SENATOR VANCE addressed the Senate yesterday on the negro question. He does not approve of the Butler bill. It was not practicable, would not reach the case and would result in no substantial relief. Criticising Mr. Ingall's speech he said, "it reminded him forcibly of an astronomer's description of the remarkable tenuity of was described as a hundred million miles as it stretched athwart the skies, and its breadth as fifty thousand miles, and yet the solid matter which it conhorse car. He (Vance) had listened and listened with great entertainment to that speech; he had searched and searched and he had wondered where the remedy was for the evil that was have to be carried by means of a depicted in such colors. He wanted to see the solid matter of the illumination. Suddenly, he said, before the light expired and the Senate was left in darkness, the solution was announced as 'justice.' WE received today a copy of the trade edition of the Times-Union, of Jacksonville, Fla. It is a magnificient issue, containing fifty-six pages exclusive of the colored cover, and enbraces descriptions of every section of the Orange State. Such a publication, scattered broad cast over the country, must accomplish great good. As a journalistic enterprise it is highly creditable to the Times-Union. We suppose it easily surpasses anything of the kind before undertaken in the South.

The Plot in Congress.

New York World.

The Republican caucus of the House of Representatives has determined to obey Quay's order, and has decided that Congress must wait for its rules until the seventeen Republican contestants are seated.

In the history of parliamentary government since the time of the Stuarts L. G. Jones, James Wheeler and others. The charge is very small and we defraud the majority, Mr. Reed is to be left with arbitrary power. How willing he is to assume such power he has already shown. This is the plot that was furthered by the Republican caucus on Monday evening. It is bold, it is revolutionary, it is criminal. It is worthy of its authors-of Quay the boss, of Dudley the criminal, of attorney Edmonds, of Harrison and Reed.

If the Republicans disired to decide these cases on their merits they would ure. That they are not is proof positive of a dishonest purpose.

# Panacea!

## North Carolina's Greatest Boon

### Suffering Humanity!

November 29, 1889. Capt. John A. Williams:

I take pleasure in reporting to you a remarkable cure of a friend of mine in nay neighborhood, who was greatly reduced in flesh, suffering with an awful case of Chronic Diarrhoea. The best medical skill failed to cure and the patient was in a state of despair as to ever being cured, but on trying Panacea Water, a cure was effected in less than a month, although the terrible disease had been of over twelve months in duration. This cure is marvellous beyond belief and shows that the water possess peculiar adaptability for curing Chronic Diarrheea.

J. C. RANDOLPH.

Capt. John A. Williams is all the time receiving testimonies in favor of Panacea Water.

Our courteous Mayor, \* Lewis G. Smith, Esq., has given a strong testimonial to the value of the water in his own case and the case of one of his children. His endorsement is very ssrong.

Mr. M. F. Hart of Messrs. Hart, Lawrence & Cochran has given emphatic endorsement to the merits of Panacea. His family had visited several celebrated springs but found the Panacea Water the best of any.

Mr. J. C. Hundley has used the Panacea Water in his family and speaks in the highest terms of its virtues. He says it acted like a charm.

Dr. John W. Booth has had another case, besides those he has heretofore given, wherein Panacea Water acted. with very remarkable efficacy.

Mr. J. E. Tyler says he has used the Panacea in his family with decided benefit.

Mr. A. P. Fleming speaks knowingly of the virtues of Panacea Water.

Rev. W. S. Hester says Panacea Water acted like a charm in his case, and now he is equally decided in saying it was of great benefit to his wife.
