THE Shah of Persia has added to the bewilderment of his subjects by appointing a special commission to draft new civil and criminal codes, and has upset his sons and courtiers by expressing his willingness to forego some of his personal prerogatives.

AN Englishman has bought the contents of the royal castle of Nuremberg, containing the most complete collection of instruments of torture extant, costing £8,000 in all. There is a library of 3,000 volumes, giving the history of crime and torture for many centuries.

TWO or three years ago the Russian Government established credit banks for the purpose of assisting the owners of large estates who happened to be pressed for money. The effect has been that the number of mortgaged estates is much greater than ever and many belonging to high nobles are to be sold this year for non-payment of the interest on loans.

AN unusual contrast was lately witnessed upon one of the grimy London wharves—an auction of a beautiful and interesting collection of sculptures just imported from Italy. It comprised works by the most prominent Italian artists of the present, Mainotti, Tempua, Fausto, Olivieri, Froli, Ferrarini, Dagnini, Levy, and other Florentine, Roman and Neapolitan sculptors.

THE modern land of Babel is Austria-Hungary. Every body there wants to speak a different language from every body else. A new telephone line has just been opened between Buda Pesth and Prague, and the employes could not agree what language to use to each other. Some wanted to speak German, some Polish, yet others Magyar or Czech. At last the difficulty has been got over by an ordinance that French shall be used.

THE famous gold mines of the province of Carabaya, department of Puno, Peru, which were formerly worked extensively by the Spaniards and Portuguese, but were subsequently abandoned, partly on account of the attacks of savages and partly because of revolutions, are now exciting great interest. Many quartz and placer mines are being taken up, as, with the advance of civilization and improvements in the roads, enterprise is taking rapid strides in that district, where there is immense mineral and vegetable wealth.

REV. C. DURHAM,
D. D.,

TESTIFIES

AS FOLLOWS:

It gives us pleasure to bear testimony to the value of Panacea Water. And as results that have come under our observation are the best commendation of this water, we give the facts in a single case:

On the recommendation of Dr. P. E. Hines (of Raleigh) Mrs. Durham, wife of Rev. C. Durham, Corresponding Secretary of the North Carolina Baptist State Convention, after months of sickness and suffering, began the use of Panacea Water, and was soon

VERY GREATLY benefited by it.

She had before this tried the water from two very noted springs without relief.

Thanks the life of his child was saved from death by Cholera Infantum by use of Panacea :- Water.

H. A. TAYLOR, Esq.,

Formerly a member of Granville Inferior Court, says that his son, Mr. John M. Taylor, who is a well-known tobacco-merchant of Richmond, was dangerously ill. He tried two highly celebrated mineral waters under the advice of his physician without satisfactory results. Finally at the suggestion of Mr. Taylor, Sr Panacea Water was tried. It proved so beneficial that the Doctor in charge advised the discontinuance of all other mineral waters except the Panacea, remarking that the Panacea Water had done his patient more good than all medicines, and the other two mineral waters of celebrity.
