and the only other white man present, that he at once called him down. The doctor told him that he was wrong in making such a remark, whereupon Sikes said he "had a right to pray for their political damnation." There were three white men about to enter the court room at the time and he became so disgusted at the infamous and sacrilegious remarks they would not go in. We wonder if he was only repeating what the colored political preachers are doing and advising their sanctified flocks to do the same thing? We never thought that Mr. Sikes harbored as much venom in his heart against his own race as here expressed, and had to be called down by a christian gentleman, and a Republican at that.

On its Own Merits.

The PUBLIC LEDGER stands on its merits fighting in the interest of the masses and urge the people to extend to us their patronage in subscriptions, advertising and job printing, as we are not backed up by the State, or subsidized by trusts and combines. We are proud to say we are not the tool of any man or set of men, and bookie nobody in order to be numbered with the mighty who seem to think that all small potatoes must nibble at their coat tails if they expect anything at their hands.

Wind Bag.

One of our subscribers asked us one day since the cyclone whether the State Executive Committee had been over in Granville with his wind bag, as two years ago every time he crossed the line and made a speech we had a terrific wind storm. We could not answer the question, but told him we had two wind bags in Oxford in the persons of two of the four beautiful and entrancing Billies.
