## **A Word** to Doctors

We have the highest regard for the medical profession. Our preparations are not sold for the purpose of antagonizing them, but rather as an aid. We lay it down as an established truth that internal remedies are positively injurious to expectant mothers. The distress and discomforts experienced during the months preceding childbirth can be alleviated only by external treatment-by applying a liniment that softens and relaxes the over-strained muscles. We make and sell such a liniment, combining the ingredients in a manner

It relieves the sense of tightness. Headaches cease, and danger from Swollen, Hard and Rising Breasts is avoided. Labor itself is shortened and shorn of most of the pain.

We know that many doctors recommend it, and we know that multitudes of women go to the drug stores and buy it because they are sure their physicians have no objections. WASHINGTON, D. C., June 12. After several days of hot weather, the a as cooled off, the rain has fallen, and sufering humanity can once more breathe with some degree of comfort. It was hot rom Monday until Saturday. We don't nean warm; we mean hot. The intense umidity of the air makes the weather very ppressive. It was a strange mion of the brave and brutal, guided by hance and fate. The old proverb that Truth is mighty an will prevail is again proven in the event ago a military scandal was started in that ountry. Some high and guilty officials, to and perjury, fastened the crime upon Drey us, a most excellent young Jew officer of the army. By such means he was convicted and banished to a lonely island to spea left and they agitated the case and publish ed such facts as they were able to obtain Zela, the great novelist, was driven out of Come in and see us, and you the country. CIVIL SERVICE FRAUDS The recent civil service order by the Pres dent is variously commented upon. As a natter of fact it is a failure. He merely exempted a few places so he could put in partizans and allay the dissatisfaction on that score before another campaign. The only bigger fraud in the whole concern than the President is the average Congressman. He will have long interviews in newspapers and make thundering speeches in the House denouncing th whole system, and when the time comes he will vote for it every time. He is merely acting a hypocritical part. The truth is he does not want it abolished, but wishes it to appear that he does so he can stand in with the people. Patronage is a dangerous thing to a public man, and has deleated as many or more for re-election than any one thing. They realize this and the easiest thing to say to an officeseeker is,"my dear sir, I can do nothing; stand the examination, get a high mark, and I will see that you get the first vacancy due my district." This always hits the bulls-eye. While you can't often get the place, neither can you blame the Congressman, for he like the poor woman, has done the best he could The law was intended to take the trouble of appointment off the congressmen, and keep a man from getting in as well as to keep him in, and to be evaded by unscrup
