#### OXFORD, N. C.

JANUARY, 30, 1890. HURSDAY,

ill was passed. The measure makes the duty of the Secretary of the Treasury to credit to each State and Territory of the United States and the District of Columbia a sum equal to all collections from them under the direct tax bill of 1861. Senator Vest said "its passage was a foregone conopposition, and especially by President Cleveland's veto of the same bill He regarded the measure as utterly indefensible and without constitutional authority and unwarranted by precedent." Mr. Vance offered as an amendment a proposition to refund the cotton tax, but it was rejected, yeas 15, nays 52.

THE proprietors of the mineral springs in Wisconsin have sent a representative before the Ways and Means Committee to in argue favor of a high tariff on foreign mineral waters so as to exclude them from competition. The Washington Post says: "This threatened blow at Apollinaris would seem to be needless, in as much the Apollinaris springs have long since been exhausted, and four dollars' worth of the trade article can now be manufactured in New York out of seventeen cents worth of Epsom salts and twenty-three cents' worth of pyroligneous acid."

THE commonest and ugliest capitol of any State in the Union is that of Virginia at Richmond. Lynchburg calls pointed attention to it by offering to erect a new building free of cost, provided the seat of government is moved to that city. Richmond is building a magnificent city hall opposite the capitol, which makes the poverty and insignificance of the State structure all the more striking.

SPEAKER REED has proven just the extreme partizan and unfair presiding officer of the House predicted. His arbitrary ruling yesterday caused a heated debate. Having complete control of the national government it that and persists election after elecis evident the Republicans intend to use their advantage for all it is worth. The South need not expect even justice much less any benefits.

It is stated that the golden rod has been made by a majority vote of the ageous. The light of truth is bound people the national flower. may be nothing in a name, but strikes us this is too significant.

Honors are being heaped thick and fast upon Nellie Bly: A baby kangaroo in the Philadelphia Zoological Garden has been named after her.

California has snow fifty feet deep,

#### ONE OF UNCLE SAM'S ENCROACH-

Contributed to THE DAY.

The conduct of the Register of Deeds at Raleigh towards the official sent out by the United States to pry into the county affairs, was just and commendable. Though this is a small matter, we are very much impressed the rights of the Southern people, and not only ingratitude and indifference to the Southern Republicans, but manifest Our advertising rates are very low-for the meanness, selfishness and avarice of the Republican party. What were fer to, is this recent commission in the Census Department at Washington City of a multitude of yankees to go to the counties of the different Southern States and possess themselves of though its records, by the authority of and for the United States. In the first place we don't under-

stand the necessity or the authority of cannot afford to take risks or wait the the National Government having inspected and reported the standing of a county. To us it looks like an unwarranted and unconstitutional interference with the privacy of State and county affairs, and are other devials of State sovereignty, which caused twenty-five years ago open bloody hostili-In the Senate Tuesday the direct tax ties. When they couldn't run both houses to suit themselves, and found that the Southern people could not be coerced to subservance by this dishonest legislation, they resorted to arms, thereby forcing the South to take up arms against the union which they Prices that will prove entirely wished to preserve. But nothing else is hardly to be expected of a northern Republican party in power, judging from the history of the past. They clusion, but he stood by his record of have ever sought, not being satisfied with the devastation of the south by war, to retard her progress by oppressive legislation; but notwithstanding the vitupurations heaped upon her in every way by these her enemies, she stands today in the eyes of the world a spotless mirror of honor, respected and honored by all.

But to return to our subject. If it is necessary that the United States, or I should say the Republican party, should know the indebtedness Granville county, why could not the work, which will require about a month for its performance, paying about five dollars per day and expenses, be given to a Granville county man, and the same policy be followered throughout the Sout i, instead of sending down men fron the north to pry in our local affairs and do the work which we are present. entitled to? The problem is solved when we remember that the Republican party is in power. Shrewdness is characteristic of rascality, and they order that at the next election they may by their statistics show the great progress of the country under their administration. This is the party which from its advent to the present, has had northern men as its representatives, and the pages of whose history are darkened with infamy. Yes, this is the party, which by holding out spoils as the rewards for disloyalty, attracted and dethroned the reasons of some weak southern, white men, whose avarice and desire for gain was greater than the dictates of their conscience northern friends their ears often tickled before elections by the whisperings of fancy, to which they listened with credulity, they afterwards found that they had pursued with eagernes the phantasm of hope, and that the spoils which they were to receive as a retribution for their labors, faded from their right away into the hands of northern benificaries. But tle southern Republican is undaunted by tion in his evil ways, with no prospect of brighter success. Instead of fleeing from the curse they harden their necks against the proclaimed admonitions of Democracy and stumble. They are indeed to be pitied.

But, friends, be ye strong and courto prevail, and though reasons for a time may be clouded, it is too strong a monarch in the mental kingdom not to assert her power.

# Panacea!

# North Carolina's Greatest Boon

## Suffering Humanity!

November 29, 1889.

Capt. John A. Williams:

I take pleasure in reporting to you a remarkable cure of a friend of mine in my neighborhood, who was greatly reduced in flesh, suffering/ with an awful case of Chronic Diarrhoea. The best medical skill failed to cure and the patient was in a state of despair as ! to ever being cured, but on trying Panacea Water, a cure was effected in less than a month, although the terrible disease had been of over twelve months in duration. This cure is marvellous beyond belief and shows that the water possess peculiar adaptability for curing Chronic Diarrhoea.

J. C. RANDOLPH.

Capt. John A. Williams is all the time receiving testimonies in favor of Panacea Water.

Our courteous Mayor, Lewis G. Smith, Esq., has given a strong testimonial to the value of the water in his own case and the case of one of his children. His endorsement is very ssrong.

Mr. M. F. Hart of Messrs. Hart, Lawrence & Cochran has given emphatic endorsement to the merits of Panacea. His family had visited several celebrated springs but found the Panacea Water the best of any.

Mr. J. C. Hundley has used the Panacea Water in his family and speaks in the highest terms of its virtues. He says it acted like a charm.

Dr. John W. Booth has had another case, besides those he has heretofore given, wherein Panacea Water acted with very remarkable efficacy.

Mr. J. E. Tyler says he has used the Panacea in his family with decided benefit.

Mr. A. P. Fleming speaks knowingly of the virtues of Panacea Water.

But I'v

points

Rev. W. S. Hester says Panacea Water acted like a charm in his case, and now he is equally decided in saying it was of great benefit to his wife.
